Invited Talk

Some History of Functional Programming Languages (Invited Talk)	1
<i>D.A. Turner</i>	

Contributions

Combining Deep and Shallow Embedding for EDSL	21
<i>Josef Svenningsson and Emil Axelsson</i>	
The Blame Theorem for a Linear Lambda Calculus with Type Dynamic	37
<i>Luminous Fennell and Peter Thiemann</i>	
Higher-Order Size Checking without Subtyping	53
<i>Attila Góbi, Olha Shkaravska, and Marko van Eekelen</i>	
Well-Typed Islands Parse Faster	69
<i>Erik Silkenen and Jeremy Siek</i>	
Higher-Order Strictness Typing	85
<i>Sjaak Smetsers and Marko van Eekelen</i>	
Call-by-Value Semantics for Mutually Recursive First-Class Modules . . .	101
<i>Judith Rohloff and Florian Lorenzen</i>	
The Design of a Practical Proof Checker for a Lazy Functional Language	117
<i>Adam Procter, William L. Harrison, and Aaron Stump</i>	
Towards a Framework for Building Formally Verified Supercompilers in Coq	133
<i>Dimitur Nikolaev Krustev</i>	
Matching Problem for Regular Expressions with Variables	149
<i>Vladimir Komendantsky</i>	
OCaml-Java: OCaml on the JVM	167
<i>Xavier Clerc</i>	
The Functional Programming Language R and the Paradigm of Dynamic Scientific Programming (Position Paper)	182
<i>Baltasar Trancón y Widemann, Carl Friedrich Bolz, and Clemens Grelck</i>	

Lingua Franca of Functional Programming (FP) 198
 Peter Kourzanov and Henk Sips

Haskell Gets Argumentative 215
 Bas van Gijzel and Henrik Nilsson

Repeating History: Execution Replay for Parallel Haskell Programs 231
 Henrique Ferreira, Vladimir Janjic, Laura M. Castro, and Kevin Hammond

Supervised Workpools for Reliable Massively Parallel Computing 247
 Robert Stewart, Phil Trinder, and Patrick Maier

RELEASE: A High-Level Paradigm for Reliable Large-Scale Server Software (Project Paper)..... 263
 Olivier Boudeville, Francesco Cesarini, Natalia Chechina, Kenneth Lundin, Nikolaos Papaspyrou, Konstantinos Sagonas, Simon Thompson, Phil Trinder, and Ulf Wiger

Towards Heterogeneous Computing without Heterogeneous Programming..... 279
 Miguel Diogo and Clemens Grelck

On Using Erlang for Parallelization: Experience from Parallelizing Dialyzer 295
 Stavros Aronis and Konstantinos Sagonas

Author Index 311
