## 1 The Physical Therapy Process: Examination, Clinical Reasoning, and Reflection

*Elly Hengeveld*

<b>1 The Physical Therapy Process: Examination, Clinical Reasoning, and Reflection .....</b>	<b>3</b>	<b>1.3 Critical Phases in the Physical Therapy Process—Reflection Phases ..</b>	<b>26</b>
1.1 The Physical Therapy Process .....	3	1.3.1 Goals of Physical Therapy Examination Procedures .....	27
1.1.1 The Physical Therapy Examination.....	3	1.3.2 Assessment.....	27
1.1.2 Paradigms in Physical Therapy.....	4	1.3.3 Initial Assessment .....	27
1.1.3 Physical Therapy Diagnosis .....	6	1.3.4 Reassessment.....	31
1.2 Clinical Reasoning as Part of the Physical Therapy Process .....	7	1.3.5 Assessment During the Application of Treatment.....	32
		1.3.6 Reflection after Two to Three Sessions .....	32
		1.3.7 Retrospective Assessment.....	33
		1.3.8 Final Analytical Assessment .....	33

## 2 Examination of Structures and Functions of the Locomotor System

<b>2 Examination of Structures and Functions of the Locomotor System ...</b>	<b>39</b>	<b>2.1.6 Integration of Peripheral Nerves in the Examination of the Locomotor System .....</b>	<b>76</b>
2.1 Testing Structures.....	39	<i>Brigitte Tampin</i>	
2.1.1 Joint Measurement According to the Neutral Zero Method .....	39	<b>2.2 Testing of General Functions.....</b>	<b>104</b>
<i>Barbara Trinkle</i>		<i>Jan Cabri</i>	
2.1.2 Tests of Muscle Function .....	51	2.2.1 Amundsen's Ordinal Scale for Activities of Daily Living (ADL) .....	104
<i>Barbara Trinkle</i>		2.2.2 The Functional Status Index (FSI) .....	105
2.1.3 Body Mass Index (BMI).....	60	2.2.3 The Roland-Morris Questionnaire ....	105
<i>Jan Cabri</i>		2.2.4 The Barthel Index .....	106
2.1.4 Measurement of the Skin Folds .....	60	2.2.5 Functional Performance Evaluation (FPE) .....	106
<i>Jan Cabri</i>		2.2.6 Hand-held Devices (HHD) .....	106
2.1.5 Examining the Joint and the Surrounding Structures .....	62	2.2.7 Isokinetic Dynamometry.....	106
<i>Mechthild Doelken</i>			

## 3 Examining Posture and Muscle Balance

*Salah Bacha*

<b>3 Examining Posture and Muscle Balance.....</b>	<b>111</b>	<b>3.1.3 Posture and the Sensory System .....</b>	<b>112</b>
3.1 Posture.....	111	3.1.4 Posture and Bone Loading.....	112
3.1.1 Static Posture.....	111	3.1.5 Posture and the Rotary Moment of the Joints .....	113
3.1.2 Posture and Gravity .....	111	3.1.6 Posture and Muscle Adaptation.....	114

<b>3.2 Diagnosis</b> .....	114	<b>3.3 Musculature</b> .....	127
3.2.1 Idealized Posture as a Reference .....	114	3.3.1 Basic Principles .....	127
3.2.2 Examination of Posture .....	115	3.3.2 The Tasks of the Myofascial System .....	127
3.2.3 Observational Parameters for Assessing Joint Position .....	122	3.3.3 Functional Classification of the Musculature in the Myofascial System .....	128
3.2.4 Dynamic Posture .....	126	3.3.4 Response to Dysfunction .....	130
		3.3.5 Sources of Dysfunction .....	130
		3.3.6 Interpretation of Posture .....	131

## **4 Pain as the Chief Symptom**

*Mechthild Doelken*

<b>4 Pain as the Chief Symptom</b> .....	143	<b>4.2 Physical Therapy Examination of Patients Whose Chief Symptom is Pain</b> .....	153
4.1 Theoretical Foundations of Pain as a Chief Symptom .....	143	4.2.1 Patient History .....	154
4.1.1 Definitions .....	143	4.2.2 Documentation of Pain History .....	156
4.1.2 Pain Perception .....	144	4.2.3 Movement Behavior .....	156
4.1.3 Classification of Pain .....	145	4.2.4 Symptoms of Altered Tonicity Affecting the Musculature .....	158
4.1.4 Causes of Pain .....	148	4.2.5 Nociceptive Receptor Pain from the Structures of the Locomotor System ..	160
4.1.5 Nociceptors .....	148	4.2.6 Neuroanatomy of the Peripheral and Spinal Nerves .....	164
4.1.6 Transmission of Pain Impulses .....	150	4.2.7 Pain Measurement (Algesimetry) .....	170
4.1.7 Behavior Strategies at the Level of the Therapist–Patient Relationship .....	152		

## **5 Examining Cardiopulmonary Functions**

<b>5 Examining Cardiopulmonary Functions</b> .....	183	<b>5.2 Examination of Cardiac Functions</b> .....	210
5.1 Respiration—Examining the Pulmonary System .....	183	<i>Andreas Freund</i>	
<i>Petra Kirchner</i>		5.2.1 How Can You Determine Cardiac Capacity and Adaptability? .....	210
5.1.1 Useful Information on Breathing .....	183	5.2.2 Preparing the Examination .....	210
5.1.2 Sample Examination Scheme .....	184	5.2.3 Examining Objective Criteria .....	212
5.1.3 Examination Steps .....	191	5.2.4 Examining Subjective Criteria .....	220
5.1.4 Example of Examination .....	208	5.2.5 Evaluation .....	222

<b>Appendix</b> .....	223
