

Overview

Part I Essentials

1	Basics	3
2	Noise in Triodes	17
3	Noise in Components and Other General Noise Effects	41

Part II Operations with Singletons

4	The Common Cathode Gain Stage (CCS).	63
5	CCS Mathcad Worksheets	89
6	The Common Anode Gain Stage = The Cathode Follower (CF)	123
7	CF Mathcad Worksheets	149
8	The Common Grid Gain Stage (CGS)	187
9	CGS Mathcad Worksheets	199
10	The Concertina (or Cathodyne) Phase Splitter (CPS).	217
11	CPS Mathcad Worksheets	243
12	Constant Current Generators (CCG).	263
13	CCG Mathcad Worksheets	281

Part III Operations with Two Triodes or Double-Triodes

14	The Cascode Amplifier (CAS)	303
15	CAS Mathcad Worksheets	319
16	The Shunt Regulated Push-Pull Gain Stage (SRPP)	351
17	SRPP Mathcad Worksheets.	369
18	The μ -Follower (μF)	399

19	μ F Mathcad Worksheets	421
20	The CCS with Active Anode Load (CCA)	457
21	CCA Mathcad Worksheets	477
22	The Cascoded Cathode Follower (CCF)	533
23	CCF Mathcad Worksheets	551
24	The White Cathode Follower (WCF)	585
25	WCF Mathcad Worksheets	601
26	Two (or n) Triodes in Parallel Operation (PAR)	631
27	PAR Mathcad Worksheets	639
28	The CCS Followed by a CF1 (CCSCF)	675
29	CCSCF Mathcad Worksheets	689
30	Differential (Balanced) Gain Stage (DIF)	721
31	DIF Mathcad Worksheets	743

Part IV Knowledge Transfer

32	Feedback (FB)	775
33	FB Mathcad Worksheets	789
34	Miscellaneous (MSC).	809

Appendices A1–A5

A1:	MCD Worksheets	821
A2:	Figures.	823
A3:	Tables	839
A4:	Useful Literature and Websites	841
A5:	Abbreviations, Symbols and Subscripts	843

Index	851
