

Contents of Volume I

Plastics: Classification, Characterization, and Economic Data 1
Peter Eyerer

Synthesis (Manufacture, Production) of Plastics 19
Peter Eyerer

Properties of Plastics in Structural Components 47
Peter Eyerer and Volker Gettwert

Processing (Primary Forming) of Plastics into Structural Components 167
Peter Eyerer, Volker Gettwert, Axel Kauffman, and Michael Kroh

Secondary Forming of Plastics Structural Components: Thermoforming 287
Fabian Beilharz

Opportunities and Risks Involved in Designing Structural Components Made of Polymers 293
Peter Eyerer, Bernd Bader, Fabian Beilharz, Jan Diemert, Günter Helferich, Christof Hübner, Axel Kauffmann, Marc Knoblauch-Xander, Michael Krausa, Ana Rodriguez, Stefan Tröster, Nina Woicke, and Jörg Woidasky

Opportunities and (in Particular) Risks of Use (Utilization Phase) of Plastic Structural Components 363
Peter Eyerer, Fabian Beilharz, Christof Hübner, Thilo Kupfer, and Christian Ulrich

Plastics and Structural Components: The Environment and Recycling 391
Peter Eyerer and Adolf Franck

Perspectives: Polymer Engineering	429
Peter Eyerer	
Index	437
