

1 Targeted Intraoperative Radiotherapy: Concept and Review of Evidence in Breast Cancer	1
Mohammed Keshtgar and Frederik Wenz	
2 Mechanism of Action of TARGIT	7
Gustavo Baldassarre, Barbara Belletti, Mario Mileto, and Samuele Massarut	
3 How to Use the INTRABEAM System	13
Regina Gonzalez and Claire Reynolds	
4 Quality Assurance and Commissioning	31
Frank Schneider, Sven Clausen, and David J. Eaton	
5 Radiation Protection	37
David J. Eaton and Frank Schneider	
6 Radiobiology	45
Frederik Wenz, Katia Pasciuti, and Carsten Herskind	
7 Surgical Aspects of the TARGIT Technique in Breast Cancer	53
Mohammed Keshtgar	
8 Follow-Up Findings in the Tumour Bed After IORT – What the Radiologist Needs to Know	67
Klaus Wasser and Elena Sperk	
9 Quality of Life and Late Radiation Toxicity	71
Elena Sperk and Grit Welzel	
10 Cosmetic Outcome Following TARGIT	79
Norman R. Williams and Mohammed Keshtgar	
11 Targeted Intraoperative Radiotherapy and Persistent Pain After Treatment	85
Kenneth Geving Andersen and Henrik Flyger	
12 Other Applications of INTRABEAM®	93
Tina Reis, Elena Sperk, Yasser Abo-Madyan, Michael Ehmann, Frederic Bludau, and Frederik Wenz	

13	Intraoperative Photon Radiosurgery in Patients with Malignant Brain Tumours	105
	Sam Eljamel	
14	Intraoperative Radiotherapy with Low-Energy Photons in Rectal Cancer Recurrence	113
	Magdalena Skórzewska and Wojciech P. Polkowski	
15	Case Reports	119
	Katharine Pigott, Frederik Wenz, Mohammed Keshtgar, Sam Eljamel, Wojciech P. Polkowski, Tina Reis, Yasser Abo-Madyan, and Michael Ehmann	
16	Intra Operative Radiotherapy in Developing Countries: Experience with TARGIT from University of Dammam, Saudi Arabia	135
	Maha Abdel Hadi and Mohammed Keshtgar	
17	Treating Patients with TARGIT	141
	Norman R. Williams and Claire Reynolds	
18	Patient Selection and Information	147
	Claire Reynolds and Elena Sperk	
19	Quality Assurance and Training of Targeted Intraoperative Radiotherapy: Establishment of the TARGIT Academy	153
	Mohammed Keshtgar and Frederik Wenz	
20	Health Economics of TARGIT	157
	Chris Brew-Graves, Stephen Morris, and Michael Alvarado
