1	Pain Pathway	1
1.1	Dorsal Horn	1
1.2	The Ascending System	2
1.2.1	Spinothalamic Tract	2
1.2.2	Spinoreticular Tract	2
1.2.3	Spinomesencephalic Tract	3
1.3	Supraspinal System	3
1.3.1	Reticular System	3
1.3.2	Limbic System	3
1.4	Descending Pathways	3
	Further Reading	4
2	Nociceptors	5
3	Pain Processing	9
3.1	Peripheral Mechanisms	9
3.2	Central Mechanisms	10
4	Neuropathic Pain	11
4.1	Causes	11
4.2	Pathophysiology	11
5	Patient Evaluation	13
5.1	Mode of Onset and Location	13
5.2	Intensity	13
5.3	Duration	13
5.4	Frequency	14
5.5	Nature	14
5.6	Aggravating and Relieving Factors	14
5.7	Disability	14
6	Assessment and Measurement of Acute Pain	15
6.1	Measurement	15
6.1.1	Verbal Rating Scale	16
6.1.2	Numerical Rating Scale	16
6.1.3	Visual Analogue Scale	16

6.1.4	Face Scale	17
6.1.5	Functional Activity Scale	17
7	Psychological Assessment of Chronic Pain	19
7.1	Measures of Psychological Status	20
7.1.1	Beck Depression Inventory	20
7.1.2	Spielberger State-Trait Anxiety Inventory	20
7.1.3	Minnesota Multiphasic Personality Inventory	20
7.1.4	Coping Strategies Questionnaire	20
8	Assessment of Neuropathic Pain	21
8.1	Screening Tests	21
8.1.1	Leeds Assessment of Neuropathic Symptoms and Signs	21
8.1.2	Douleur Neuropathique en 4 Questions	21
8.1.3	Neuropathic Pain Questionnaire	22
8.1.4	ID Pain	22
8.1.5	Pain Detect	22
8.1.6	StEP Questionnaire	22
8.2	Clinical Assessment	22
8.2.1	History	22
8.2.2	Clinical Examination	22
9	Pain Assessment in Paediatrics	25
9.1	Assessment of Function	25
9.2	Psychosocial Assessment	26
9.3	Assessment of Coping Measures	26
10	Assessment of Pain in Elderly	27
10.1	Scales for Nonverbal Cognitively Impaired Older Patients	28
11	Imaging	29
11.1	X-Rays	29
11.2	Fluoroscopy	29
11.3	Ultrasonography	29
11.4	Computed Tomography	30
11.5	Magnetic Resonance Imaging	30
12	Sodium Channels	31
12.1	Intravenous Lidocaine	32
12.2	Mexiletine	32
	Further Reading	32
13	Potassium and Calcium Channels	33
13.1	Calcium Channels	34

14	Serotonergic Receptors	35
14.1	5HT _{1a} Receptors	35
14.2	5HT _{1b} /5HT _{1d} Receptors	35
14.3	5HT _{2a} Receptors	35

14.4	5HT _{2c} Receptors	36
14.5	5HT ₃ Receptors	36
14.6	5HT ₄ Receptors	36
14.7	5HT ₆ Receptors	36
14.8	5HT ₇ Receptors	36
15	Glutamate and GABA Receptors	37
15.1	Glutamate Receptors	37
15.1.1	Ionotropic Glutamate Receptors	37
15.1.2	Metabotropic Glutamate Receptors	38
15.2	GABA Receptors	38
15.2.1	Ionotropic GABA Receptors	38
15.2.2	Metabotropic GABA Receptors	38
16	Opioids	39
16.1	Receptors	39
16.2	Endogenous Opioids	39
16.3	Exogenous Opioids	39
16.4	Site of Action	40
16.5	Opioid Rotation	40
16.6	Opioid-Induced Hyperalgesia	40
16.7	Adverse Effects	40
17	Opioids-Clinical Use	41
17.1	Morphine	41
17.2	Codeine	41
17.3	Tramadol	42
17.4	Fentanyl	42
17.5	Methadone	42
17.6	Oxycodone	43
18	Nonsteroidal Anti-inflammatory Drugs	45
18.1	Adverse Effects	46
19	NSAIDs 2	47
19.1	Diclofenac	47
19.2	Ketorolac	47
19.3	Ibuprofen	47
19.4	Celecoxib	48
19.5	Paracetamol	48
19.5.1	Hepatotoxicity	48
20	Antidepressants	49
20.1	Tricyclic Antidepressants	49
20.2	Serotonin Reuptake Inhibitors	49
21	Anticonvulsants	51
21.1	Gabapentin and Pregabalin	51
21.2	Carbamazepine and Oxcarbazepine	51
21.3	Lamotrigine	52

22	Topical Agents	53
22.1	Capsaicin.....	53
22.2	Lidocaine Patch.....	53
22.3	Topical Nitrates.....	54
22.4	Topical Tricyclic Antidepressants.....	54
	Further Reading	54
23	Miscellaneous Drugs	55
23.1	Ziconotide (SNX-111)	55
23.2	Cannabinoids	55
23.3	Tapentadol.....	56
23.4	Botulinum Toxin.....	56
	Further Reading	56
24	Placebo and Nocebo Effect	57
