

Table of Contents

Electrified Vehicles

Embedded Systems: The Migration from ICE Vehicles to Electric Vehicles	3
M. Ottella, P. Perlo, Centro Ricerche Fiat	
O. Vermesan, SINTEF	
R. John, Infineon Technologies	
K. Gehrels, NXP Semiconductors	
H. Gall, austriamicrosystems	
J. Aubert, FICOSA International	
Green Combustion Cars Drive on Electric (BLDC) Motors	13
D. Leman, Melexis	
Achieving Efficient Designs for Energy and Power Systems of Electric Vehicles	21
E. Larrodé, J. Gallego, S. Sánchez, Universidad of Zaragoza	
Inverter Losses Reduction Control Techniques for Plug-In HEV and FEV Traction Drive	29
F. Cheli, D. Tarsitano, F. Mapelli, Politecnico di Milano	
Start&Stop Energy Management Strategy for a Plug-In HEV: Numerical Analysis and Experimental Test	39
F. Cheli, F. Mapelli, R. Viganò, D. Tarsitano, Politecnico di Milano	
Smart Power Control and Architecture for an Efficient Vehicle Alternator - Capacitor - Load System	51
L. Brabetz, M. Ayeb, D. Tellmann, J. Wang, Universität of Kassel	
Advanced Mobile Information and Planning Support for EVs (MIPEV)	61
P. Bouteiller, Finfortec GmbH	
P. Conradi, Steinbeis GmbH	
TU VeLog: A Small Competitive Autarkic GPS Data Logging System	69
F. Schüppel, S. Marker, P. Waldowski, V. Schindler	
Technische Universität Berlin	

Monitoring of Batteries and Variable Dynamic Behaviour of an Electric Vehicle	79
E. Cañibano, J. Romo, M.-I. González, L. De Prada, S. Benito, A. Pisonero, CIDAUT Foundation	

Power Train Efficiency

Vehicle Energy Management – Energy Related Optimal Operating Strategies for CO₂ Reduction	89
Th. Eymann, Bosch Engineering GmbH A. Vikas, Robert Bosch GmbH	
Active Engine Management Sensors for Power Train Efficiency	101
P. Slama, Infineon Technologies Austria AG	
Thermal Systems Integration for Fuel Economy - TIFFE	109
C. Malvicino, R. Seccardini, Centro Ricerche Fiat	
Estimation of the Driver-Style Economy and Safety Via Inertial Measurements	121
S. M. Savaresi, V. Manzoni, A. Corti, Politecnico di Milano P. De Luca, Teleparking Srl	

Safety & Driver Assistance

Stable Road Lane Model Based on Clothoids	133
C. Gackstatter, P. Heinemann, S. Thomas, Audi Electronics Venture GmbH G. Klinker, Technische Universität München	
Utilizing Near-Infrared and Colour Information in an Automotive Wide-Dynamic-Range Night Vision System for Driver Assistance	145
D. Hertel, C. De Locht, Melexis	
ADOSE – Bio-Inspired In-Vehicle Sensor Technology for Active Safety	155
J. Kogler, Ch. Sulzbachner, E. Schoitsch, W. Kubinger, M. Litzenberger, AIT Austrian Institute of Technology GmbH	

Improving Pedestrian Safety in Urban Scenarios Through Autonomous Collision Avoidance	165
M. Roehder, S. Humphrey, B. Giesler, Audi Electronics Venture GmbH K. Berns, Universität Kaiserslautern	

Saferider On Bike Information System	177
R. Montanari, A. Spadoni, University of Modena and Reggio Emilia M. Pieve, Piaggio s.p.a. M. Terenziani, MetaSystem s.p.a S. Granelli, AvMap s.r.l.	

The Multi-Functional Front Camera Challenge and Opportunity	189
A. Tewes, M. Nerling, H. Henckel, Hella Aglaia Mobile Vision GmbH	

An Occupancy Grid Based Architecture for ADAS	199
O. Aycard, T. D. Vu, Q. Baig, Université Grenoble 1	

A Concept Vehicle for Rapid Prototyping of Advanced Driver Assistance Systems	211
R. Schubert, E. Richter, N. Mattern, P. Lindner, G. Wanielik, Technische Universität Chemnitz	

Intersection Safety

INTERSAFE-2: Progress on Cooperative Intersection Safety	223
B. Roessler, D. Westhoff, Sick AG	

Intersection Safety for Heavy Goods Vehicles Safety Application Development	233
M. Ahrholdt, G. Grubb, E. Agardt, Volvo Technology Corporation	

Progress of Intersection Safety System Development: Volkswagen Within the INTERSAFE-2 Project	241
J. Knaup, S. Herrmann, M.-M. Meinecke, M. A. Obojski, Volkswagen AG	

On-Board 6D Visual Sensor for Intersection Driving Assistance	253
S. Nedeveschi, T. Marita, R. Danescu, F. Oniga, S. Bota, I. Haller, C. Pantilie, M. Drulea, C. Golban, Universitatea Tehnica din Cluj-Napoca	

Cooperative Intersection Infrastructure Monitoring System	265
M. Kutila, P. Pyykönen, J. Yliaho, VTT Technical Research Centre of Finland	
B. Rössler, Sick AG	

Components & Systems

From Sensors to Sensor Systems	279
S. Günthner, B. Schmid, A. Kolbe, Continental	
Solutions for Safety Critical Automotive Applications	289
M. Osajda, Freescale Semiconductor	
Secure Wireless Control Area Network	297
D. T. Nguyen, J. Singh, H. P. Le, B. Soh, LaTrobe University	
Design and Control of a Linear Electromagnetic Actuator for Active Vehicle Suspension	311
J. Wang, W. Wang, University of Sheffield	
S. Tuplin, M. C. Best, Loughborough University	
Optimising Efficiency using Hardware Co-Processing for the CORDIC Algorithm	325
A. Glascott-Jones, P. Kuntz, T. Masson, P.A. Pinconcely, B. Diasparra,	
A. Tatat, F. Berny, F. Salvi, M. Fadlallah, e2v	
D. Kerr-Munslow, Cortus	
Microsensor Based 3D Inertial Measurement System for Motion Tracking in Crash Tests	337
F. Niestroj, J. Melbert, Ruhr-Universität Bochum	
Virtual Reality and Hardware In-the-Loop Testing Methods in the eCall In-Vehicle Module Research and Verification	347
J. Merkisz, Poznan University of Technology	
R. Grzeszczyk, Automex sp. z.o.o.	
2020 Auto Sensor Vision	357
R. Dixon, J. Bouchaud, iSuppli Corporation	

Traffic Management

Towards an Active Approach to Guaranteed Arrival Times Based on Traffic Shaping **367**

D. Marinescu, M. Bouroche, V. Cahill, Trinity College Dublin

Simulation Process for Vehicle Applications Depending on Alternative Driving Routes Between Real-World Locations **377**

A. Lamprecht, Technische Universität München

T. Ganslmeier, Audi Electronics Venture GmbH

Priority System and Information Workflow for BHLS Services: An Interregional Project Between Italy and Germany **387**

S. Gini, G. Ambrosino, MemEx srl

P. Frosini, Resolvo srl

F. Schoen, Università di Firenze

H. Kirschfink, Momatec GmbH

iTETRIS - A System for the Evaluation of Cooperative Traffic Management Solutions **399**

D. Krajewicz, German Aerospace Center

R. Blokpoel, Peek Traffic bv

F. Cartolano, Comune di Bologna

P. Cataldi, EURECOM

A. Gonzalez, O. Lazaro, Innovalia Association

J. Leguay, Thales Communication France

L. Lin, Hitachi Europe Ltd.

J. Maneros, CBT Comunicación & Multimedia

M. Rondinone, Universidad Miguel Hernández de Elche

A Comprehensive Simulation Tool Set for Cooperative Systems **411**

T. Benz, PTV AG

R. Kernchen, University Surrey

M. Killat, KIT

A. Richter, DLR

B. Schünemann, FOKUS

GuideWeb: A New Paradigm for Navigation Support based on V2V Communication **423**

B. X. Weis, A. Sandweg, BlackForestLightning

Road Course Estimation Using Local Maps and Digital Maps	433
M. Konrad, K. Dietmayer, Universität Ulm	
M. Szczot, Daimler AG	

Galileo GNSS Based Mobility Services	443
R. Uhle, SAP AG
