

# Table of Contents

Introduction.....	1
The Origins of Psychological Laboratories .....	2
Wundt's Laboratory: A Closer Look.....	5
Psychological Laboratories around the World.....	9
Methodology of Working with Historical Sources - Putting Pieces Together ....	10
The Cost of Experimental Research .....	12
Experimental Equipment at the Turn of the 20th Century .....	14
Instruments with Time-Related Functions .....	15
Time Measuring and Recording Devices.....	15
Calibration Devices for Chronoscopes .....	21
Impulse Generating Devices.....	22
Reaction Keys.....	28
Tuning Forks.....	33
Recording Devices .....	37
Kymographs.....	37
Kymograph Accessories .....	44
Registration Devices.....	47
Devices for Research of Visual Perception.....	56
Color Mixing Devices.....	56
Episcotisters .....	62
Tachistoscopes .....	63
Perimeters .....	70
Other Equipment.....	73
Devices for Research of Tactual Perception .....	75
Instruments Used for Study of Hearing .....	80
Hammering Devices .....	80
Wind Instruments.....	83
Accessories for Auditory Perception Devices .....	88

Devices for Research of Olfaction and Taste.....	90
Devices for Research of Memory and Learning.....	91
Instruments for the Measurement of Physiological Variables .....	95
Cardiographs.....	95
Pneumographs.....	97
Plethysmographs.....	100
Manometers .....	101
Sphygmographs .....	102
Devices for Measurement of Muscle Characteristics .....	105
Tremometers .....	105
Ergographs.....	106
Dynamometers.....	108
Other Tools and Devices.....	109
Auxiliary Devices .....	113
Switches.....	113
Response Curve Measuring Devices .....	114
Batteries and Accumulators .....	116
Transmissions, Engines and Tachometers .....	118
Conclusion .....	120
Summary.....	121
Bibliography .....	122
Instrument Index .....	128
