

# Table of Contents – Part I

## Lexical Resources

Using Word Association Norms to Measure Corpus Representativeness .....	1
<i>Reinhard Rapp</i>	
Optimality Theory as a Framework for Lexical Acquisition .....	14
<i>Thierry Poibeau</i>	
Verb Clustering for Brazilian Portuguese .....	25
<i>Carolina Scarton, Lin Sun, Karin Kipper-Schuler, Magali Sanches Duran, Martha Palmer, and Anna Korhonen</i>	
Spreading Relation Annotations in a Lexical Semantic Network Applied to Radiology .....	40
<i>Lionel Ramadier, Manel Zarrouk, Mathieu Lafourcade, and Antoine Micheau</i>	
Issues in Encoding the Writing of Nepal's Languages .....	52
<i>Pat Hall, Bal Krishna Bal, Sagun Dhakhwa, and Bhim Narayan Regmi</i>	
Compound Terms and Their Multi-word Variants: Case of German and Russian Languages .....	68
<i>Elizaveta Clouet and Béatrice Daille</i>	
A Fully Automated Approach for Arabic Slang Lexicon Extraction from Microblogs .....	79
<i>Hady ElSahar and Samhaa R. El-Beltagy</i>	
Simple TF-IDF Is Not the Best You Can Get for Regionalism Classification .....	92
<i>Hiram Calvo</i>	
Improved Text Extraction from PDF Documents for Large-Scale Natural Language Processing .....	102
<i>Jörg Tiedemann</i>	

## Document Representation

Dependency-Based Semantic Parsing for Concept-Level Text Analysis .....	113
<i>Soujanya Poria, Basant Agarwal, Alexander Gelbukh, Amir Hussain, and Newton Howard</i>	

Obtaining Better Word Representations via Language Transfer .....	128
<i>Changliang Li, Bo Xu, Gaowei Wu, Xiuying Wang, Wendong Ge, and Yan Li</i>	
Exploring Applications of Representation Learning in Nepali .....	138
<i>Anjan Nepal and Alexander Yates</i>	
Topic Models Incorporating Statistical Word Senses .....	151
<i>Guoyu Tang, Yunqing Xia, Jun Sun, Min Zhang, and Thomas Fang Zheng</i>	
How Preprocessing Affects Unsupervised Keyphrase Extraction (Best Paper Award, Third Place) .....	163
<i>Rui Wang, Wei Liu, and Chris McDonald</i>	

## Morphology, POS-tagging, and Named Entity Recognition

Methods and Algorithms for Unsupervised Learning of Morphology (Invited Paper) .....	177
<i>Burcu Can and Suresh Manandhar</i>	
Morphological Analysis of the Bishnupriya Manipuri Language Using Finite State Transducers .....	206
<i>Nayan Jyoti Kalita, Navanath Saharia, and Smriti Kumar Sinha</i>	
A Hybrid Approach to the Development of Part-of-Speech Tagger for Kafi-noonoo Text .....	214
<i>Zelalem Mekuria and Yaregal Assabie</i>	
Modified Differential Evolution for Biochemical Name Recognizer .....	225
<i>Utpal Kumar Sikdar, Asif Ekbal, and Sriparna Saha</i>	

## Syntax and Parsing

Extended CFG Formalism for Grammar Checker and Parser Development (Best Paper Award, Third Place) .....	237
<i>Daiga Dekšne, Inguna Skadiņa, and Raivis Skadiņš</i>	
Dealing with Function Words in Unsupervised Dependency Parsing (Best Paper Award, Second Place) .....	250
<i>David Mareček and Zdeněk Žabokrtský</i>	
When Rules Meet Bigrams .....	262
<i>Eric Wehrli and Luka Nerima</i>	
Methodology for Connecting Nouns to Their Modifying Adjectives .....	271
<i>Nir Ofek, Lior Rokach, and Prasenjit Mitra</i>	

Constituency Parsing of Complex Noun Sequences in Hindi . . . . .	285
<i>Arpita Batra, Soma Paul, and Amba Kulkarni</i>	

Amharic Sentence Parsing Using Base Phrase Chunking . . . . .	297
<i>Abeba Ibrahim and Yaregal Assabie</i>	

## Anaphora Resolution

A Machine Learning Approach to Pronominal Anaphora Resolution in Dialogue Based Intelligent Tutoring Systems . . . . .	307
<i>Nobal B. Niraula and Vasile Rus</i>	

A Maximum Entropy Based Honorificity Identification for Bengali Pronominal Anaphora Resolution . . . . .	319
<i>Apurbalal Senapati and Utpal Garain</i>	

## Recognizing Textual Entailment

Statistical Relational Learning to Recognise Textual Entailment . . . . .	330
<i>Miguel Rios, Lucia Specia, Alexander Gelbukh, and Ruslan Mitkov</i>	

Annotation Game for Textual Entailment Evaluation . . . . .	340
<i>Zuzana Nevěřilová</i>	

## Semantics and Discourse

Axiomatizing Complex Concepts from Fundamentals (Invited Paper) . . .	351
<i>Jerry R. Hobbs and Andrew Gordon</i>	

A Semantics Oriented Grammar for Chinese Treebanking . . . . .	366
<i>Meishan Zhang, Yue Zhang, Wanxiang Che, and Ting Liu</i>	

Unsupervised Interpretation of Eventive Propositions . . . . .	379
<i>Anselmo Peñas, Bernardo Cabaleiro, and Mirella Lapata</i>	

Sense-Specific Implicative Commitments . . . . .	391
<i>Gerard de Melo and Valeria de Paiva</i>	

A Tiered Approach to the Recognition of Metaphor . . . . .	403
<i>David B. Bracewell, Marc T. Tomlinson, Michael Mohler, and Bryan Rink</i>	

Knowledge Discovery with CRF-Based Clustering of Named Entities without a Priori Classes . . . . .	415
<i>Vincent Claveau and Abir Ncibi</i>	

Semi-supervised SRL System with Bayesian Inference . . . . .	429
<i>Alejandra Lorenzo and Christophe Cerisara</i>	

A Sentence Similarity Method Based on Chunking and Information Content.....	442
<i>Dan Ștefănescu, Rajendra Banjade, and Vasile Rus</i>	
An Investigation on the Influence of Genres and Textual Organisation on the Use of Discourse Relations .....	454
<i>Félix-Hervé Bachand, Elnaz Davoodi, and Leila Kosseim</i>	
Discourse Tagging for Indian Languages .....	469
<i>Sobha Lalitha Devi, S. Lakshmi, and Sindhuja Gopalan</i>	
 <b>Natural Language Generation</b>	
Classification-Based Referring Expression Generation .....	481
<i>Thiago Castro Ferreira and Ivandré Paraboni</i>	
Generating Relational Descriptions Involving Mutual Disambiguation ...	492
<i>Caio V.M. Teixeira, Ivandré Paraboni, Adriano S.R. da Silva, and Alan K. Yamasaki</i>	
Bayesian Inverse Reinforcement Learning for Modeling Conversational Agents in a Virtual Environment.....	503
<i>Lina M. Rojas-Barahona and Christophe Cerisara</i>	
Learning to Summarize Time Series Data .....	515
<i>Pranay Kumar Venkata Sowdaboina, Sutanu Chakraborti, and Somayajulu Sripada</i>	
 <b>Author Index</b> .....	 529
