

Virus Infection and Human Cancer: An Overview	1
John T. Schiller and Douglas R. Lowy	
Epidemiology of Virus Infection and Human Cancer	11
Chien-Jen Chen, Wan-Lun Hsu, Hwai-I Yang, Mei-Hsuan Lee, Hui-Chi Chen, Yin-Chu Chien and San-Lin You	
Virus Infection, Inflammation and Prevention of Cancer	33
Norman Woller and Florian Kühnel	
The Oncogenic Role of Hepatitis B Virus	59
Lise Rivi�re, Aur�lie Ducroux and Marie Annick Buendia	
Prevention of Hepatitis B Virus Infection and Liver Cancer	75
Mei-Hwei Chang	
The Oncogenic Role of Hepatitis C Virus	97
Kazuhiko Koike	
Prevention of Hepatitis C Virus Infection and Liver Cancer	113
E. J. Lim and J. Torresi	
The Role of Human Papillomaviruses in Oncogenesis	135
Kristen K. Mighty and Laimonis A. Laimins	
Control of HPV Infection and Related Cancer Through Vaccination	149
Nam Phuung Tran, Chien-Fu Hung, Richard Roden and T.-C. Wu	
Prevention and Treatment for Epstein–Barr Virus Infection and Related Cancers	173
Fran�oise Smets and Etienne M. Sokal	

HTLV-1 and Leukemogenesis: Virus–Cell Interactions in the Development of Adult T-Cell Leukemia	191
Linda Zane and Kuan-Teh Jeang	
Prevention of Human T-Cell Lymphotropic Virus Type 1 Infection and Adult T-Cell Leukemia/Lymphoma	211
Makoto Yoshimitsu, Yohann White and Naomichi Arima	
Molecular Biology of Human Herpesvirus 8: Novel Functions and Virus–Host Interactions Implicated in Viral Pathogenesis and Replication	227
Emily Cousins and John Nicholas	
Anti-Viral Treatment and Cancer Control	269
Wei-Liang Shih, Chi-Tai Fang and Pei-Jer Chen
