

Contents

Volume 1

Part I Principles, Methods, and Approaches	1
Historical Overview of Paleoanthropological Research	3
Winfried Henke	
Charles Darwin, Paleoanthropology, and the Modern Synthesis	97
Franz M. Wuketits	
Evolutionary Theory in Philosophical Focus	127
Philippe Huneman	
The Ontogeny-Phylogeny Nexus in a Nutshell: Implications for Primates and Paleoanthropology	177
Peter R. Menke	
Principles of Taxonomy and Classification: Current Procedures for Naming and Classifying Organisms	213
Michael Ohl	
Species Concepts and Speciation: Facts and Fantasies	237
Colin Groves	
Quantitative Approaches to Phylogenetics	257
Kaila E. Folinsbee, David C. Evans, Jörg Fröbisch, Daniel R. Brooks, and Linda A. Tsuji	
Homology: A Philosophical and Biological Perspective	295
Olivier Rieppel	
Chronometric Methods in Paleoanthropology	317
Daniel Richter and Guenther A. Wagner	
Patterns of Diversification and Extinction	351
Walter Etter	

Taphonomic and Diagenetic Processes	417
Gisela Grupe and Michaela Harbeck	
Contribution of Stable Light Isotopes to Paleoenvironmental Reconstruction	441
Julia Lee-Thorp and Matt Sponheimer	
The Paleoclimatic Record and Plio-Pleistocene Paleoenvironments ...	465
John Rowan and Kaye E. Reed	
Geological Background of Early Hominid Sites in Africa	493
Ottmar Kullmer	
Paleosols	511
Gregory Retallack	
Quaternary Geology and Paleoenvironments	537
John A. Van Couvering	
Quaternary Deposits and Paleosites	557
Klaus-Dieter Jäger	
Paleoecology: An Adequate Window on the Past?	571
Thorolf Hardt, Peter R. Menke, and Britta Hardt	
Zoogeography: Primate and Early Hominin Distribution and Migration Patterns	623
Alan Turner and Hannah O'Regan	
The Paleodemography of Extinct Hominin Populations	643
Janet Monge and Alan Mann	
Hominin Paleodiets: The Contribution of Stable Isotopes	671
Matt Sponheimer and Julia Lee-Thorp	
Estimation of Basic Life History Data of Fossil Hominoids	703
Helmut Hemmer	
Genetics and Paleoanthropology	745
Jonathan Marks	
Ancient DNA	763
Susanne Hummel	
Modeling the Past: The Primatological Approach	791
Robert W. Sussman and Donna Hart	
Modeling the Past: The Paleoethnological Approach	817
Paolo Biagi	
Modeling the Past: Archaeology	845
Miriam N. Haidle	

The Evolution of Speech and Language	873
Philip Lieberman and Robert C. McCarthy	
General Principles of Evolutionary Morphology	921
Gabriele A. Macho	
Virtual Anthropology and Biomechanics	937
Gerhard W. Weber	
Paleopathology: Vestiges of Pathological Conditions in Fossil Human Bone	969
Michael Schultz and Tyede H. Schmidt-Schultz	
Microscopic Research on Fossil Human Bone	983
Michael Schultz and Tyede H. Schmidt-Schultz	
Investigation on Extracellular Matrix Proteins in Fossil Bone: Facts and Perspectives	999
Tyede H. Schmidt-Schultz and Michael Schultz	
Images in Paleoanthropology: Facing Our Ancestors	1007
Stefan Schlager and Ursula Wittwer-Backofen	
Prospects and Pitfalls	1035
Jean-Jacques Hublin	

Volume 2

Part II Primate Evolution and Human Origins	1051
Primate Origins and Supraordinal Relationships: Morphological Evidence	1053
Mary T. Silcox, Eric J. Sargis, Jonathan I. Bloch, and Doug M. Boyer	
Molecular Evidence on Primate Origins and Evolution	1083
Ryan L. Raaum	
Fossil Record of the Primates from the Paleocene to the Oligocene ...	1137
Marc Godinot	
Fossil Record of Miocene Hominoids	1261
David R. Begun	
The Biotic Environments of the Late Miocene Hominoids	1333
Jordi Agustí	
Postcranial and Locomotor Adaptations of Hominoids	1363
Carol V. Ward	
Hominoid Cranial Diversity and Adaptation	1387
Alan Bilsborough and Todd C. Rae	

Dental Adaptations of African Apes	1465
Mark F. Teaford and Peter S. Ungar	
Evolution of the Primate Brain	1495
Dean Falk	
Primate Life Histories	1527
Elke Zimmermann and Ute Radespiel	
Great Ape Social Systems	1593
Angela Meder	
Evolutionary Biology of Ape and Monkey Feeding and Nutrition	1631
Joanna E. Lambert	
The Hunting Behavior and Carnivory of Wild Chimpanzees	1661
Nicholas E. Newton-Fisher	
Cooperation, Coalition, Alliances	1693
Charlotte K. Hemelrijk, Ivan Puga-Gonzalez, and Jutta Steinhauser	
Primate Intelligence	1721
Richard W. Byrne	
Theory of Mind: A Primatological Perspective	1741
Juliane Kaminski	

Volume 3

Part III Phylogeny of Hominins	1759
Potential Hominoid Ancestors for Hominidae	1761
George D. Koufos	
Defining Hominidae	1791
Jeffrey H. Schwartz	
Role of Environmental Stimuli in Hominid Origins	1837
Elisabeth S. Vrba	
Origins of Homininae and Putative Selection Pressures Acting on the Early Hominins	1887
Bogusław Pawłowski and Wioletta Nowaczewska	
Origin of Bipedal Locomotion	1919
William E. H. Harcourt-Smith	
The Evolution of the Hominid Brain	1961
Ralph L. Holloway	
Analyzing Hominin Phylogeny: Cladistic Approach	1989
David Strait, Frederick E. Grine, and John G. Fleagle	

Phylogenetic Relationships of Hominids: Biomolecular Approach 2015
Todd R. Disotell

The Miocene Hominoids and the Earliest Putative Hominids 2043
Brigitte Senut

The Species and Diversity of Australopiths 2071
William H. Kimbel

Defining the Genus *Homo* 2107
Mark Collard and Bernard Wood

The Earliest Putative *Homo* Fossils 2145
Friedemann Schrenk, Ottmar Kullmer, and Timothy Bromage

***Homo ergaster* and Its Contemporaries** 2167
Ian Tattersall

Defining *Homo erectus* 2189
Karen L. Baab

Later Middle Pleistocene *Homo* 2221
G. Philip Rightmire

Neanderthals and Their Contemporaries 2243
Katerina Harvati

Homo floresiensis 2281
Leslie C. Aiello

Origin of Modern Humans 2299
Günter Bräuer

Population Biology and Population Genetics of Pleistocene Hominins 2331
Alan R. Templeton

Dispersals of Early Humans: Adaptations, Frontiers, and New Territories 2371
Michael Bolus

The Dentition of American Indians: Evolutionary Results and Demographic Implications Following Colonization from Siberia 2401
Christy G. Turner II and G. Richard Scott

Overview of Paleolithic Archaeology 2441
Nicholas Toth and Kathy Schick

Cultural Evolution During the Middle and Late Pleistocene in Africa and Eurasia 2465
Nicholas J. Conard

Evolution of Religion	2509
Matthias Herrgen	
Paleoanthropology and the Foundation of Ethics: Methodological	
Remarks on the Problem of Criteriology	2537
Mathias Gutmann and Michael Weingarten	
Subject Index	2563
Taxonomic Index	2605
