

1	Historical Trends of Neuroendoscopic Surgery	1
	Bernhard L. Bauer	
2	The Application of Neuroendoscopic Techniques in Improving Altered CSF Physiology	11
	Yavor P. Enchev and Shizuo Oi	
3	Neuroendoscopy in Infants and the International Infant Hydrocephalus Study (IIHS)	31
	Shlomi Constantini, Spyros Sgouros, and Abhaya V. Kulkarni	
4	Controversies in the Endoscopic Management of the Various Forms of Hydrocephalus	47
	Giuseppe Cinalli and Pietro Spennato	
5	Current Status and Future Developments of Neuroendoscopic Management of Pituitary Tumours and Craniopharyngiomas	57
	Paolo Cappabianca, Luigi Maria Cavallo, Isabella Esposito, and Felice Esposito	
6	Current Status and Future Developments of Neuroendoscopically Assisted Neurosurgery	65
	Henry W.S. Schroeder	
7	Neuroendoscopic Instruments and Surgical Technique	81
	André Grotenhuis	
8	Integrating Endoscopy in the Technological Environment of the Modern Neurosurgical Operating Room	93
	Dieter Hellwig	
9	Endoscopic Treatment of Hypothalamic Hamartomas	109
	Harold L. Rekate	
10	Endoscopic Management of Intraventricular Brain Tumors in Children	117
	Mark M. Souweidane	
11	Neuroendoscopic Treatment of Colloid Cysts	127
	Phillipe Decq	

12	MRI of Patients with Hydrocephalus	133
	Jérôme Hodel, Alain Rahmouni, and Philippe Decq	
13	Neuroendoscopic Management of Intraparenchymal Lesions	141
	Luiz Carlos de Alencastro, Luiz Felipe de Alencastro, Ademir A. Lodetti, and Mário de Barros Faria	
14	Neuroendoscopic Techniques in the Management of Pineal Region Tumors	161
	Tai-Tong Wong	
15	The “Complex” Management of Sylvian Fissure Arachnoid Cysts	175
	Concezio Di Rocco, Federica Novegno, and Gianluca Trevisi	
16	Neuroendoscopy in Spinal Pathology: Our Experience, New Trends, and Developments	185
	Alvaro Cordoba	
17	Endoscopy-Assisted Craniosynostosis Surgery	195
	Erik J. van Lindert, Anke M. Ettema, and Wilfred A. Borstlap	
18	Endoscopic Endonasal Repair of CSF Leak	205
	Yaron A. Moshel, Madeleine R. Schaberg, Vijay K. Anand, and Theodore H. Schwartz	
19	Man-to-Machine Interface in Neuroendoscopy: The Importance of Human Interface in the Development of Neuroendoscopy	213
	Spyros Sgouros
