

Contents

The Oocyte Determinants of Early Reprogramming	1
Caroline Schwarzer and Michele Boiani	
Stella and Zygotic Reprogramming	31
Toshinobu Nakamura and Toru Nakano	
Histone Variants and Reprogramming in Early Development	43
Ana Bošković and Maria-Elena Torres-Padilla	
DNA Methylation Reprogramming in Preimplantation Development	69
Konstantin Lepikhov, Julia Arand, Sarah Fuchs, Jie Lan, Mark Wossidlo, and Jörn Walter	
Establishing and Maintaining Pluripotency: An Epigenetic Perspective	101
Jing Liao and Alexander Meissner	
Epigenetic Regulation of Pluripotency by Polycomb Group Proteins	121
Achim Breiling	
PRC1-Mediated Gene Silencing in Pluripotent ES Cells: Function and Evolution	141
Matthias Becker, Nancy Mah, Daniela Zdzieblo, Xiaoli Li, Arvind Mer, Miguel A. Andrade-Navarro, and Albrecht M. Müller	

**The Biology and Genomic Localization of Cytosine
Modifications** 167
Gordon R. McInroy, Neil M. Bell, Gabriella Ficz, Shankar Balasubramanian,
Wolf Reik, and Eun-Ang Raiber

Epigenetic Reprogramming in Cancer 193
Anders M. Lindroth, Yoon Jung Park, and Christoph Plass
