Preface V

List of contributors VI

Part I General Aspects in Clinical Research 1

- Chapter 1** Research Designs and Hierarchies of Evidence 3
Ian Needleman
- Chapter 2** Regulatory and Good Clinical Practice Aspects in Clinical Practice 11
Gudrun Denke
- Chapter 3** Ethical Aspects in Clinical Research 25
Klaus Peter Rippe
- Chapter 4** Development of a Clinical Research Protocol 35
Maurizio S. Tonetti
- Chapter 5** Management of a Clinical Study 45
Jeanie Suvar
- Chapter 6** Authorship and Publication of Clinical Research Findings 61
William V. Giannobile

Part II Tools for Preparation, Conduction and Analysis of a Clinical Study 67

- Chapter 7** Endpoints in Oral and Maxillofacial Regeneration Clinical Trials 69
Mariano Sanz and Fabio Vignoletti
- Chapter 8** Patient Reported Outcome Measures (PROMs) for Implant Dentistry and Oral Tissue Regeneration 89
Colman McGrath
- Chapter 9** Examiner Standardization and Calibration for Oral and Periodontal Regenerative Studies 97
Hatice Hasturk and MaryAnn Cugini
- Chapter 10** Statistical Analysis for Clinical Studies 121
Jürg Hüsler

Chapter 11 Analytical Methods 135

11.1 Histology as a Tool to Evaluate the Outcome of Regenerative Therapies 135

Dieter D. Bosshardt

11.2 Imaging Technologies to Assess Oral Soft and Hard Tissue Regeneration 145

Erika Benavides and Hector F. Rios

11.3 Biomarkers and Molecular Biological Methods in Diagnostic, Preventive, and Regenerative Dental Research 159

Alpdogan Kantarci

11.4 Non-invasive Measures for Osseointegration (RFA) 175

Niklaus P. Lang, Jie Han, and Christina Sim

11.5 Volumetric Measurements for Evaluation of Oral Soft Tissue Changes 183

David Schneider and Sven Mühlemann

11.6 Assessment of Esthetics and Color for Clinical Research 189

Goran Benic and Irena Sailer

Part III Study Protocols for Specific Indications 197

Chapter 12 Clinical Research Protocols for Indications in Dental Regeneration 199

12.1 Periodontal Regeneration 199

Pierpaolo Cortellini

12.2 Ridge Preservation 213

Suzanne Mason, Feng Wang and Darnell Kaigler

12.3 Horizontal Ridge Augmentation 223

Nikos Donos and Nikos Mardas

12.4 Vertical Ridge Augmentation 237

Isabella Rocchietta, David Nisand, Massimo Simion

12.5 Maxillary Sinus Floor Elevation 247

Gustavo Avila-Ortiz and Pablo Galindo-Moreno

12.6 Osseointegration of Dental Implants in a Human Model 263

Giovanni E. Salvi, Dieter D. Bosshardt, and Niklaus P. Lang

12.7 Treatment of Peri-implantitis 271

Lisa J.A. Heitz-Mayfield

12.8 Regeneration of Keratinized Gingiva 277

Michael K. McGuire

12.9 Regenerative Procedures for Root Coverage 291

Anton Sculean and Sofia Aroca

12.10 Soft Tissue Augmentation 301

Daniel S. Thoma and Ronald E. Jung
