BioLINK 2009

Overview of the Ninth Annual Meeting of the BioLINK SIG at ISMB: Linking Literature, Information and Knowledge for Biology	1
<i>Christian Blaschke, Lynette Hirschman, Hagit Shatkay, and Alfonso Valencia</i>	
Principles of Bioimage Informatics: Focus on Machine Learning of Cell Patterns	8
<i>Luis Pedro Coelho, Estelle Glory-Afshar, Joshua Kangas, Shannon Quinn, Aabid Shariff, and Robert F. Murphy</i>	
Summary of the BioLINK Special Interest Group Session on the Future of Scientific Publishing	19
<i>Scott Markel</i>	
Structured Literature Image Finder: Extracting Information from Text and Images in Biomedical Literature	23
<i>Luis Pedro Coelho, Amr Ahmed, Andrew Arnold, Joshua Kangas, Abdul-Saboor Sheikh, Eric P. Xing, William W. Cohen, and Robert F. Murphy</i>	
Toward Computer-Assisted Text Curation: Classification Is Easy (Choosing Training Data Can Be Hard...)	33
<i>Robert Denroche, Ramana Madupu, Shibu Yooseph, Granger Sutton, and Hagit Shatkay</i>	
Mining Protein-Protein Interactions from GeneRIFs with OpenDMPAP.....	43
<i>Andrew D. Fox, William A. Baumgartner Jr., Helen L. Johnson, Lawrence E. Hunter, and Donna K. Slonim</i>	
Combining Semantic Relations and DNA Microarray Data for Novel Hypotheses Generation	53
<i>Dimitar Hristovski, Andrej Kastrin, Borut Peterlin, and Thomas C. Rindflesch</i>	
Learning from Positive and Unlabeled Documents for Retrieval of Bacterial Protein-Protein Interaction Literature.....	62
<i>Hongfang Liu, Manabu Torii, Guixian Xu, Zhangzhi Hu, and Johannes Goll</i>	

VIII Table of Contents

Extracting and Normalizing Gene/Protein Mentions with the Flexible and Trainable Moara Java Library	71
<i>Mariana L. Neves, José Maria Carazo, and Alberto Pascual-Montano</i>	
Author Index	81
