I. Fundamentals

Effect of surgical technique and thread design on implant stability in posterior maxilla. A clinical study using Resonance Frequency Analysis.	16-17
<i>Aleksa Marković, José Luis Calvo-Guirado, Zoran Lazić, Gerardo Gómez-Moreno, Dejan Čalasan, Javier Guardia, Snježana Čolić, Antonio Aguilar-Salvatierra, Bojan Gačić, Rafael Delgado-Ruiz, Bojan Janjić, Tijana Mišić (SRB, ES, SRB, ES)</i>	
Immediate implant insertion in crestal or subcrestal position in relation with neck configuration of SKY classic and blueSKY implants. An animal study.	18-19
<i>Delgado-Ruiz RaA., Calvo-Guirado JL., Ramírez-Fernández MP., Maté-Sánchez JE., Ortiz-Ruiz A., López Marí L, Gómez Moreno G, Chiva F., Abboud M. (ES, US)</i>	
Initial results for adjunctive treatment with aPDT on immediately placed implants in periodontally compromised patients	20-21
<i>Priv.-Doz. Dr. Jörg Neugebauer, Dr. Franziska Möller (MSc), Dr. Frank Kistler, Dr. Steffen Kistler, Dr. Dr. Martin Scheer, Priv.-Doz. Dr. Dr. Daniel Rothamel, Dr. Georg Bayer, Prof. Dr. Dr. Joachim E. Zöller (DE)</i>	
5 years of experience with immediate loading of tilted implants	22-23
<i>Priv.-Doz. Dr. Jörg Neugebauer, Fabian Sigmund, Dr. Frank Kistler, Dr. Steffen Kistler, Dr. Dr. Martin Scheer, Dr. Georg Bayer, Univ.-Prof. Dr. Dr. Joachim E. Zöller (DE)</i>	
Comparative investigation of various implant surfaces by DLM and SEM-Analysis – Follow-up study with 43 different implants	24-25
<i>Dirk U. Duddeck, Daniel Rothamel, Tim Fienitz, Silja v. Wülffing, Joachim E. Zöller (DE)</i>	
Histological and histomorphometric evaluation of bic and crestal bone resorption levels, between mini²SKY vs narrowSKY implants placed at different bone level in healing bone. Animal study at 3 months.	26-27
<i>J.E. Maté Sánchez de Val, R.A. Delgado Ruiz, J.L. Calvo Guirado (ES)</i>	

II. Complete case reports

SKY fast & fixed – fixed immediate restoration for an edentulous mandible	30-31
<i>Dr. Dr. Kai Haschemian (DE)</i>	
SKY fast & fixed – temporary restoration	32-33
<i>Burzin Khan (IN)</i>	
SKY fast & fixed – definitive restoration with BioHPP Framework	34-35
<i>Burzin Khan (IN)</i>	
SKY fast & fixed – but not quite so ,fast'	36-37
<i>Priv.-Doz. Dr. Dr. Frank Kloss, Dr. Dr. Stefan Grüner, dentist, Martin Lindsberger (AT)</i>	
Restoration of completely edentulous mandible with multiple impacted teeth - a case report of a 24 year old female	38-39
<i>Dr. Hariharan Annapoorni, M.D.S., Dr. Siva Prakash Dhanaraj PhD., Dr. Rahul Malhotra M.D.S. (IN)</i>	
Temporary immediate restoration with customised mesostructure (crea.lign), and definitive restoration with a veneer system (visio.lign)	40-41
<i>Dr. Marcus Parschau, DT Mario Pütz (DE)</i>	

III. Surgery

SKY fast & fixed surgery combined with sinus floor elevation	44-45
<i>Dr. Raluca Rosca, Dr. Irina Trosca (RO)</i>	
SKY fast & fixed – the safe approach to immediate restoration by reducing bacteria with HELBO therapy	46-47
<i>Dr. Klaus Halbherr, MDT Hubert Wagegg, Dentallabor Hübsch (DE)</i>	
SKY fast & fixed for extensive periodontal damage to residual dentition	48-49
<i>Dentist Joachim Kanzow (DE)</i>	
The benefits of immediate restoration with SKY fast & fixed, in terms of soft tissue management	50-51
<i>Michael T. W. Mikoleit (DE)</i>	
Immediate prosthetic restoration based on implants with a fixed bridge, as per the ‚SKY fast & fixed‘ concept	52-53
<i>Dr. Ludovic Heinrich (DE)</i>	
Rehabilitation with immediate loading of implants by planning system with SKYplanX	54-55
<i>Dr. Perin Ermanno Davide (IT)</i>	

IV. Temporary restoration

Eight years of SKY fast & fixed: The stages of a successful dental technology concept	58-59
<i>Stephan Adler, Dres. Bayer, Kistler, Neugebauer (DE)</i>	
New protocols for new materials (Qu-Base, Qu-Resin) - the information transfer on a unique model	60-61
<i>V. Giannelli, L.C.Campos, C. Baroncini, G. Ghirlanda (IT)</i>	

V. Definitive restoration

SKY fast & fixed – fixed immediate restoration for an edentulous jaw <i>Dr. Dr. Kai Haschemian (DE)</i>	64-65
SKY fast & fixed – intraoral bonding of the metal frame and definitive restoration with NPM + visio.lign <i>Dr. Dr. Kai Haschemian (DE)</i>	66-67
Suitability of Qu-Resin® for secondary splinting of implant impression abutments using the open impression technique with individual tray <i>Prof. Dr. Dr. Josef Dumbach (DE)</i>	68-69
Passive fit impression technique for SKY fast & fixed <i>Dr. Eugenia Michalidou (GR)</i>	70-71
Clinical experience with a new prosthetic material for implant superstructures <i>Priv.-Doz. Dr. Jörg Neugebauer, Dr. Steffen Kistler, Stephan Adler, Dr. Frank Kistler (DE)</i>	72-73
Combination of a SKY fast & fixed restoration in the mandible with locators in the maxilla <i>Dr. Wilhelm Spurzem, MDT Oliver Heinzmann (DE)</i>	74-75
SKY fast & fixed restoration – transversal screws with posterior galvano copings <i>BDr. Armin Gräfe, MDT Frank Köpp, MDT Herr Ermoneit (DE)</i>	76-77
The prosthetic concept behind SKY fast & fixed transferred to ‚all-on-six‘ <i>Dr. Wilhelm Spurzem, MDT Gunnar Dietz (DE)</i>	78-79
SKY fast & fixed – for temporary and definitive restorations (BioHPP) <i>Dr. Thore Kreimeyer, MDT Jürgen Tinne (DE)</i>	80-81
Restoration of an edentulous jaw with BioHPP framework and visio.lign veneering system <i>Dr. VIJAY MABRUKAR, Mr. Shashikumar Nair (IN)</i>	82-83
SKY fast & fixed restoration with a zirconium frame in the maxilla and a BioHPP frame in the mandible <i>Zahnärztin Sylke Armke, MKG Arash Aref, MDT Christoph Dyck (DE)</i>	84-85

V. Definitive restoration

SKY fast & fixed bars (for direct screwing) produced with CAD/CAM technology	86-87
<i>MDT Georg Dick (A)</i>	
Partially removable implant-based restoration manufactured from the high-performance polymer, BioHPP	88-89
<i>MDT Sebastian Schuldes, MSc. (DE)</i>	
PEEK as a framework material for a 12-piece implant-supported bridge	90-91
<i>Dr. Bernd Siewert, DT Mario Parra (ES)</i>	
SKY fast & fixed – standardisation is the key to success	92-93
<i>Dr. Michael Weiss, MDT Grau (DE)</i>
