

Part I Brain Imaging and Pathologies of Consciousness

1 Consciousness and Neuroscience	3
Andrea Nani, Stefano Seri, and Andrea E. Cavanna	
2 Consciousness: Theoretical Approaches	23
Tim Bayne and Jakob Hohwy	
3 Functional Brain Imaging and Consciousness	37
Andrew P. Bagshaw and Sakhvinder Khalsa	

Part II Brain Imaging and Alterations of Consciousness in Epilepsy

4 Temporal Lobe Seizures	51
Moran Furman and Hal Blumenfeld	
5 Absence Seizures	63
Jean Gotman and George Kostopoulos	
6 Generalized Tonic–Clonic Seizures	81
A. LeBron Paige and Andrea E. Cavanna	
7 Consciousness, Epilepsy and Intracranial EEG	99
Aileen McGonigal and Fabrice Bartolomei	

Part III Brain Imaging and Alterations of Consciousness in Coma, Sleep and Anesthesia

8 Neuroimaging of Consciousness in the Vegetative and Minimally Conscious States	117
Caroline Schnakers, Steven Laureys, and Melanie Boly	
9 Sleep and Consciousness	133
Yuval Nir, Marcello Massimini, Melanie Boly, and Giulio Tononi	
10 Anesthesia	183
Vincent Bonhomme, Pierre Boveroux, and Jean François Brichant	

**Part IV Brain Imaging and Alterations of Consciousness
in Neuropsychiatric Disorders**

- 11 Neuroimaging Studies of Interoception and Self-Awareness 207**
Sarah N. Garfinkel, Yoko Nagai, Anil K. Seth,
and Hugo D. Critchley
- 12 Neuroimaging of Functional Neurological Symptoms 225**
Alan Carson, Mark Edwards, and Jon Stone
- 13 Neuroimaging Studies of the Dwindling Self:
Neurodegenerative Dementias 247**
Andrea Nani and Andrea E. Cavanna
