

Part I Technologic Developments

1 The Virtual Operating Field: How Image Guidance Became Integral to Microneurosurgery	3
Steffen K. Rosahl and Ramin Shahidi	
2 Potential and Limitations of Chronic High-Fr Deep-Brain Stimulation in Parkinson's Disease	15
Jan Vesper and Guido Nikkhah	
3 Proliferation Behaviour of Meningiomas	21
Florian Roser and Christina Pfister	
4 Neurotransplantation and the Restoration of Motor Behavior in Parkinson's Disease	33
Alexander Klein and Guido Nikkhah	
5 Preservation and Restitution of Auditory Function in Neurofibromatosis Type 2	47
Cordula Matthies	
6 Restoration of Locomotion in Post-traumatic Paraplegics: The Neurosurgeon's Personal View	59
Klaus R.H. von Wild, Giorgio A. Brunelli, and Tobias von Wild	
7 Spinal Robotics	69
Florian Roser	
8 Endoscope-Assisted Microsurgery	77
Mario Ammirati and Varun R. Kshetry	
9 Intraoperative Brain Mapping	87
Andrés Cervio	
10 Endoscopy and Thermodiskoplasty: A Minimally Invasive Surgical Treatment for Lumbar Pain	103
Enrique Osorio Fonseca, Jorge Felipe Ramírez, José Gabriel Rugeles, and Gabriel Oswaldo Alonso Cuéllar	

11	Considerations for Experimental Neuromodulation Following Grafting of the Spinal Cord to Skeletal Muscles for Clinical Application.	117
	Tobias von Wild, Klaus R.H. von Wild, Dafin F. Muresanu, and Cornel Catoi	
12	Preoperative Visualization of the Facial Nerve Using Diffusion Tensor Imaging Fibre Tracking in Patients with Large Vestibular Schwannomas	129
	Mario Giordano, Venelin M. Gerganov, and Amir Samii	
 Part II Skull Base		
13	Olfactory Groove Meningiomas: Pitfalls and Surgical Technique	139
	Paulo Henrique Pires de Aguiar, Antonio Nogueira Almeida, and Apio Claudio Martins Antunes	
14	Preservation of the Olfactory Tract in Bifrontal Craniotomy	149
	Paulo Henrique Pires de Aguiar, Antonio Nogueira Almeida, and Apio Claudio Martins Antunes	
15	Treatment of Meningiomas Involving the Optic Nerve Sheath.	155
	Makoto Nakamura	
16	Surgical Management of Tuberculum Sellae Meningiomas	163
	Makoto Nakamura	
17	Sphenoid Wing Meningiomas	173
	Florian Roser and Florian Ebner	
18	Chordomas and Chondrosarcomas	185
	Marcos Tatagiba and Marcus André Acioly	
19	Petroclival Meningiomas Diagnosis, Treatment, and Results	199
	Ricardo Ramina, Yvens Barbosa Fernandes, Maurício Coelho Neto, and Luis Fernando Moura da Silva Jr.	
20	Retrosigmoid Approach to the Posterior and Middle Fossa	217
	Marcos Tatagiba and Marcus André Acioly	
21	The Surgical Management of Trigeminal Schwannomas	237
	Ricardo Ramina, Maurício Coelho Neto, Yvens Barbosa Fernandes, André Giacomelli Leal, Erasmus Barros da Silva Jr., and Lucas Alves Aurich	

22	Facial Nerve Schwannomas.	251
	Ricardo Ramina, Maurício Coelho Neto, Erasmus Barros da Silva Jr., Ronaldo Vosgerau, Yvens Barbosa Fernandes, and Felipe Marques do Rego Monteiro	
23	Vestibular Schwannoma: Current State of the Art.	265
	Marcos Tatagiba and Marcus André Acioly	
24	Functional Microsurgery of Vestibular Schwannomas	285
	Cordula Matthies	
25	Surgery of Large and Giant Residual/Recurrent Vestibular Schwannomas.	301
	Ricardo Ramina, Maurício Coelho Neto, Tobias Mattei, Rogério Clemente, and Yvens Barbosa Fernandes	
26	Arachnoid Cysts of the Posterior Fossa	313
	Gustavo Adolpho de Carvalho, Michael Hinojosa, Fernando Barros, and Daniel Maldonado	
27	Facial and Cochlear Nerve Function After Surgery of Cerebellopontine Angle Meningiomas.	321
	Makoto Nakamura	
28	Jugular Foramen Tumors: Diagnosis and Management	333
	Ricardo Ramina, Joao Jarney Maniglia, Yvens Barbosa Fernandes, Maurício Coelho Neto, and Jorge Rizzato Paschoal	
29	Endoscopic Transnasal Surgery for Clival Chordoma.	353
	Masaaki Taniguchi and Eiji Kohmura	
30	Surgery of Cerebellopontine Angle Epidermoids	365
	Venelin M. Gerganov and Madjid Samii	
31	Approaches to the Orbit: A 360-Degree View	375
	Andrei Koerbel	
32	Pituitary Surgery Beyond the Sella	407
	Eduardo Vellutini, Leonardo Balsalobre, and Aldo C. Stamm	
33	Tumors of the Craniocervical Junction: Overview and Update	417
	José Alberto Landeiro, Marcus André Acioly, and Marcos Tatagiba	

Part III Specific Surgical Management

34	Diagnosis and Treatment of Adult Hydrocephalus.	435
	Petra M. Klinge	

35	Primary Tethered Cord Syndrome	449
	Steffen K. Rosahl	
36	Peripheral Nerve Entrapment Syndromes of the Lower Extremity	461
	Eduardo Fernandez, Carlotta Ginevra Nucci, Corrado Lucantoni, Liverana Lauretti, Luca Denaro, and Francesco Doglietto	
37	Hypoglossal–Facial Nerve Anastomosis	471
	Eduardo Fernandez, Corrado Lucantoni, Carlotta Ginevra Nucci, Liverana Lauretti, and Francesco Doglietto	
38	Facial Pain: Diagnosis and Therapy	483
	Hans-Werner Bothe	
39	Epilepsy Surgery	493
	Eduardo Vellutini, Eliana Garzon, Luciana Midori Inuzuka, Roger Schimdt Brock, and Jose Erasmo Dal’Col Lucio	
40	Bypass and Vascular Reconstruction for Anterior Circulation Aneurysms	507
	Laligam N. Sekhar, Harley Brito da Silva, Farzana Tariq, Louis J. Kim, and Basavaraj Ghodke	
41	Bypass and Vascular Reconstruction for Posterior Circulation Aneurysms	537
	Laligam N. Sekhar, Farzana Tariq, Harley Brito da Silva, Basavaraj Ghodke, and Louis J. Kim	
42	Full-Endoscopic Lumbar and Cervical Surgery for Disc Herniation	561
	Fernando Schmidt and Robert Schoenmayr	
43	Syringomyelia and Syringobulbia	569
	Florian Roser	
44	Total Lumbar Facet Replacement: Indication, Technique, and 3- and 4-Year Results	577
	Robert Schoenmayr and Olaf Kopetsch	
45	Mini-open Transforaminal Lumbar Interbody Fusion for Degenerative Diseases	589
	Fernando Schmidt and Robert Schoenmayr	
	Index	595
