Contents

1 RoboNewbie: A Framework for Experiments with Simulated Humanoid Robots 1
Monika Domańska and Hans-Dieter Burkhard
1.1 Introduction 1
1.2 Robots in Education 4
1.2.1 Experimenting with Hardware 4
1.2.2 Experimenting with Simulated Robots 6
1.2.3 Experimenting with RoboNewbie 8
1.3 Soccer Playing Robots: RoboCup 10
1.4 SimSpark RoboCup 3D Soccer Simulation 12
1.5 Communication Between Agents and SimSpark RCSS 13
1.6 The RoboNewbie Project 15
1.7 The Resources of the RoboNewbie Project 16
1.8 RoboNewbie Framework 17
1.8.1 Low Level Interface Functionalities 17
1.8.2 Perception 19
1.8.3 Motions 21
1.8.4 Control Cycle and Decision Making 23
1.8.5 Logger 24
1.9 Exercises 25
1.9.1 Hello World: Structure of Agents, Simple Actions 25
1.9.2 Examples for Perception 26
1.9.3 Examples for Motion 26
1.9.4 Examples for Control 27
1.10 Evaluation by Courses 27
1.10.1 Local Requirements for the Courses 28
1.10.2 Evaluation and Results 31
1.11 Conclusion 36
References 37

2 Designing Intelligent Agent in Multilevel Game-Based Modules for E-Learning Computer Science Course 39
Kristijan Kuk, Ivan Milentijević, Dejan Rančić and Petar Spalević
2.1 Introduction 40

2.2 Related Work . . . 41
2.3 Method . . . 43
2.3.1 Problem Statement . . . 43
2.3.2 Characteristics of Students . . . 44
2.3.3 Simulations and Games . . . 45
2.4 Game-Based Modules . . . 46
2.4.1 Implementation of GBMs . . . 48
2.5 Student Modelling in E-Learning System GBMs . . . 52
2.5.1 Pedagogical Agent and System . . . 53
2.5.2 Designing Intelligent Agent Model . . . 55
2.6 Evaluation Results and Discussion . . . 59
References . . . 62

3 E-Learning and the Process of Studying in Virtual Contexts . . . 65
Dragoş Gheorghiu, Livia Ştefan and Alexandra Rusu
3.1 Introduction . . . 66
3.1.1 The Vanishing Identity of the Traditional Societies . . . 66
3.1.2 A Brief History of Rural Romania . . . 66
3.1.3 The Maps of Time Project . . . 67
3.2 Related Work . . . 68
3.2.1 Theoretical Basis of the Educational Applications' Design . . . 68
3.2.2 Hypermedia Learning Environments . . . 69
3.2.3 Mobile Augmented Reality . . . 70
3.2.4 Agent-Based Approaches . . . 72
3.3 Description of the Agent-Based Learning Paradigm . . . 73
3.3.1 Motivations for Present Work . . . 73
3.3.2 General Presentation of the E-Learning Solution . . . 74
3.3.3 Basic Concepts of Software Agents . . . 75
3.3.4 Components of the Agent-Based Learning Paradigm . . . 77
3.3.5 Description of the Software Agents . . . 81
3.4 Implementation Details . . . 83
3.4.1 Software Integration Challenges . . . 83
3.4.2 The Android Platform . . . 84
3.4.3 The Mobile Augmented Reality Application . . . 84
3.4.4 The Multimedia Educational Content . . . 86
3.4.5 Social Media Integration . . . 87
3.4.6 Software Agents Implementation . . . 87
3.5 Application Experimentation . . . 88
3.6 Educational Novelty and Outcomes . . . 90
3.7 Conclusions and Future Work . . . 92

4 Inter-university Virtual Learning Environment 97
Andrej Tibaut, Danijel Rebolj, Karsten Menzel
and Ricardo Jardim-Goncalves
4.1 Introduction 98
4.2 Review of Related Work 99
4.2.1 Inter-university Collaboration Concepts 99
4.2.2 Taxonomy for Inter-university Interoperability 101
4.2.3 Interoperability Technologies 102
4.3 Use Case: ITC Euromaster 105
4.3.1 The ITCEM Course Pool 106
4.3.2 Technology: A Robust E-Learning Environment 108
4.4 Specification of the Federated Inter-university Virtual
Learning Environment 109
4.4.1 Resolving Disharmony Between Federation
and New ITCEM Members 112
4.5 Requirements for Further Development of the ITCEM 114
4.6 Conclusions 116

**6 Determining the Usability Effect of Pedagogical Interface
Agents on Adult Computer Literacy Training** 145
Ntima Mabanza and Lizette de Wet
6.1 Introduction 146
6.2 Background 147
6.2.1 Terms and Terminology 147
6.2.2 Research Objectives and Approaches 150
6.2.3 Research Limitations and Contributions 150

6.3 Related Work . . . 151
6.3.1 Studies on Pedagogical Interface Agents . . . 151
6.3.2 Pedagogical Interface Agent Systems . . . 152
6.3.3 Simulated Microsoft Office System . . . 154
6.4 Research Design and Methodology . . . 157
6.4.1 Research Design . . . 157
6.4.2 Research Methodology . . . 158
6.5 Data Analysis and Interpretation . . . 164
6.5.1 Demographic Data . . . 164
6.5.2 Statistical Analyses of Usability Performance Data . . . 165
6.5.3 Post-test Questionnaire Analysis . . . 169
6.6 Conclusions . . . 173
6.6.1 Overview . . . 173
6.6.2 Findings . . . 174
6.6.3 Possible Future Research . . . 176
