

Contents

Part I Theory

Data Assimilation and Information	3
William Lahoz, Boris Khattatov, and Richard Ménard	
Mathematical Concepts of Data Assimilation	13
N.K. Nichols	
Variational Assimilation	41
Olivier Talagrand	
Ensemble Kalman Filter: Current Status and Potential	69
Eugenia Kalnay	
Error Statistics in Data Assimilation: Estimation and Modelling	93
Mark Buchner	
Bias Estimation	113
Richard Ménard	
The Principle of Energetic Consistency in Data Assimilation	137
Stephen E. Cohn	
Evaluation of Assimilation Algorithms	217
Olivier Talagrand	
Initialization	241
Peter Lynch and Xiang-Yu Huang	

Part II Observations

The Global Observing System	263
Jean-Noël Thépaut and Erik Andersson	
Assimilation of Operational Data	283
Erik Andersson and Jean-Noël Thépaut	
Research Satellites	301
William Lahoz	

Part III Meteorology and Atmospheric Dynamics

General Concepts in Meteorology and Dynamics	325
Andrew Charlton-Perez, William Lahoz, and Richard Swinbank	

The Role of the Model in the Data Assimilation System	351
Richard B. Rood	

Numerical Weather Prediction	381
Richard Swinbank	

Part IV Atmospheric Chemistry

Introduction to Atmospheric Chemistry and Constituent Transport . .	409
Valery Yudin and Boris Khatatov	

Representation and Modelling of Uncertainties in Chemistry and Transport Models	431
Boris Khattatov and Valery Yudin	

Constituent Assimilation	449
William Lahoz and Quentin Errera	

Inverse Modelling and Combined State-Source Estimation for Chemical Weather	491
Hendrik Elbern, Achim Strunk, and Lars Nieradzik	

Part V Wider Applications

Ocean Data Assimilation	517
Keith Haines	

Land Surface Data Assimilation	549
Paul R. Houser, Gabriëlle J.M. De Lannoy, and Jeffrey P. Walker	

Assimilation of GPS Soundings in Ionospheric Models	599
Boris Khattatov	

Part VI The Longer View

Reanalysis: Data Assimilation for Scientific Investigation of Climate . .	623
Richard B. Rood and Michael G. Bosilovich	

Observing System Simulation Experiments	647
Michiko Masutani, Thomas W. Schlatter, Ronald M. Errico, Ad Stoffelen, Erik Andersson, William Lahoz, John S. Woollen, G. David Emmitt, Lars-Peter Riishøjgaard and Stephen J. Lord	

Data Assimilation for Other Planets	681
Stephen R. Lewis	
Appendix	701
Index	705
