Invited Presentation

Using the SSA-Form in a Code Generator	1
<i>Benoît Dupont de Dinechin</i>	

Program Analysis and Optimization

Parameterized Construction of Program Representations for Sparse Dataflow Analyses	18
<i>André Tavares, Benoît Boissinot, Fernando Pereira, and Fabrice Rastello</i>	
Inter-iteration Scalar Replacement Using Array SSA Form	40
<i>Rishi Surendran, Rajkishore Barik, Jisheng Zhao, and Vivek Sarkar</i>	
Recovery of Class Hierarchies and Composition Relationships from Machine Code	61
<i>Venkatesh Srinivasan and Thomas Reps</i>	
Liveness-Based Garbage Collection	85
<i>Rahul Asati, Amitabha Sanyal, Amey Karkare, and Alan Mycroft</i>	
deGoal a Tool to Embed Dynamic Code Generators into Applications	107
<i>Henri-Pierre Charles, Damien Couroussé, Victor Lomüller, Fernando A. Endo, and Rémy Gauguey</i>	
Improving the Performance of X10 Programs by Clock Removal	113
<i>Paul Feautrier, Éric Violard, and Alain Ketterlin</i>	

Parallelism and Parsing

Taming Control Divergence in GPUs through Control Flow Linearization	133
<i>Jayvant Anantpur and Govindarajan R.</i>	
Exploitation of GPUs for the Parallelisation of Probably Parallel Legacy Code	154
<i>Zheng Wang, Daniel Powell, Björn Franke, and Michael O'Boyle</i>	
A Flexible and Efficient ML Lexer Tool Based on Extended Regular Expression Submatching	174
<i>Martin Sulzmann and Pippijn van Steenhoven</i>	

The PAPAGENO Parallel-Parser Generator	192
<i>Alessandro Barenghi, Stefano Crespi Reghizzi, Dino Mandrioli, Federica Panella, and Matteo Pradella</i>	
String Analysis for Dynamic Field Access	197
<i>Magnus Madsen and Esben Andreasen</i>	
 New Trends in Compilation	
Addressing JavaScript JIT Engines Performance Quirks: A Crowdsourced Adaptive Compiler	218
<i>Rafael Auler, Edson Borin, Peli de Halleux, Michał Moskal, and Nikolai Tillmann</i>	
A First Step towards a Compiler for Business Processes	238
<i>Thomas M. Prinz, Norbert Spieß, and Wolfram Amme</i>	
CBMC-GC: An ANSI C Compiler for Secure Two-Party Computations	244
<i>Martin Franz, Andreas Holzer, Stefan Katzenbeisser, Christian Schallhart, and Helmut Veith</i>	
 Author Index	 251
