

Table of Contents

Foreword	viii
Preface	x
Preface of the 2 nd Edition	xii
Introduction	xiv
Reference of Brain Image Setting	xiv
Orientation of Brain Images	xiv
Orientation of Image Sections and Planes	
Standard of the Sectional Brain Image Planes and Sizes	
Adjustment of the MRI Brain to the Reference Brain	
Terminology & Labeling	
Data Collection System for Clinicopathologic Brain Mapping	
Sources of Brain Images	xx
In vivo Images using 7.0T MRI	
Cadaver Images by Cryomacrotome	
Image reconstruction and volume rendering	
3D Images by Volume Rendering	xxii
Coronal, Sagittal and Axial Cuts – Cadaver (Fig. 4)	
Coronal, Sagittal and Axial Cuts – MRI (Fig. 5)	
Sulcus and Gyrus – MRI (Fig. 6)	
Brodmann areas – MRI (Fig. 7)	
Acknowledgements	xxvi
Part I. Coronal Images of Cadaver and Human Brain of 7.0 T MRI In Vivo	1
Part II. Sagittal Images of Cadaver and Human Brain of 7.0 T MRI In Vivo	183
Part III. Axial Images of Cadaver and Human Brain of 7.0 T MRI In Vivo	345
References	510
Abbreviations	511
Index	520
