

Preface .....	6
Introduction .....	7

## CHAPTER I: MARKET POSITIONING AND STRATEGIC CONCEPTS

<b>1.1 Strategic business plan:</b>	
New practice start-up, existing practice takeover or joint practice concepts .....	17
1.1.1 Alternatives to the single dental practice: Entrepreneur or employee? .....	17
1.1.2 Starting a new dental practice (single practice) .....	19
1.1.3 Taking over an existing practice .....	21
1.1.4 Dental cooperative models .....	24
1.1.5 Associate dental practice – practice cooperative sharing expenses and office organisation .....	25
1.1.6 Joint dental practice – dental practices sharing financial obligations .....	26
1.1.7 Dental practice unions/networks and franchise models .....	28
1.1.8 Working together requires the ability to compromise .....	28
1.1.9 Business plan provides feeling of security .....	29
<b>1.2 Dental practice market positioning and image creation .....</b>	<b>31</b>
1.2.1 Clear positioning by defined team goals .....	31
1.2.2 Optimising service and organisation .....	32
1.2.3 Reluctance in the face of temporary trends .....	34
<b>1.3 Main treatment foci and practice concepts .....</b>	<b>34</b>
1.3.1 Complementing practice structures, ensuring long-lasting business success .....	34
1.3.2 Defining and communicating main treatment focus .....	35
1.3.2.1 Main treatment focus: Prophylaxis – preventive dentistry .....	36
1.3.2.2 Main treatment focus: Endodontics – restorative dentistry .....	38
1.3.2.3 Main treatment focus: Implantology – implant prosthetics .....	41
1.3.2.4 Main treatment focus: Paedodontics .....	44
1.3.2.5 Main treatment focus: Pain-reduced treatment – patients with phobias .....	46
1.3.3 Appropriate specialisation for target groups .....	48
<b>1.4 Cooperation with dental laboratory and/or practice-integrated dental laboratory .....</b>	<b>50</b>
1.4.1 Evaluating economic efficiency – weighing risks .....	50
1.4.2 Cooperation with an external dental laboratory presents advantages .....	50
1.4.3 Using the competence of dental laboratories .....	53
1.4.4 Avoid underestimating expenses of practice-integrated dental laboratory .....	56
1.4.5 Orientation, range of services and equipment of a practice-integrated dental laboratory .....	57
1.4.6 Reflections on profitability of practice-integrated dental laboratories .....	63
1.4.7 In-house solutions (chairside concepts) .....	63

## CHAPTER II: PRACTICE STRUCTURE AND ORGANISATION

<b>2.1</b>	<b>Practice philosophy as a basis for successful action .....</b>	<b>65</b>
2.1.1	Professionalism and social competence are vital .....	65
2.1.2	Emphasising patient benefits .....	66
<b>2.2</b>	<b>Practice image based on distinctive practice profile .....</b>	<b>66</b>
2.2.1	Positioning by expert status .....	66
2.2.2	Fulfilling the profile of a service-oriented practice .....	66
<b>2.3</b>	<b>Professional practice management .....</b>	<b>67</b>
2.3.1	Optimised practice structure .....	67
2.3.2	Practice and quality management .....	67
2.3.3	Delegating responsibilities, implementing mentoring .....	68
2.3.4	Distribution of tasks – relief of workload by practice manager .....	68
2.3.5	Organisational charts, job description, procedure plans .....	70
2.3.6	Tasks and responsibilities in a dental practice .....	72
<b>2.4</b>	<b>Efficient time management – treatment planning .....</b>	<b>74</b>
2.4.1	Setting priorities .....	74
2.4.2	Patients with high expectations .....	75
2.4.3	Installing a structured patient appointment system .....	75
2.4.4	Appointments by mouse click .....	76
<b>2.5</b>	<b>Digitalised practices .....</b>	<b>76</b>
2.5.1	IT structures – optimal software programmes .....	76
2.5.2	Efficient quality management using bar codes .....	78
2.5.3	Data protection, data safety .....	79
<b>2.6</b>	<b>Health protection, practice hygiene and emergency management .....</b>	<b>79</b>
2.6.1	Disease prevention – implementing standards of hygiene .....	79
2.6.2	Hygienic disinfection of hands .....	80
2.6.3	Standard hygiene and health protection .....	81
2.6.4	Disinfection of dental impression materials .....	88
2.6.5	Emergency management in the dental practice .....	89
2.6.6	Ergonomics in the dental practice support health care .....	90
2.6.7	How to avoid burnout syndrome by taking adequate preventive measures .....	90

## CHAPTER III: EFFICIENT TEAMWORK AND LEADERSHIP

<b>3.1</b>	<b>Leadership – team harmony .....</b>	<b>93</b>
3.1.1	Motivation through identification and communication .....	93
3.1.2	Cooperative leadership style: Demonstrating, coordinating and delegating .....	94
3.1.3	Authoritarian, hierarchic leadership: Decision-making, directing and controlling .....	95
3.1.4	“Laissez-faire” leadership: passive leadership, little management .....	95
3.1.5	Behaviour patterns for leadership .....	96
3.1.6	Internal communication style – constructive conflict management .....	96
3.1.7	Planning personal conversations with employees .....	97
3.1.8	Conflict management – how to handle difficult situations .....	98
3.1.9	Promoting mutual support .....	99
3.1.10	Developing initiative and personal responsibility .....	99
3.1.11	The ideal team – motivational psychology .....	99
3.1.12	Organising efficient team meetings .....	101
3.1.13	General performance and social interaction .....	101
3.1.14	Performance-related salary system as motivational factor .....	102
3.1.15	Issuing a letter of reference for departing employee .....	102
<b>3.2</b>	<b>Personnel profile, job advertisement and staff planning .....</b>	<b>103</b>
3.2.1	Selection of personnel and team development .....	103
3.2.2	Typical job advertisement for dental assistants .....	103
3.2.3	Recognising personal and social skills (analysis of strengths and weaknesses) .....	104
3.2.4	Documentation of contract details .....	105
3.2.5	Recognising and actively utilising potentials .....	106
<b>3.3</b>	<b>Success factors: Continuing education and additional qualifications .....</b>	<b>106</b>
3.3.1	Increasing team competence by offering continuing education .....	106
3.3.2	How to compensate lack of personnel by job rotation and continuing education .....	109
3.3.3	Being proactive – analysing professional status .....	109

## CHAPTER IV: PATIENT ORIENTATION

<b>4.1</b>	<b>Patient-orientated practice team .....</b>	<b>111</b>
4.1.1	Developing an acceptable service concept .....	111
4.1.2	Goal-oriented activities determine practice's daily routine .....	112
4.1.3	Initiating patient questionnaires .....	112
4.1.4	Important service factors for maintaining patient loyalty .....	113
4.1.5	Fulfilling increasing demands of patients .....	113
4.1.6	Image factor: The team .....	114
4.1.7	Patient satisfaction – professional handling of criticism .....	114
<b>4.2</b>	<b>Patient communication in the reception area .....</b>	<b>114</b>
4.2.1	Professional conversation on the phone .....	114
4.2.2	Ensuring availability by phone .....	116

4.2.3	Friendly demeanour and communication skills at the reception desk .....	116
4.2.4	Attentive patient care – creating a positive impression .....	117
4.2.5	Showing appreciation – respecting the privacy of patients .....	118
4.2.6	Dealing with critical patients .....	118
4.2.7	Creating a pleasant environment in waiting room to make the time spent feel subjectively shorter .....	119
4.2.8	Utilising waiting-time efficiently by preparing patient for upcoming treatment .....	121
<b>4.3</b>	<b>Basic diagnostics and treatment planning .....</b>	<b>122</b>
4.3.1	Inquiring about patient concerns – evaluate risk factors .....	122
4.3.2	Establishing anamnesis and risk assessments .....	123
4.3.3	Clinical examination, diagnostics .....	124
4.3.4	Backward planning for increased patient acceptance .....	127
4.3.5	Economic success due to well-structured approach .....	127
<b>4.4</b>	<b>Individual patient consultation and procedure-related communication during treatment .....</b>	<b>127</b>
4.4.1	Emphasising importance of prevention .....	127
4.4.2	Meeting increasing demand for advice with sensitivity .....	129
4.4.3	Structuring communication with patient .....	130
4.4.4	Successful communication .....	131
4.4.5	Individual impression and charisma – generating trust .....	132
4.4.6	Essential requirements for a constructive patient consultation .....	133
4.4.7	Presenting practice range of services effectively and convincingly .....	135
4.4.8	Emphasising therapeutic value .....	136
4.4.9	Offering alternative treatments – considering legal duty to inform patient .....	137
4.4.10	The dentist as “health consultant” .....	138
4.4.11	Integrating qualified employees during talk with patient .....	138
4.4.12	Dentist-patient talk – trust-generating communication .....	139
4.4.13	Effective patient communication is vital .....	140
<b>4.5</b>	<b>Utilising the professional competence of dental laboratories .....</b>	<b>141</b>
4.5.1	Committed dental technicians are essential for a successful dental practice .....	141
4.5.2	Including dental technician in dialogue at an early stage .....	141
4.5.3	How to issue precise dental lab orders .....	142
4.5.4	Offering patient the option to visit the dental lab .....	145
4.5.5	Providing patient passes .....	145
<b>4.6</b>	<b>Needs of patients of different age groups .....</b>	<b>146</b>
4.6.1	Custom-made concepts for any age group .....	146
4.6.2	Children (up to age 12) .....	147
4.6.3	Children and teenagers (age 12 to 18) .....	149
4.6.4	Young patients (up to age 30) .....	151
4.6.5	Middle-aged patients (age 30 to 50) .....	154
4.6.6	Generation 50-plus, seniors (age 50 to 65) .....	155
4.6.7	Older seniors, geriatric dentistry (age 65 to 85) .....	156
4.6.8	Very old patients, geriatric prosthetics (age 85-plus) .....	162
4.6.9	Patients with physical disabilities .....	164
4.6.10	Special practice set-up to meet needs of seniors .....	165
4.6.11	Immobile patients (house and care-home calls) .....	165

<b>4.7</b>	<b>Maintaining patient loyalty</b> .....	<b>166</b>
4.7.1	Satisfied patients will stay true to their dental practice .....	166
4.7.2	Counteracting patient fluctuation at an early stage .....	166
4.7.3	Special focus on target groups .....	167

## CHAPTER V: DENTAL MARKETING AND COMMUNICATION

<b>5.1</b>	<b>Professional practice marketing</b> .....	<b>169</b>
5.1.1	Corporate identity and corporate design concepts .....	169
5.1.2	Taking the right steps through self-reflection .....	170
<b>5.2</b>	<b>Marketing and measurement plan</b> .....	<b>170</b>
5.2.1	Analysis of current situation, defining objectives .....	170
5.2.2	To put goals into practice .....	171
5.2.3	Patient-oriented activities in focus .....	173
5.2.4	Develop your own marketing style .....	173
5.2.5	Create “practice logo” .....	174
<b>5.3</b>	<b>Public relations and information events</b> .....	<b>174</b>
5.3.1	Publications emphasize expert status .....	174
5.3.2	Information events for patients .....	175
5.3.3	Present with personality – convey contents convincingly .....	176
5.3.4	Present information in a lively manner .....	178
5.3.5	Use guest speakers, invite the press .....	181
5.3.6	Sample texts for PR measures .....	181
<b>5.4</b>	<b>Practice leaflets and patient brochures</b> .....	<b>188</b>
5.4.1	Brochures reflect provisions of treatments – and service concepts .....	188
5.4.2	Practice leaflets give information on services and therapy concepts .....	188
5.4.3	Information sheets provide unique practice identity .....	189
5.4.4	True value-oriented action – avoiding exaggerations .....	190
5.4.5	Patient-oriented information arouses interest .....	191
5.4.6	Marginal measures to obtain new patients from out of the region .....	191
<b>5.5</b>	<b>Online marketing – professional practice home page</b> .....	<b>192</b>
5.5.1	Web-based marketing – the virtual business card of a dental practice .....	192
5.5.2	Information transfer and image improvement .....	193
5.5.3	Design a clearly structured home page .....	193
5.5.4	Use search engines to optimise web presence .....	193
5.5.5	Home page contents – dentistry as the main focus .....	193
5.5.6	Code of conduct for dentists – norms for brands and copyright .....	196
5.5.7	Keep home page updated .....	197
5.5.8	Online reputation – patient reviews on the Internet .....	197

<b>5.6</b>	<b>Practice set-up according to corporate design .....</b>	<b>198</b>
5.6.1	Achieving a consistent overall concept by using creativity and expert knowledge .....	198
5.6.2	Interior design as part of the practice concept .....	198
5.6.3	Functionality of practice areas .....	200
5.6.4	Practice design and equipment .....	202
5.6.5	Colour schemes – be creative .....	203
5.6.6	Lighting plan – light concepts .....	206
5.6.7	Practical flooring materials – functional design .....	208
5.6.8	Allow space for creative elements .....	209
5.6.9	Arrange practice to suit target groups and individual patients .....	209

## **CHAPTER VI: ECONOMICALLY ORIENTED PRACTICE MANAGEMENT**

<b>6.1</b>	<b>Innovative, service-oriented and efficient practice structures .....</b>	<b>213</b>
6.1.1	Success is based on a concept .....	213
6.1.2	Smooth procedures – perfect workflow .....	215
<b>6.2</b>	<b>Plan for success and ensure financial security .....</b>	<b>217</b>
6.2.1	Acting as an entrepreneur and remaining patient-friendly at the same time .....	217
6.2.2	Managing a practice that is financially successful .....	217
6.2.3	Cost-planning = success-planning .....	218
6.2.4	Performance planning (turnover) .....	218
6.2.5	How much does one hour of treatment cost? Calculating professional fees .....	219
6.2.6	Monthly target versus actual performance analysis .....	220
6.2.7	Practice areas considered as profit centres .....	220
6.2.8	Hourly rate calculation using dental prophylaxis treatment as an example .....	220
6.2.9	Distribution of profit within cooperating practices .....	221
<b>6.3</b>	<b>Tools for economic management and financial oversight .....</b>	<b>221</b>
6.3.1	Ensure systematic monitoring of expenses .....	221
6.3.2	Efficient practice management – expenses, profit, sustainability .....	222
6.3.3	Determine, evaluate and compare practice key figures .....	222
6.3.4	Evaluate profitability using key figures .....	223
6.3.5	Business assessment .....	223
6.3.6	Liquidity planning .....	225
6.3.7	Investments .....	226
6.3.8	Budget planning .....	228
<b>6.4</b>	<b>Outsourcing of services .....</b>	<b>229</b>
6.4.1	Increased efficiency, new space for development – relief by delegating services to external sources .....	229
6.4.2	Billing “professional fees” as financing instrument .....	230
6.5	Glossary of business terms .....	230
	<b>Closing words .....</b>	<b>231</b>

<b>Appendix I</b>	
Dentistry throughout time .....	232
<b>Appendix II</b>	
academia • dental – “Passion for Dentistry” .....	235
<b>Appendix III</b>	
Patient-friendly sample texts to reinforce patient loyalty .....	236
<b>New patient, anamnesis sheet</b>	
1. Welcome to our practice – We are pleased to welcome you as our new patient! .....	237
<b>Children</b>	
2. Dental care starting with your baby's first tooth .....	240
3. Healthy diet – Healthy teeth .....	242
4. Recommendations that help to avoid early childhood caries and misaligned teeth .....	244
5. How to avoid orthodontic treatment for your child .....	247
6. When teeth are not ‘in line’ – It is important to start treatment at the right time! .....	248
7. Eye-catching beautiful and straight teeth – Removable and fixed orthodontic appliances .....	249
<b>Aesthetics</b>	
8. Oral health increases the quality of life – Beautiful and complete rows of teeth boost your self-confidence ..	252
9. Age-appropriate, natural-looking tooth shades – Convincing aesthetics .....	253
<b>Caries prevention</b>	
10. Healthy teeth to last a lifetime – Don't give caries a chance! .....	254
11. Important recommendations for maintaining your oral health and tips for your daily dental care at home ..	258
12. Recommendations for a healthy diet – Show your brilliant smile! .....	260
13. Modern caries prevention – Diagnosis and therapies within the scope of regular dental check-ups .....	262
14. Improve your well-being – Oral health for seniors .....	264
<b>Periodontitis</b>	
15. Don't give periodontitis a chance – An early diagnosis ensures tooth preservation .....	266
<b>Tooth preservation – Endodontic dentistry</b>	
16. Innovative endodontic treatment for tooth preservation .....	268
<b>Inlay, Veneer</b>	
17. Tooth-coloured fillings, inlays, onlays and partial crowns – restorations that are barely visible .....	270
18. Correction of tooth shade and -shape with veneers: “Thin layer – great effect” .....	272
<b>Aesthetic denture – Dental ceramics, CAD/CAM</b>	
19. CAD/CAM ceramic restorations: “Aesthetic dentures for a brilliant, self-confident smile” .....	274
<b>How to fill gaps: Bridge versus implant</b>	
20. Disturbed harmony – Disturbed balance: “The best therapy for your oral and dental health” .....	277
21. “Tooth gap – what to do ...?” – Bridge, partial denture or implant? .....	279

<b>Dental materials for crowns and bridges</b>	
22. Crown or bridge: "Diverse material options ensure a perfect solution" .....	282
23. Secure and reliable: "The best alloy for your crown or bridge" .....	284
24. Gold: Precious alloys – "The high-end solution" .....	286
25. Non-precious alloys: "The economical alternative" .....	288
<b>Partial denture</b>	
26. Clasps, attachments and double crowns: "Pros and cons of partial dentures" .....	290
27. Partial dentures close gaps and restore the chewing function .....	293
<b>Complete denture</b>	
28. Perfect aesthetics in cases of complete edentulism: "Invisible complete dentures with optimal chewing function" .....	294
29. Information regarding different standards of a complete denture .....	296
<b>Getting used to a denture</b>	
30. A little patience is needed – Take your time to get used to your "new teeth" .....	298
<b>Denture care</b>	
31. Avoid bacterial plaque through daily oral health care: "Important recommendations regarding oral health and denture maintenance" .....	300
<b>Denture incompatibilities, allergies</b>	
32. Choosing materials responsibly: "Avoid allergies and material intolerances!" .....	302
<b>Implants, Implant prostheses</b>	
33. Implants close any gap: "Solid teeth on artificial roots" .....	304
34. Advantages and disadvantages of implant prosthetic treatment .....	306
35. Carefree into the future: "How can I contribute to the long-term preservation of my implants?" .....	308
<b>Holistic dentistry</b>	
36. Medical Balance: "Holistic dental therapies" .....	310
<b>Diabetes</b>	
37. Diabetes and oral health: "Detect and prevent periodontitis" .....	312
<b>Tobacco consumption, giving up smoking</b>	
38. Stop smoking for the sake of your health: "Set yourself personal goals – we would be pleased to support you!" .....	314
<b>Terminology index</b> .....	316
<b>Practice check up</b> .....	319
<b>Acknowledgement</b> .....	320
