Introduction to the Editors	xv
Contributors	xix
1 History of Modern Acupuncture Research in China	1
1.1 Acupuncture and Traditional Chinese Medicine.....	1
1.1.1 The Channels and Collaterals	3
1.1.2 Acupoints	4
1.1.3 General Principles of Acupuncture Treatment	4
1.2 Modern Developments in Acupuncture Treatment	5
1.3 Acupuncture Research at Shanghai Medical University	7
1.3.1 Relationship Between the Meridian-Points and Peripheral Nerves	7
1.3.2 Acupuncture Analgesia and Acupuncture Anesthesia.....	8
1.3.3 Therapeutic Effects and Mechanisms of Acupuncture on Neurological Disorders.....	19
1.4 Concluding Remarks.....	23
References.....	24
2 Neuroanatomic Basis of Acupuncture Points	32
2.1 Introduction.....	32
2.2 Phenomena of Meridians and Acupoints.....	33
2.2.1 Theory of Meridians, Collaterals, and Acupoints	33
2.2.2 Relatively Specific Effects of Acupoints	35
2.2.3 Unique Physiological Features of Acupoints	36
2.2.4 Relatively Specific Anatomical Structures of Acupoints	37
2.3 Neuroanatomic Structure of Acupoints	39
2.3.1 Gross Anatomical Observation of Meridians and Acupoints	40
2.3.2 General Histological Features of Acupoints	54
2.3.3 Microanatomic Examination of Acupoints	58
2.3.4 Morphological Basis of Sensation of Acupuncture at Acupoints.....	60
2.3.5 Other Morphologic Research on Acupoint	62
2.4 Neural Connection Between Meridian-Point and Viscus.....	63
2.4.1 Segmental Nerve Innervation Between Meridian-Points and Viscera	65

2.4.2	Convergence of Afferent Signals of Meridian-Points and Viscera in the Central Nervous System	69
2.5	Afferent Nerve Fibers and Afferent Pathway of Acupuncture Signal	71
2.5.1	Acupuncture Signal and Afferent Nerve Fibers	71
2.5.2	Acupuncture Signal Transmission Pathway.....	72
2.6	Concluding Remarks.....	73
	Acknowledgements.....	74
	References.....	74
3	Neural Transmission of Acupuncture Signal.....	81
3.1	Introduction.....	82
3.2	Initiation of Acupuncture Signal	84
3.2.1	Acupoint-Selection Impact on the Pattern of Brain-Area Activity	84
3.2.2	Acupuncture Modality: Manual or Electrical?.....	85
3.2.3	Wave Forms, Frequency, Intensity, and Timing.....	86
3.2.4	Transduction of Acupuncture Signal in the Afferent Nerves	87
3.3	Integration of Acupuncture Signal in the Central Nervous System	89
3.3.1	Integration of Nociceptive and Acupuncture Signals in the Spinal Cord and the Gate Control Theory	91
3.3.2	Effects of Brainstem and Descending Control on Acupuncture Analgesia.....	92
3.3.3	The Limbic System and Acupuncture Analgesia	94
3.4	Neurobiological Mechanism of Acupuncture in Autonomic Nervous System.....	95
3.4.1	Structure and Function of Autonomic Nervous System.....	96
3.4.2	Acupuncture Signal Regulating Activation of Autonomic Nervous System.....	97
3.4.3	Therapeutic Effects of Acupuncture Mediated Through Autonomic Nervous System.....	98
3.5	Concluding Remarks.....	100
	Acknowledgements.....	100
	References.....	100
4	Acupuncture-Induced Activation of Endogenous Opioid System	104
4.1	Introduction.....	104
4.2	Role of Endogenous Opioid System in Acupuncture.....	105
4.3	Acupuncture-Promoted Release of Endogenous Opioids	105
4.3.1	Central Release	106
4.3.2	Peripheral Circulation	106
4.3.3	Frequency-Dependent Release.....	107
4.4	Acupuncture-Induced Alteration in the Content of EOP in the Brain.....	108
4.5	Acupuncture-Enhanced Expression of Endogenous Opioids.....	110

4.6	Acupuncture and Opioid Receptors	111
4.6.1	Role of Opioid Receptor Subtypes in Acupuncture Effects....	112
4.6.2	Acupuncture and Opioid Receptor Density	113
4.7	Concluding Remarks.....	114
	Acknowledgements.....	115
	References.....	115

5	Effect of Acupuncture on Neurotransmitters/Modulators	120
5.1	Introduction.....	121
5.2	5-hydroxytryptamine.....	121
5.2.1	Acupuncture-Induced Increase in Central 5-Hydroxytryptamine Activity	122
5.2.2	Acupuncture Regulation of 5-Hydroxytryptamine Activity in Certain Physiological and Pathophysiologic Conditions.....	123
5.2.3	Acupuncture and 5-Hydroxytryptamine Receptors	123
5.3	Noradrenalin	124
5.3.1	Acupuncture Reduction of Noradrenalin Release and Content in the Brain.....	125
5.3.2	Effect of Endogenous Opioid Peptides on Noradrenalin During Acupuncture	125
5.3.3	Acupuncture and Noradrenergic Receptors	126
5.4	Dopamine.....	126
5.4.1	Acupuncture-Induced Alteration in Dopaminergic Activity	127
5.4.2	Effect of Other Neurotransmitters on Dopaminergic Activity during Acupuncture	127
5.4.3	Acupuncture and Dopaminergic Receptors	127
5.5	Acetylcholine	128
5.5.1	Acupuncture and Cholinergic Activity	128
5.5.2	Role of Acetylcholine in Acupuncture Effects.....	129
5.5.3	Acupuncture and Cholinergic Receptors	130
5.6	Amino Acids	130
5.6.1	Excitatory Amino Acids.....	130
5.6.2	Inhibitory Amino Acids	131
5.7	Other Neurotransmitters.....	132
5.7.1	Substance P.....	132
5.7.2	Prostaglandin	132
5.7.3	Cholecystokinin-Octopeptide-8	133
5.7.4	Somatostatin.....	133
5.7.5	Orphanin FQ	133
5.7.6	Neurotrophic Factors	134
5.7.7	Nitric Oxide	134
5.8	Concluding Remarks.....	135
	Acknowledgements.....	136
	References.....	136

6	Acupuncture-Drug Balanced Anesthesia	143
6.1	Introduction: From Acupuncture Analgesia to Acupuncture Anesthesia.....	143
6.2	From Acupuncture Anesthesia to Acupuncture-Drug Balanced Anesthesia.....	145
6.2.1	The Advantages of Acupuncture-Drug Balanced Anesthesia	145
6.2.2	The Main Cases of Acupuncture-Drug Balanced Anesthesia	146
6.3	Application of Acupuncture Anesthesia in Different Countries or Areas	150
6.4	Clinical and Experimental Research on Combination of Acupuncture with Drugs in Pain Treatment.....	153
6.5	Mechanism of the Synergistic Effect of Acupuncture-Drug Combination	154
6.6	Concluding Remarks.....	157
	Acknowledgements.....	158
	References.....	158
7	Acupuncture Analgesia in Clinical Practice	162
7.1	Introduction.....	162
7.2	Common Controls for Clinical Acupuncture	164
7.3	Types of Acupuncture Approaches.....	165
7.3.1	Manual Acupuncture.....	166
7.3.2	Electroacupuncture	166
7.4	Acupuncture Analgesia in Clinical Practice.....	169
7.4.1	Headaches	169
7.4.2	Chronic Low Back Pain	172
7.4.3	Knee Osteoarthritis	175
7.4.4	Chronic Neck Pain	177
7.4.5	Neuropathic Pain.....	179
7.4.6	Motor System Injuries	181
7.4.7	Fibromyalgia.....	182
7.4.8	Cancer Pain.....	182
7.4.9	Dental Pain.....	184
7.4.10	Phantom Limb Pain	185
7.5	Side Effects	185
7.6	Concluding Remarks.....	186
	Acknowledgements.....	186
	References.....	186
8	Neurochemical Basis of Electroacupuncture Analgesia on Acute and Chronic Pain.....	194
8.1	Introduction.....	194
8.2	EA analgesia on Acute and Chronic Pain.....	195

8.2.1	Neuropathic Pain.....	195
8.2.2	Inflammatory Pain	197
8.2.3	Cancer Pain.....	198
8.3	Neurochemical Mechanism Underlying EA Analgesia on Acute Pain.....	199
8.3.1	Endogenous Opioid Peptides	199
8.3.2	CCK-8.....	203
8.3.3	Glutamate.....	204
8.3.4	GABA.....	205
8.3.5	Serotonin (5-HT).....	205
8.3.6	Noradrenaline.....	206
8.3.7	Dopamine.....	207
8.4	Neurochemical Basis of EA Analgesia on Chronic Pain.....	207
8.4.1	EOPs	208
8.4.2	Other Neuropeptides	209
8.4.3	Glutamate.....	210
8.4.4	Serotonin.....	213
8.4.5	EAA and Neuroinflammation	214
8.4.6	Neural Growth Factors and Neurotrophins.....	215
8.5	Concluding Remarks.....	217
	Acknowledgements.....	218
	References.....	218

9	Acupuncture Therapy for Stroke.....	226
9.1	Introduction.....	227
9.2	Clinical Practice of Acupuncture on Stroke	229
9.2.1	Clinical Acupuncture and Commonly Used Acupoints in Stroke Treatment	230
9.2.2	Efficacy of Acupuncture on Stroke.....	232
9.2.3	Various Factors That Affect the Efficacy of Acupuncture	235
9.3	Experimental Study of Acupuncture-Induced Protection from Stroke	236
9.3.1	Animal Models	236
9.3.2	Anti-Ischemic Effect of Acupuncture in Animals.....	238
9.3.3	Effect of Acupuncture on the Functional Recovery of the Ischemic Brain.....	240
9.3.4	Optimal EA Conditions for Maximal Protection from Cerebral Ischemia	241
9.3.5	Mechanisms of Acupuncture-Induced Protection Against Cerebral Ischemia.....	242
9.4	Concluding Remarks.....	254
	Acknowledgements.....	254
	References.....	255

10	Effects of Acupuncture on Arrhythmia and Other Cardiac Diseases	263
10.1	Introduction.....	263
10.2	Clinical Application of Acupuncture for the Treatment of Cardiac Diseases.....	264
10.2.1	Arrhythmia	265
10.2.2	Other Cardiac Disorders.....	267
10.3	Mechanisms of Acupuncture Therapy for Cardiac Disorders	268
10.3.1	Mechanisms Underlying Acupuncture Correction of Arrhythmia	269
10.3.2	Mechanisms of Acupuncture Therapy for Other Cardiac Disorders.....	278
10.4	Concluding Remarks.....	280
	Acknowledgements.....	282
	References.....	282
11	Acupuncture Therapy for Hypertension and Hypotension	289
11.1	Introduction	289
11.2	Clinical Application of Acupuncture for Treating Abnormal Blood Pressure	290
11.2.1	Hypertension	290
11.2.2	Hypotension.....	298
11.3	Mechanisms of Acupuncture Therapy for Abnormal Blood Pressure.....	300
11.3.1	Mechanisms of Acupuncture-induced Decrease in Lowering High Blood Pressure	301
11.3.2	Mechanisms of Acupuncture Therapy for Low Blood Pressure.....	312
11.4	Concluding Remarks.....	317
	Acknowledgements.....	318
	References.....	318
12	Effect of Acupuncture on Epilepsy	326
12.1	Introduction.....	326
12.2	Clinical Practice of Acupuncture on Epilepsy.....	328
12.2.1	History.....	328
12.2.2	Current Applications of Acupuncture Therapy.....	331
12.2.3	Acupoints	334
12.2.4	Efficacy	335
12.2.5	Negative and Opposite Evidences.....	336
12.3	Mechanism of Acupuncture Inhibition of Epilepsy	337
12.3.1	Effect of Acupuncture on Electroencephalogram and Power Spectra.....	338

12.3.2	Effect of Acupuncture on Excitatory and Inhibitory Amino Acids.....	340
12.3.3	Effect of Acupuncture on Neuropeptides	347
12.3.4	Effect of Acupuncture on Nitric Oxide	351
12.3.5	Effect of Acupuncture on Other Neurological Factors.....	352
12.3.6	An Anatomical View	355
12.4	Concluding Remarks.....	355
	Acknowledgements.....	356
	References.....	356
13	Neuroimmuno-effect of Acupuncture on Immune- mediated Disorders.....	365
13.1	Introduction.....	365
13.2	Acupuncture and Immune-mediated Disorders.....	366
13.2.1	Immunostimulant Points	367
13.2.2	Acupoint Specificity and Acupuncture Efficacy	367
13.2.3	Immune Modulation of Acupuncture	368
13.2.4	Common Practice of Acupuncture on Immune-mediated Disorders	370
13.3	Mechanism of Acupuncture on Immune-related Diseases.....	376
13.3.1	The General Regulatory Effects of Acupuncture and the Theory of Neuroendocrine-immune Network	376
13.3.2	Role of Hypothalamus-pituitary-adrenal Axis in Acupuncture-mediated Effects on Immune System	378
13.3.3	Role of Neuropeptides on the Immunoregulatory Effects of Acupuncture	379
13.4	Concluding Remarks.....	383
	Acknowledgements.....	384
	References.....	384
14	Acupuncture Treatment for Female Infertility.....	389
14.1	Introduction.....	389
14.2	Treatment of Infertility.....	391
14.2.1	Principles of Medication and Reproductive Technologies.....	391
14.2.2	Acupuncture Therapeutics.....	392
14.2.3	Acupuncture Combined with Assisted Reproduction Technology	394
14.3	Mechanism of Acupuncture Therapy for Infertility	394
14.3.1	Clinical Studies	395
14.3.2	Experimental Studies.....	397
14.4	Concluding Remarks.....	403
	References.....	403

15	Acupuncture Therapy for Menopausal and Perimenopausal Syndrome	407
15.1	Introduction	407
15.2	Acupuncture Treatment for Menopause and Perimenopausal Syndrome	409
15.2.1	Commonly Used Acupoints	409
15.2.2	Therapeutic Effects of Acupuncture on Menopausal Syndrome	411
15.3	How Does Acupuncture Work?	413
15.3.1	Electroacupuncture-induced Regulation of Hypothalamic-pituitary-ovarian Axis	413
15.3.2	Role of β -endorphin	417
15.3.3	Role of Corticotrophin-releasing Factor and Hypothalamus-pituitary-adrenal Axis	418
15.3.4	Role of Extragonadal Aromatization	419
15.3.5	Electroacupuncture Promotes the Homeostasis in Ovariectomized Rats	421
15.3.6	Psychological Impact of Acupuncture	422
15.4	Concluding Remarks	422
	References	423
16	Acupuncture for Smoking Cessation	426
16.1	Introduction	426
16.2	Researches on Smoking Cessation	427
16.3	Clinical Application of Acupuncture for Smoking Cessation	428
16.3.1	Body Acupuncture	429
16.3.2	Auriculo-acupuncture	430
16.3.3	Nasal Acupuncture	430
16.3.4	Combination Therapy	431
16.4	Mechanisms of Acupuncture Therapy for Smoking Cessation	432
16.4.1	Gustatory Sensation and Mouth Environment	432
16.4.2	Neuroendocrinology	433
16.4.3	Cardiorespiratory Function	433
16.5	Theory of Traditional Chinese Medicine in Smoking Cessation	433
16.6	Concluding Remarks	434
	References	435
17	Beneficial Effect of Acupuncture on Depression	437
17.1	Introduction	438
17.2	Clinical Trials	439
17.2.1	Acupuncture as a Sole Therapy	439
17.2.2	Acupuncture Combined with Other Therapies	446

17.3	Mechanism Studies	448
17.3.1	Effect of Electroacupuncture on the Neurotransmitters	449
17.3.2	Effect of Electroacupuncture on the Hypothalamus- pituitary-adrenal Axis	450
17.3.3	Effect of Electroacupuncture on the Immune System	450
17.3.4	Effect of Electroacupuncture on Signal Transduction System	451
17.3.5	Effect of Electroacupuncture on Hippocampus.....	452
17.4	Concluding Remarks.....	453
	Acknowledgements.....	456
	References.....	456
18	Effect of Acupuncture on Drug Addiction	460
18.1	Introduction.....	460
18.2	Clinical Application of Acupuncture for Drug Addiction	461
18.2.1	Auriculo-acupuncture.....	461
18.2.2	Body Acupuncture.....	462
18.2.3	Electroacupuncture.....	462
18.2.4	Han' Acupoints Nerve Stimulator.....	463
18.2.5	Combination Therapy.....	464
18.3	Mechanisms of Acupuncture Therapy for Drug Addiction	465
18.3.1	The Role of Endorphin in Acupuncture Treatment for Opioid Dependence	465
18.3.2	The Roles of Some Neurotransmitters in Acupuncture Treatment for Opioid Dependence	467
18.3.3	Regulation of Immunity	468
18.3.4	Changes in the Function of Endocrinology	468
18.3.5	Alterations in Psychology	469
18.4	Concluding Remarks.....	469
	References.....	470
Appendix A Milestone of Acupuncture Research: Correlation Between Peripheral Nerves and Meridians-Acupoints		473
	References.....	474
