

Contents

1 Quantum Theory and Locality	1
1.1 Physical Systems and Space-Time	9
1.2 Quantum Mechanics	16
1.3 Einstein Locality	27
1.4 Non-local Correlations	37
1.5 Quantum Communication	47
2 Indefiniteness and Causation	55
2.1 Probability and Objectivity	58
2.2 Possibility and Potentiality	62
2.3 Quantum Indeterminacy	64
2.4 Quantum Properties	69
2.5 Quantum Causation and the Particle	73
2.6 Local Causation	84
3 Measurement and the Quantum World	99
3.1 Measurement	100
3.2 Potentiality	113
3.3 Elements of Reality and Measurement	116
3.4 Actualization of Potentiality via Measurement	120
4 Quantum Objects: Parts and Wholes	123
4.1 Individuation	129
4.2 Space-Time and Individuation	132
4.3 Indiscernibility	139
4.4 Quantum Individuals	146
4.5 Parts and Wholes	153
4.6 Field Theory and Quanta	157
4.7 Reduction	163
References	181
Index	195
