Invited Talk

Moving Targets: When Data Classes Depend on Subjective Judgement, or They Are Crafted by an Adversary to Mislead Pattern Analysis Algorithms - The Cases of Content Based Image Retrieval and Adversarial Classification	1
<i>Giorgio Giacinto</i>	
Bioinformatics Contributions to Data Mining	17
<i>Isabelle Bichindaritz</i>	

Theoretical Aspects of Data Mining

Bootstrap Feature Selection for Ensemble Classifiers	28
<i>Rakkrit Duangsoithong and Terry Windeatt</i>	
Evaluating the Quality of Clustering Algorithms Using Cluster Path Lengths	42
<i>Faraz Zaidi, Daniel Archambault, and Guy Melançon</i>	
Finding Irregularly Shaped Clusters Based on Entropy	57
<i>Angel Kuri-Morales and Edwin Aldana-Bobadilla</i>	
Fuzzy Conceptual Clustering	71
<i>Petra Perner and Anja Attig</i>	
Mining Concept Similarities for Heterogeneous Ontologies	86
<i>Konstantin Todorov, Peter Geibel, and Kai-Uwe Kühnberger</i>	
Re-mining Positive and Negative Association Mining Results	101
<i>Ayhan Demiriz, Gurdal Ertek, Tankut Atan, and Ufuk Kula</i>	
Multi-Agent Based Clustering: Towards Generic Multi-Agent Data Mining	115
<i>Santhana Chaimontree, Katie Atkinson, and Frans Coenen</i>	
Describing Data with the Support Vector Shell in Distributed Environments	128
<i>Peng Wang and Guojun Mao</i>	
Robust Clustering Using Discriminant Analysis	143
<i>Vasudha Bhatnagar and Sangeeta Ahuja</i>	

New Approach in Data Stream Association Rule Mining Based on Graph Structure	158
<i>Samad Gahderi Mojaveri, Esmail Mirzaeian, Zarrintaj Bornae, and Saeed Ayat</i>	

Multimedia Data Mining

Fast Training of Neural Networks for Image Compression	165
<i>Yevgeniy Bodayanskiy, Paul Grimm, Sergey Mashtalir, and Vladimir Vinarski</i>	
Processing Handwritten Words by Intelligent Use of OCR Results	174
<i>Benjamin Mund and Karl-Heinz Steinke</i>	
Saliency-Based Candidate Inspection Region Extraction in Tape Automated Bonding	186
<i>Martina Dümcke and Hiroki Takahashi</i>	
Image Classification Using Histograms and Time Series Analysis: A Study of Age-Related Macular Degeneration Screening in Retinal Image Data	197
<i>Mohd Hanafi Ahmad Hijazi, Frans Coenen, and Yalin Zheng</i>	
Entropic Quadrees and Mining Mars Craters	210
<i>Rosanne Vetro and Dan A. Simovici</i>	
Hybrid DIAAF/RS: Statistical Textual Feature Selection for Language-Independent Text Classification	222
<i>Yanbo J. Wang, Fan Li, Frans Coenen, Robert Sanderson, and Qin Xin</i>	
Multimedia Summarization in Law Courts: A Clustering-Based Environment for Browsing and Consulting Judicial Folders	237
<i>E. Fersini, E. Messina, and F. Archetti</i>	
Comparison of Redundancy and Relevance Measures for Feature Selection in Tissue Classification of CT Images	248
<i>Benjamin Auffarth, Maite López, and Jesús Cerquides</i>	

Data Mining in Marketing

Quantile Regression Model for Impact Toughness Estimation	263
<i>Satu Tamminen, Ilmari Juutilainen, and Juha Rönning</i>	
Mining for Paths in Flow Graphs	277
<i>Adam Jocksch, José Nelson Amaral, and Marcel Mitran</i>	

Combining Unsupervised and Supervised Data Mining Techniques for Conducting Customer Portfolio Analysis	292
<i>Zhiyuan Yao, Annika H. Holmbom, Tomas Eklund, and Barbro Back</i>	
Managing Product Life Cycle with MultiAgent Data Mining System....	308
<i>Serge Parshutin</i>	
Modeling Pricing Strategies Using Game Theory and Support Vector Machines	323
<i>Cristián Bravo, Nicolás Figueroa, and Richard Weber</i>	

Data Mining in Industrial Processes

Determination of the Fault Quality Variables of a Multivariate Process Using Independent Component Analysis and Support Vector Machine	338
<i>Yuehjen E. Shao, Chi-Jie Lu, and Yu-Chiun Wang</i>	
Dynamic Pattern Extraction of Parameters in Laser Welding Process ...	350
<i>Gissel Velarde and Christian Binroth</i>	
Trajectory Clustering for Vibration Detection in Aircraft Engines	362
<i>Aurélien Hazan, Michel Verleysen, Marie Cottrell, and Jérôme Lacaille</i>	
Episode Rule-Based Prognosis Applied to Complex Vacuum Pumping Systems Using Vibratory Data.....	376
<i>Florent Martin, Nicolas Méger, Sylvie Galichet, and Nicolas Becourt</i>	
Predicting Disk Failures with HMM- and HSMM-Based Approaches	390
<i>Ying Zhao, Xiang Liu, Siqing Gan, and Weimin Zheng</i>	
Aircraft Engine Health Monitoring Using Self-Organizing Maps	405
<i>Etienne Côme, Marie Cottrell, Michel Verleysen, and Jérôme Lacaille</i>	

Data Mining in Medicine

Finding Temporal Patterns in Noisy Longitudinal Data: A Study in Diabetic Retinopathy	418
<i>Vassiliki Somarakis, Deborah Broadbent, Frans Coenen, and Simon Harding</i>	
Selection of High Risk Patients with Ranked Models Based on the CPL Criterion Functions	432
<i>Leon Bobrowski</i>	
Medical Datasets Analysis: A Constructive Induction Approach	442
<i>Wiesław Paja and Mariusz Wrzesień</i>	

Data Mining in Agriculture

Regression Models for Spatial Data: An Example from Precision Agriculture.....	450
<i>Georg Ruß and Rudolf Kruse</i>	
Trend Mining in Social Networks: A Study Using a Large Cattle Movement Database.....	464
<i>Puteri N.E. Nohuddin, Rob Christley, Frans Coenen, and Christian Setzkorn</i>	

WebMining

Spam Email Filtering Using Network-Level Properties	476
<i>Paulo Cortez, André Correia, Pedro Sousa, Miguel Rocha, and Miguel Rio</i>	
Domain-Specific Identification of Topics and Trends in the Blogosphere	490
<i>Rafael Schirru, Darko Obradović, Stephan Baumann, and Peter Wortmann</i>	
Combining Business Process and Data Discovery Techniques for Analyzing and Improving Integrated Care Pathways	505
<i>Jonas Poelmans, Guido Dedene, Gerda Verheyden, Herman Van der Mussele, Stijn Viaene, and Edward Peters</i>	
Interest-Determining Web Browser	518
<i>Khaled Bashir Shaban, Joannes Chan, and Raymond Szeto</i>	
Web-Site Boundary Detection	529
<i>Ayesh Alshukri, Frans Coenen, and Michele Zito</i>	

Data Mining in Finance

An Application of Element Oriented Analysis Based Credit Scoring	544
<i>Yihao Zhang, Mehmet A. Orgun, Rohan Baxter, and Weiqiang Lin</i>	
A Semi-supervised Approach for Reject Inference in Credit Scoring Using SVMs.....	558
<i>Sebastián Maldonado and Gonzalo Paredes</i>	

Aspects of Data Mining

Data Mining with Neural Networks and Support Vector Machines Using the R/rminer Tool.....	572
<i>Paulo Cortez</i>	

The Orange Customer Analysis Platform	584
<i>Raphaël Féraud, Marc Boullé, Fabrice Clérot,</i> <i>Françoise Fessant, and Vincent Lemaire</i>	
Semi-supervised Learning for False Alarm Reduction	595
<i>Chien-Yi Chiu, Yuh-Jye Lee, Chien-Chung Chang,</i> <i>Wen-Yang Luo, and Hsiu-Chuan Huang</i>	
Learning from Humanoid Cartoon Designs	606
<i>Md. Tanvirul Islam, Kaiser Md. Nahiduzzaman,</i> <i>Why Yong Peng, and Golam Ashraf</i>	
Mining Relationship Associations from Knowledge about Failures Using Ontology and Inference	617
<i>Weisen Guo and Steven B. Kraines</i>	
 Data Mining for Network Performance Monitoring	
Event Prediction in Network Monitoring Systems: Performing Sequential Pattern Mining in Osmius Monitoring Tool	632
<i>Rafael García, Luis Llana, Constantino Malagón, and</i> <i>Jesús Pancorbo</i>	
Selection of Effective Network Parameters in Attacks for Intrusion Detection	643
<i>Gholam Reza Zargar and Peyman Kabiri</i>	
Author Index	653
