

Table of Contents

1	Foreword	1
1.1	What Is Architectural Photography?	2
1.2	The History of Architectural Photography	2
1.2.1	Early History	2
1.2.2	The Invention of Photography	4
1.2.3	The Twentieth and Twenty-First Centuries	4
1.3	Authenticity in Architectural Photos	7
1.4	Forms of Architectural Photography	8
2	Camera Technology	11
2.1	Advantages and Disadvantages of Digital Cameras	12
2.1.1	The Number and Availability of Images.....	12
2.1.2	Resolution and Tonal Range	12
2.1.3	Image Noise and the "Look" of an Image.....	14
2.1.4	Image Artifacts	14
2.1.5	Lens Quality.....	17
2.1.6	Digital Image Processing.....	17
2.1.7	Image Authenticity and Archiving.....	17
2.2	The Camera	18
2.2.1	Types of Digital Cameras.....	18
-	Digital Compacts and Bridge Cameras	18
-	Four Thirds, APS-C, DX, and APS-H DSLRs and Mirrorless Interchangeable-Lens Cameras	19
-	Analog and Digital Full-Frame Cameras	22
-	Analog and Digital Medium Format Cameras.....	24
-	Large Format Cameras	25
2.2.2	Conclusions Regarding Cameras	26
2.3	Lenses	26
2.3.1	Reproduction Characteristics.....	27
2.3.2	Focal Length.....	28
2.3.3	Tilt/Shift Lenses	31
2.4	The Perfect Camera/Lens Combination for Every Budget	31

2.5 Accessories	32
2.5.1 Choosing a Tripod	32
2.5.2 Choosing a Tripod Head.....	32
2.5.3 Remote Release.....	33
2.5.4 Lens Hoods.....	34
2.5.5 Filters	35
2.5.6 Lens Adapters.....	36
2.5.7 Grid Focusing Screens	36
2.5.8 Memory Cards	37
2.5.9 Batteries.....	37
2.5.10 Flash	39
2.5.11 Other Accessories.....	39
2.6 Creative Tips and Tricks	39
2.6.1 Lensbaby Lenses	40
2.6.2 Black-and-White Film	40
2.6.3 Fixed Focal Length Lenses	40
3 Shooting Techniques	41
3.1 What Makes a Great Architectural Photo?	42
3.2 The Role of Architecture as a Photographic Subject	47
3.2.1 What Types of Architecture Make Suitable Subjects?	51
3.2.2 Learning to See	52
3.3 Perspective	56
3.3.1 The Importance of Vanishing Points.....	57
3.4 Converging Verticals	59
3.4.1 How to Avoid Converging Verticals in Your Photos.....	60
3.4.2 How Do Tilt/Shift Lenses Work?	66
3.5 Camera Standpoint	70
3.5.1 The Ideal Subject Distance.....	70
3.5.2 The Effects of Viewpoint on Perspective.....	72
3.5.3 Standpoint and Surroundings	76
3.5.4 Standpoint and Symmetry.....	79
3.5.5 Spatial Depth.....	79
3.6 The Effects of Focal Length	83
3.6.1 Long Focal Length Lenses.....	83
3.6.2 Short Focal Length Lenses	85
3.6.3 Increasing the Angle of View Using Panorama Techniques	88

3.7 Image Formats	90
3.7.1 Extreme Formats and Panorama Images.....	90
3.7.2 Image Orientation.....	94
3.8 Composition and Framing	96
3.8.1 Composition.....	96
3.8.2 Composition and a Subject's Surroundings	101
– Stationary Image Elements.....	102
– People and Other Moving Objects	104
3.8.3 Selective Framing.....	108
3.9 Camera Settings	110
3.9.1 Shutter Speed.....	110
3.9.2 Aperture	110
3.9.3 ISO Sensitivity.....	113
3.9.4 Exposure.....	113
3.9.5 Using Bracketing Sequences to Create HDR or DRI Images	117
3.10 Using Filters	118
3.11 Interior Architectural Photography	121
3.11.1 Interior Subjects.....	121
3.11.2 Perspective and Standpoint.....	126
3.11.3 Focal Length.....	129
3.11.4 Image Formats	131
3.11.5 Framing and Composition	133
3.11.6 Camera Settings and Lighting	134
3.12 External Factors That Influence a Shoot	139
3.12.1 Shadows and Reflections	139
3.12.2 The Effects of Weather	143
3.12.3 Choosing the Right Time of Day	144
3.12.4 The Effects of the Seasons.....	146
3.13 Creative Tips and Tricks	148
3.13.1 Extreme Framing.....	148
3.13.2 Image Sequences.....	151
3.13.3 Shooting Upwards	151
3.13.4 Extreme Use of Reflections	152
3.13.5 Selective Over- and Underexposure.....	153
3.13.6 "Before and After" Views	153
3.13.7 Fake Miniatures	154
3.14 Solutions to Common Problems	155

4 Image Processing	165
4.1 Digital Image Formats	166
4.1.1 What Is RAW?.....	166
4.1.2 The Differences Between JPEG and RAW.....	166
4.1.3 The Advantages of Shooting in RAW Format	166
4.1.4 Disadvantages of Shooting in RAW Format.....	169
4.1.5 Conclusions	169
4.2 RAW Conversion	171
4.2.1 A Typical RAW Processing Workflow	171
4.3 Post-processing	181
4.3.1 Image Adjustments.....	181
– Workflow: Image Adjustments.....	181
4.3.2 In-depth Processing:	
Selective Adjustments to Contrast and Brightness	197
– Workflow: Selective Contrast and Brightness Correction	197
4.4 Panoramas	200
4.4.1 Creating a Planar Panorama	200
– Workflow: Creating a Planar Panorama Using Hugin.....	200
– Workflow: Creating a Planar Panorama Using Photoshop.....	206
4.4.2 Shift Panoramas	208
– Workflow: Creating a Shift Panorama Using Photoshop	208
4.5 HDR and DRI Images	212
4.5.1 Workflow: Creating an HDR Image Using Photomatix Pro	212
4.5.2 Workflow: DRI Processing in Photomatix Pro	215
4.5.3 Workflow: Creating an HDR Image Using Photoshop	216
4.5.4 Workflow: DRI Processing in Photoshop.....	218
4.6 Creative Tips and Tricks	220
4.6.1 Digital Graduated Filters	220
4.6.2 Creating HDR Effects Using a Single RAW Source Image	222
4.6.3 Converting Images to	
Black-and-White Using Photoshop	223
4.6.4 Creating Fake Miniatures Using Photoshop	224
Index	226
