
Contents

1	Melanocytes	1
	Klaus J. Busam, Raymond L. Barnhill, and Michael W. Piepkorn	
2	Biopsies, Tissue Processing, Immunohistochemistry, and Ancillary Techniques	13
	Klaus J. Busam and Raymond L. Barnhill	
3	Genetic and Molecular Pathology of Melanoma	33
	Michael W. Piepkorn	
4	Circumscribed Pigmented Lesions Composed of Basilar Melanocytes	59
	Raymond L. Barnhill	
5	Common Acquired and Atypical/Dysplastic Melanocytic Nevi	87
	Michael W. Piepkorn and Raymond L. Barnhill	
6	Congenital Melanocytic Nevi, Associated Neoplasms, and Pediatric Melanoma	155
	Raymond L. Barnhill and Alan Spatz	
7	The Spitz Nevus and Variants	205
	Raymond L. Barnhill and Klaus J. Busam	
8	Dermal Melanocytoses, Blue Nevi, and Variants	271
	Klaus J. Busam and Raymond L. Barnhill	
9	Melanocytic Nevus with Phenotypic Heterogeneity: Combined Melanocytic Nevus and Variants	301
	Raymond L. Barnhill	
10	Cutaneous Melanoma	331
	Raymond L. Barnhill with the assistance of Claire Lugassy, Emma Taylor, and Jamie Zussman	
11	Melanocytic Neoplasms of the Mucosa	489
	Rajmohan Murali, Klaus J. Busam, and Raymond L. Barnhill	

12	Melanocytic Proliferations of the Eye	509
	Klaus J. Busam and Rajmohan Murali	
13	Metastatic Melanoma	529
	Richard A. Scolyer, Klaus J. Busam, and Raymond L. Barnhill	
14	Prognostic Factors in Cutaneous Melanoma	569
	Michael W. Piepkorn and Raymond L. Barnhill	
15	Pigmented Lesions of the Nail Apparatus	603
	Beth S. Ruben
