Kurzfassung (in German)	i
1 Introduction and Outline	1
2 Foundations and Basic Concepts	5
2.1 Channel Model	5
2.1.1 Discrete memoryless channels	5
2.1.2 Binary-input symmetric memoryless channels	7
2.2 Channel Combining	11
2.2.1 Elementary Operations	11
2.2.2 Equivalent Representations	14
2.2.3 Tanner Graphs and Iterative Decoding	16
3 Polar Coding	19
3.1 Basic Properties	19
3.2 Optimal Selection of Frozen Indices	23
3.3 Asymptotic Properties	31
3.4 Relation to Reed-Muller Codes	32
3.5 Improved Decoding Algorithms	33
3.5.1 Maximum-Likelihood (ML) Decoding	33
3.5.2 Successive Cancellation List (SCL) Decoding	33
3.5.3 Iterative Belief Propagation (BP) Decoding	34
3.5.4 Decoder Comparison	35
3.6 Generalized Code Constructions	37
3.6.1 Constructions Based on Alternative Binary Kernels	37

3.6.2	Non-Binary Polar Coding	37
4	Polar Codes in Concatenated Code Designs	39
4.1	Product Codes from Polar Codes	39
4.1.1	Consecutive Inner and Outer Decoding	40
4.1.2	Interleaved Inner and Outer Decoding	43
4.2	Length-Preserving Code Concatenations	44
4.2.1	Serial Concatenation with Outer Error-Detecting Codes	44
4.2.2	Serial Concatenation with Outer Repetition Codes	44
5	Polar-Coded Modulation	51
5.1	Channel Partitioning	51
5.1.1	Sequential Partitioning	51
5.1.2	Product Concatenation of SBPs	53
5.1.3	Parallel Partitioning	55
5.1.4	Concatenation of PBPs	56
5.2	Application to Binary Polar Coding	57
5.3	Application to Coded Modulation	60
5.3.1	Multilevel Coding	60
5.3.2	Bit-Interleaved Coded Modulation	63
5.4	Multilevel Polar Coding	64
5.5	Bit-Interleaved Polar-Coded Modulation	67
5.5.1	Transformation of Labelings	68
5.5.2	Code Modification	71
5.6	Simulation Results	72
6	Concluding Remarks	79
A	Appendix	81
A.1	Proof of (2.37)	81
A.2	Formulas for Information Combining	82
A.3	Proof of (2.49)	84
A.4	Proof of (5.39)	85
A.5	Proof of (5.43)	86

A.6	Proof of (5.63)	87
A.7	Collaborative Decoding of Reed-Solomon Codes	87
A.7.1	Reed-Solomon Codes and Interleaving	88
A.7.2	Collaborative Decoding	89
A.7.3	Code word reconstruction	91
A.7.4	Failure probability	92
A.7.5	Complexity	92
B	Notation	93
B.1	Abbreviations	93
B.2	Mathematical Symbols	94
	Bibliography	99
