

Contents

Volume 1

Part I The “Modus Operandi” of Regulatory Toxicology	1
Aims and Mission of Regulatory Toxicology	3
Helmut Greim	
Working Areas of Regulatory Toxicology	21
Michael Schwenk and H. Paul A. Illing	
National and International Collaboration in Regulatory Toxicology	31
Klaus E. Appel	
The Regulatory Process in Toxicology	49
Dietrich Henschler and Wolfgang Dekant	
Quality Assurance in Regulatory Toxicology	57
Werner Lilienblum and Stephen Harston	
Toxicological Risk Assessment	65
Maged Younes	
Part II Approaches Used	73
Characterization of Physicochemical Parameters in Toxicology	75
Mathias Locher	
Examination of Acute and Chronic Toxicity	81
Karl Georg Heimann and Kevin Dougherty	
Examination of Organ Toxicity	89
Wolfgang Kaufmann and Matt C. Jacobsen	
Specific Toxicity Tests for Neurotoxicity, Immunotoxicity, Allergy, Irritation, Reprotoxicity, and Carcinogenicity	99
Eckhard von Keutz	

Toxicity Testing In Vitro. Regulatory Aspects	107
Eckhard von Keutz	
New and Future Toxicological Assays and Their Regulation	115
Horst Spielmann	
Computer-Based Prediction Models in Regulatory Toxicology	123
Thomas Steger-Hartmann and Scott Boyer	
Metabolism Tests in Regulatory Toxicology	133
Gert Ulrich Kuerzel and Christine Mauriac	
Toxicokinetic Tests	141
Jürgen Pauluhn	
Toxicodynamic Tests	161
Dieter Schrenk	
Omics in Toxicology	173
Heidrun Ellinger-Ziegelbauer and Hans-Juergen Ahr	
International Regulation of Toxicological Test Systems	181
Horst Spielmann	
Epidemiological Methods in Regulatory Toxicology	191
Ulrich Ranft and Gregory A. Wellenius	
Studies in Volunteers and Its Regulation	207
Klaus Mörike	
Statistical Evaluation Methods in Toxicology	213
Ludwig A. Hothorn	
Dose-Response Analysis, Identification of Threshold Levels for Chemicals	225
Hans-Karl Heim and Peter Mayer	
Extrapolation-Procedures for Carcinogenic and Noncarcinogenic Compounds	237
Lutz Edler	
Probabilistic Methods in Toxicology	253
Odile Mekel and Rainer Fehr	
Toxicodynamic Models	261
Lutz Edler and Angelika Tritscher	
Toxicokinetic Models	269
Johannes Georg Filser	
Exposure Analysis for Indoor Contaminants	277
Gerhard Volland	

Exposure Scenarios in Toxicology	289
Gerhard Heinemeyer	
Quality Criteria for Primary Literature in Toxicology	305
Klaus Schneider, Agnieszka Kinsner-Ovaskainen, and Martin Hassauer	
Data-Mining in Toxicology	311
Inge Mangelsdorf	
Principles of Analytical Chemistry for Toxicology	321
Jürgen Durner and David C. Watts	
Benchmark Dose in Regulatory Toxicology	359
Lutz Edler	
Uncertainty Analysis in Exposure Assessment. Relevance for Regulatory Toxicology	377
Michael Schümann, Özkaynak Haluk, and Alexandre Zenié	
Part III Paradigms used in Risk Evaluation	395
Do Carcinogens Have a Threshold Dose? Pro and Contra	397
Bernd Kaina, Adam D. Thomas, and Jan G. Hengstler	
Single Compounds Versus Combination Effects in Toxicology	407
Thomas R. H. Büch, Eva A. M. Schäfer, John H. Duffus, and Thomas Gudermann	
Biomolecules Versus Smaller Chemicals in Toxicology	413
Manfred Ruthsatz, Carlo Chiavaroli, and Emmanuelle Voisin	
Sensitive Humans Versus Average Persons in Toxicology	423
Alexander Eckhardt	
Extrapolation Factors and Safety Factors in Toxicology	431
Rainer Konietzka, Klaus Schneider, and Leonard Ritter	
Background Exposure Versus Additional Exposure in Human Biomonitoring	439
Hans-Günter Neumann	
Adverse Effects Versus Non-adverse Effects in Toxicology	449
Norbert Englert and Robert L. Maynard	
Health-Based Threshold ADI Versus MOS in Toxicology	457
Ursula Gundert-Remy	
Precaution Principle Versus Danger Prevention in Toxicology	463
Ludwig Müller and Neill H. Stacey	

Hygienic Versus Toxicological Approaches in Regulation	469
Roland Suchenwirth	
Protected Property and Protection Level in Regulatory Toxicology	475
Bernhard Liebl and Ines Liebl	
Ethical Issues in Science. Focus on Regulatory Toxicology	481
Beate Henrikus and Wolfgang Eisenmenger	

Volume 2

Part IV Risk Assessment and Evaluation	491
Current Role of the Risk Concept in Regulatory Toxicology	493
Rolf Hertel, Michael Schwenk, and H. Paul A. Illing	
Risk Cycles in Toxicology	501
H. Paul A. Illing and Michael Schwenk	
Risk Minimization in Drug Development. Regulatory Aspects	509
Elke Roehrdanz and Klaus Olejniczak	
Importance of Physical-Chemical Properties for Toxicological Risk Assessment	521
Hans-Uwe Wolf and Michael Schwenk	
Importance of Intrinsic Toxic Properties for Risk Assessment	525
Hermann Kappus and Michael Schwenk	
Importance of Metabolism. Mechanistic Considerations Relevant for Toxicological Regulation	533
Franz Oesch and Jan G. Hengstler	
Dose–Response Relationship and Extrapolation in Toxicology. Mechanistic and Statistical Considerations	547
Werner K. Lutz, Roman W. Lutz, David W. Gaylor, and Rory B. Conolly	
Importance of Exposure Level for Risk Toxicological Assessment	569
Hans Drexler and Anuradha Shukla	
Risk Characterization in Regulatory Toxicology	577
Maged Younes	
Risk Evaluation in Regulatory Toxicology	583
Maged Younes	
Risk Comparison in Toxicology	589
Franz-Xaver Reichl	

Risk-Benefit Considerations in Toxicology	601
Rolf Hertel, Michael Schwenk, and H. Paul A. Illing	
Toxicological Risk Assessment in Different Jurisdictions	607
Dietrich Henschler and Wolfgang Dekant	
Part V Risk Management and Risk Communication	615
Purpose of Risk Management in Regulatory Toxicology	617
Rolf Hertel, Michael Schwenk, and H. Paul A. Illing	
Assessment of Limit Values in Regulatory Toxicology	627
Hermann H. Dieter	
Limit Value Setting in Different Areas of Regulatory Toxicology	649
Klaus-Michael Wollin and Paul Illing	
Registration and Approval in Regulatory Toxicology	661
Thomas Wallenhorst	
Health Hazards Classification and Labeling	677
Herbert Desel, Pieter Brekelmans, and Ronald de Groot	
Human Biomonitoring. Its Importance in Toxicological Regulation	685
Michael Wilhelm	
Restrictions and Prohibitions as Tools in Regulatory Toxicology	703
Ullrich Kleeberg, Hans Jochen Kittel, and Alfred Georg Hildebrandt	
Observance of Susceptible Population Groups in Regulatory Toxicology	719
Ursula Gundert-Remy	
Toxicological Report	727
Thomas Gudermann, Harald Mückter, John H. Duffus, and Hermann M. Bolt	
Risk Management in Toxicological Disasters	739
Kai Kehe and John H. Duffus	
Institutionalized Participation in Regulatory Toxicology	747
Andreas D. Kappos	
Risk Communication	757
Werner Lilienblum and Marianne Lilienblum	
Dealing with Diseases That Have Been Attributed to Chemical Exposures	767
Thomas Zilker	

Reach (and CLP). Its Role in Regulatory Toxicology	779
Walter Aulmann and Nathan Pechacek	
Bridging. The Regulation of Toxic Mixtures	797
Walter Aulmann and Nathan Pechacek	
Risk Assessment of Food Additives	803
Rainer Gürtler	
Risk Assessment of Food Components with Botanical Origin	813
Birgit Dusemund	
Risk Assessment of Novel Food and Genetically Modified Food and Feed	827
Annette Pötting, Marianna Schauzu, Birgit Niemann, and Regina Schumann	
Notification of Cosmetic Products and Dangerous Mixtures in Regulatory Toxicology	849
Herbert Desel, Pieter Brekelmans, and Ronald de Groot	
Chemical and Biological Weapons and Their Regulation	855
Horst Thiermann, Kai Kehe, Julia Riehm, and Lothar Zöller	
Part VI Addendum: Tables and Lists	869
Checklist: Toxicological Risk Assessment in Practice	871
Michael Schwenk and H. Paul A. Illing	
Limit Values and Guideline Values in Regulatory Toxicology	875
Karin Heine and Alexander Eckhardt	
Appendix	899
Regulatory Toxicology: Glossary	901
Franz-Xaver Reichl and Gisela Degen	
Index	929
