

Contents

Part I History

Joost Bierens

1. Brief History of <i>Maatschappij tot Redding van Drenkelingen</i> (The Society to Rescue People from Drowning).....	3
Balt Heldring	
2. The History of Lifesaving.....	7
Harald Vervaecke	
3. Two Centuries of Searching for Safe Lifeboats in the Netherlands.....	15
Ton Haasnoot	
4. The History of Resuscitation	25
Bart Jan Meursing	
5. Bibliometric Analysis of Drowning Research.....	37
Beatrix Kloft and David Groneberg	
6. The World Congress on Drowning 2002: A Move Towards the Future	45
Joost Bierens and Johannes Knape	
7. World Conference on Drowning Prevention 2011: Impacts and Legacies	63
Justin Scarr, Stephen Beerman, Monique Sharp, and Amy Peden	

Part II The Epidemiology of Drowning

Christine Branche and Ed van Beeck

8. Summary and Recommendations	81
Christine Branche and Ed van Beeck	
9. Definition of Drowning: A Progress Report	85
Ed van Beeck and Christine Branche	

10. The Global Burden of Drowning	91
Molly Martyn	
11. Data to Assess the Global Burden of Drowning	95
Molly Martyn	
12. The Burden of Drowning: Issues in Selected Countries – The United States	99
Grant Baldwin, Julie Gilchrist, and Rita Noonan	
13. The Burden of Drowning: Issues in Selected Countries – Europe	101
Antonia Moutafi and Eleni Petridou	
14. The Burden of Drowning: Issues in Selected Countries – Australia and New Zealand	107
Joan Ozanne-Smith	
15. The Burden of Drowning: Issues in Selected Countries – Africa	111
Olive Kobusingye and Brett Bowman	
16. The Burden of Drowning: Issues in Selected Countries – South America	115
David Szpilman	
17. The Burden of Drowning: Issues in Selected Countries – South and Southeast Asia	119
Alain Labrique and Adnan Hyder	
18. Review of Risk Factors	123
Linda Quan	
19. Risk Factors for Drowning: Culture and Ethnicity	127
Linda Quan	
20. Risk Factors for Drowning: Suicidal Drowning	131
Philippe Lunetta and John Connolly	
21. The Effectiveness of Drowning Prevention Strategies	135
Ruth Brenner and Gitanjali Taneja	
22. Occupational Drownings	139
Jennifer Lincoln	
23. Future Research Questions	143
Christine Branche and Ed van Beeck	
 Part III The Prevention of Drowning	
Elizabeth Bennett and Michael Linnan	
 24. Summary and Recommendations	149
Elizabeth Bennett and Michael Linnan	

25. A Framework for Prevention	153
Richard Franklin and Justin Scarr	
26. Drowning Prevention in Low- and Middle-Income Countries Versus High-Income Countries	165
Michael Linnan, Justin Scarr, and Huan Linnan	
27. Supervision	175
Lauren Petrass	
28. Physical Barriers	181
Elizabeth Bennett and Michael Linnan	
29. Public and Private Pools	187
Ian Scott and Marcel Jagersma	
30. Swimming and Water Survival Competence	197
Robert Stallman, Kevin Moran, Ruth Brenner, and Aminur Rahman	
31. Acquisition of Knowledge, Attitudes and Behaviours that Contribute to Water Competence: High-Income Countries	207
Jennifer Blitvich	
32. Water Safety Skills and Knowledge in the Low-Resource Environment	215
Tom Mecrow and Adisak Suvanprakorn	
33. Personal Flotation Devices	225
Linda Quan	
34. Recreation and Tourism	231
Arne Navarra and John Connolly	
35. Partnerships and Collaboration in Drowning Prevention	239
Justin Scarr	
36. Community-Level Interventions	251
Elizabeth Bennett, Michael Linnan, and Celeste Chung	
37. The Role of Policy in Prevention	261
Joanne Vincenten and Suchada Gerdmongkolgan	
38. Future Research Questions	269
Michael Linnan and Elizabeth Bennett	
 Part IV Rescue: Organisational Aspects – Planning, Training and Preparation	
Peter George and Rob Brons	
39. Summary and Recommendations	275
Peter George and Rob Brons	

40. Patterns of Tides, Currents, Waves and Surf.....	279
Robert Brander and Ton Haasnoot	
41. Beach Hazard and Risk Assessment	287
Andrew Short and Robert Brander	
42. Public Education by Lifesavers	293
Anthony Bradstreet	
43. Emerging Technologies in Lifesaving	299
Ralph Goto	
44. Water Safety Signs and Flags.....	303
Steve Wills and Peter George	
45. Recognition of the Person in Distress	309
Luis-Miguel Pascual-Gómez	
46. Vigilance.....	317
Jenny Page	
47. Scanning and Surveillance: Swimming Pools, Beaches, Open Sea	323
Jenny Page and Tom Griffith	
48. Evidence-Based Standards in Lifesaving: The Conclusions of the United States Lifeguard Standards Coalition	331
Peter Wernicki and Mike Espino	
49. Lifeguard Effectiveness	337
Ralph Goto	
50. Risk Management in the Aquatic Context	339
Adam Weir and Rob Brons	
51. Risk Management in the Aquatic Context: Lifeguards.....	345
Peter Dawes	
52. Risk Management in Training of Rescue Techniques	349
Richard Ming Kirk Tan	
53. Risk Management for Lifeboat Crews	353
Neil Chaplin and Bruce Reid	
54. Lifesaving Organisations: Paid or Volunteers?	357
Chris Brewster	
55. Fundraising for Lifesaving.....	361
Klaus Wilkens	
56. Training Standards.....	365
Richard Ming Kirk Tan	

57. European Qualifications Framework for the Lifeguard Profession	369
Klaus Wilkens and Rob Brons	
58. Higher Academic Education in Lifesaving (EQF Levels Above 4).....	375
Ana Catarina Queiroga, Arturo Abraldes, and Stathis Avramidis	
59. Future Research Questions	383
Peter George and Rob Brons	
 Part V Rescue: Rescue Techniques Peter George and Rob Brons	
60. Summary and Recommendations	389
Peter George and Rob Brons	
61. Towards a Definition of Aquatic Rescue.....	393
Kevin Moran	
62. Cultural Aspects of Rescue and Resuscitation of Drowning Victims	399
Ramsey Tate and Linda Quan	
63. Survival Swimming.....	405
Norman Farmer	
64. Self-Rescue During Accidental Cold Water Immersion	409
Michel DuCharme	
65. Public Rescue Equipment.....	413
Cliff Nelson and Steve Wills	
66. Bystander Rescue	419
Richard Franklin and John Pearn	
67. Direct Body Contact Swimming Rescues	423
Robert Stallman, Arturo Abraldes, and Susana Soares	
68. Rescue Techniques in Pools and Beaches with Equipment.....	431
Matt Thompson and Adam Wooler	
69. Horizontal and Other Rescue Techniques	439
Wolfgang Baumeier and Michael Schwindt	
70. Open Water Search and Rescue Techniques	453
Peter Dawes, Michael Woodroffe, and Gabriel Kinney	
71. Rescue Crafts.....	461
Ton Haasnoot, Andrew Woods, Thore Hagman, Jim Howe, Ruy Marra, and Peter George	

72. Helicopter Search and Rescue for Drowning Victims	477
Man-ho Ng	
73. Swiftwater Rescue	485
Daniel Graham and Thilo Künneth	
74. Training and Equipping Rescue Personnel for Flood Rescue	491
Slim Ray	
75. Surface Ice Rescue	495
Andrea Zaferes and Walt Hendrick	
76. Rescue Techniques in Submerged Vehicles	499
Jaap Molenaar, Gordon Giesbrecht, and Gerren McDonald	
77. Offshore Powerboat Rescue	505
Joost van Nueten	
78. Spinal Injuries: Causes and Prevention	509
Jennifer Blitvich	
79. Lifesaver Injuries: Causes and Prevention	515
Peter Wernicki and Christy Northfield	
80. Rescue Craft Injuries: Causes and Prevention	521
Peter Dawes	
81. Rescue Operations and Stress	525
Peter van der Velden and Peter van Loon	
82. Training Lifesavers to Manage Acute Stress During Emergency Response	531
Francesco Pia	
83. Future Research Questions	535
Peter George and Rob Brons	
 Part VI Pre-hospital Treatment	
Volker Wenzel and Joost Bierens	
84. Summary and Recommendations	541
Volker Wenzel and Joost Bierens	
85. Pathophysiology of Drowning	545
Joost Bierens, Philippe Lunetta, and Mike Tipton	
86. Aspiration	561
Jerome Modell	
87. Long QT Syndrome and Drowning	565
Alfred Bove and Rienk Rienks	

88. Shallow Water Blackout	571
Phillip Dickinson	
89. Immersion Pulmonary Edema	577
Mattijn Buwalda	
90. The Critical Role of Laypersons and Their Actions in Drowning Incidents	583
Jane Wigginton, Paul Pepe, Denise Mann, David Persse, and Paul Sirbaugh	
91. Basic Life Support Following Drowning	589
Anthony Handley and Ahamed Idris	
92. Drowning: A Dispatch Perspective	595
Jeff Clawson	
93. Automated External Defibrillators in the Aquatic Environment ...	601
Bo Løfgren and Steve Beerman	
94. Oxygen Monitoring and Use in the Drowning Victim	607
Patrick Kochanek and Hülya Bayır	
95. Airway Management Skills and Equipment for Aquatic First Responders	613
Natalie Hood and Jonathon Webber	
96. Immobilization and Extraction of Spinal Injuries	621
Peter Wernicki and David Szpilman	
97. Positioning of the Drowning Victim	629
David Szpilman and Anthony Handley	
98. Advanced Life Support	635
Volker Wenzel	
99. Paediatric Considerations in Drowning	641
Robyn Meyer, Andreas Theodorou, and Robert Berg	
100. Resuscitation in Low- and Middle-Income Countries: Issues to Be Considered	651
Tom Mecrow and Nahida Nusrat	
101. First Aid Courses for the Aquatic Environment	659
David Szpilman, Luiz Morizot-Leite, Wiebe de Vries, Steve Beerman, Fernando Neves Rodrigues Martinho, Luiz Smoris, Bo Løfgren, and Jonathon Webber	
102. Extremes in Medical Facilities at Beaches	667
Ana Catarina Queiroga and Jonathon Webber	
103. Future Research Questions	677
Volker Wenzel and Joost Bierens	

Part VII Hospital Treatment

Jean-Louis Vincent and Johan Groeneveld

104. Summary and Recommendations	683
Jean-Louis Vincent and Johan Groeneveld	
105. Classifications of Drowning	685
David Szpilman, Antony Simcock, and Shirley Graves	
106. Treatment Protocols: Emergency Department and Intensive Care Unit	693
Volker Wenzel, Walter Hasibeder, and Antony Simcock	
107. Ventilatory Management of ARDS After Drowning	705
Davide Chiumello, Eleonora Carlesso, and Luciano Gattinoni	
108. Surfactant Therapy	713
Jack Haitsma, Jozef Kesecioglu, and Burkard Lachmann	
109. ECMO Support in Drowning Victims	719
Robert van Thiel and Robert Jan Houmes	
110. Risk Factors and Treatment of Pneumonia	725
Giel van Berkel and Tjip van der Werf	
111. Cardiovascular Changes	731
Jerome Modell, Tommaso Pellis, Max Harry Weil, and Philippe Lunetta	
112. Electrolyte Disorders, Acute Kidney Injury and Rhabdomyolysis	737
Patrick Honoré and Herbert Spapen	
113. Drowning in Children	745
Hans van Vught, Nigel Turner, Koos Jansen, and S'jef van Gestel	
114. Lessons Learned from Case Reports	751
Herve Vanden Eede and Johan Groeneveld	
115. Recommended Guidelines for Uniform Reporting of Data from Drowning: The Utstein Style	757
Ahamed Idris, Joost Bierens, Jane Wigginton, Paul Pepe, Andrea Gabrielli, Anthony Handley, and Jerome Modell	
116. Future Research Questions	767
Johan Groeneveld and Jean-Louis Vincent	

Part VIII Brain Resuscitation in the Drowning Victim

David Warner and Johannes Knape

117. Summary and Recommendations	771
David Warner and Johannes Knape	

118. Introduction.....	775
David Warner and Johannes Knappe	
119. Pre-hospital Management	777
Laurence Katz	
120. Brain-Oriented Intensive Care Management.....	781
Cornelia Hoedemaekers	
121. Temperature Management.....	787
Michael Holzer	
122. Pediatric Considerations in Drowning	795
Robert Berg and Vinay Nadkarni	
123. Neuromonitoring.....	799
Alexis Topjian	
124. Biomarkers	811
Hans Friberg	
125. Post-hypoxic Pharmacology.....	817
David Warner	
126. Animal Experimentation	825
Robert Clark and Patrick Kochanek	
127. Future Research Questions	831
Patrick Kochanek and David Warner	
 Part IX Immersion Hypothermia	
Beat Walpoth and Hein Daanen	
 128. Summary and Recommendations	839
Beat Walpoth and Hein Daanen	
129. The Physiology of Cooling in Cold Water.....	843
Mike Tipton and Frank Golden	
130. Body Cooling, Modelling and Risk Assessment.....	849
Peter Tikuisis and Hein Daanen	
131. Rescue Collapse Following Cold Water Immersion.....	855
Michael Tipton and Michel Ducharme	
132. The Role of Seasickness	859
Gerard Nobel, Ola Eiken, and Igor Mekjavic	
133. Lifejackets and Other Lifesaving Appliances.....	863
Chris Brooks	
134. Personal Lifesaving Equipment Other than Lifejackets.....	869
Hilde Færevik	

135. Pre-hospital Management of Immersion Hypothermia	875
Michel DuCharme, Alan Steinman, and Gordon Giesbrecht	
136. Hospital Rewarming of Hypothermic Victims	881
Peter van der Voort and Durk Zandstra	
137. Hospital Treatment of Hypothermia Victims in Cardiorespiratory Arrest.	893
Beat Walpoth, Ebrahim Khabiri, and Adam Fisher	
138. Fluid Management During the Treatment of Immersion Hypothermia	899
Marit Farstad and Paul Husby	
139. Adrenergic Drug Responses During Immersion Hypothermia ...	907
Torkjel Tveita	
140. Acid–Base Management During Accidental Hypothermia.	913
Miriam Moviat and Durk Zandstra	
141. An International Data Registration for Accidental Hypothermia: The International Hypothermia Registry	917
Marie Meyer and Beat Walpoth	
142. International Data Registration for Accidental and Immersion Hypothermia: The UK National Immersion Incident Survey – Revisited	921
Mike Tipton, Elizabeth McCormack, and Chris Turner	
143. An International Data Registration for Accidental and Immersion Hypothermia: The SARRRAH Project	925
Wolfgang Baumeier	
144. Future Research Questions	929
Beat Walpoth and Hein Daanen	
 Part X Water-Related Disasters	
Bas Kolen and Sebastiaan Jonkman	
145. Summary and Recommendations	935
Bas Kolen and Sebastiaan Jonkman	
146. Disasters at Sea	939
Helge Brändström and Gordon Giesbrecht	
147. Boat Refugees	949
Cagri Hurmuzlu, Ann Maymann, Jerome Elie, and Federico Fossi	
148. Loss of Life Due to Floods: General Overview.	957
Sebastiaan Jonkman	

149. Dealing with Citizen Response and Evacuation During Large-Scale Flooding in Industrial Societies	967
Ira Helsloot, Greg Bankoff, and Jelle Groenendaal	
150. Water Rescue, Treatment and Lifesaving.....	979
Peter Glerum and Daniel Graham	
151. The Future Role of National Lifesaving Organisations in Disaster Risk Reduction.....	987
Georgios Marios Karagiannis and Joost Bierens	
152. The Role of Lifesavers in Flood Disasters: An Example from Germany.....	995
Klaus Wilkens	
153. Tsunami and the Role of the Japan Lifesaving Association	1001
Toshinori Ishikawa and Tsutomu Komine	
154. Flood Preparedness Training and Exercises.....	1009
Ralf Beerens, Philip Abraham, Peter Glerum, and Bas Kolen	
155. Evacuation of Hospitals and Other Health-Care Organizations	1017
Erin Downey	
156. Lessons from the Evacuation of a New Orleans Hospital During Katrina	1027
Richard Deichmann	
157. Towards Resilient Organisation of Recovery and Care after Disaster.....	1033
Michel Dückers, Magda Rooze, and David Alexander	
158. Experience-Based Expertise with Flood-Risk Management and Flood Preparedness in the Netherlands.....	1039
Matthijs Kok and Corsmas Goemans	
159. UK Summer Floods 2007	1047
Paul Hayden	
160. Experience-Based Expertise with Flooding in China	1057
Sun Dongya and Xioe Jiabi	
161. The 2004 and 2011 Indian Ocean Tsunami Flooding	1067
Marcel Marchand and Deepak Vatvani	
162. The Australian Experience and the Queensland Floods of 2010–2011	1075
Lucinda Coates, Katharine Haynes, Andrew Gissing, and De Radford	
163. Future Research Questions	1085
Bas Kolen and Sebastiaan Jonkman	

Part XI Breath-Hold, SCUBA and Hose Diving

Alessandro Marroni and Menno Gaastra

164. Summary and Recommendations	1091
Alessandro Marroni and Menno Gaastra	
165. Physiology	1095
Alessandro Marroni, Menno Gaastra, David Elliott, and Rob van Hulst	
166. The Underlying Physics and Applied Physiology.	1099
David Elliott, Rob van Hulst, Maida Taylor, Alessandro Marroni, and Menno Gaastra	
167. Diving Techniques	1103
David Elliott, Rob van Hulst, Alessandro Marroni, and Menno Gaastra	
168. Epidemiology of Drowning while Diving	1105
Maida Taylor	
169. Physical, Mental and Medical Fitness.	1107
Jürg Wendling	
170. Causation of Drowning Accidents in Relation to Training	1109
Glen Egstrom	
171. Underwater Self-Rescue and Assisted Rescue: Training to Cope with Emergencies	1111
Glen Egstrom	
172. Immediate Treatment of the Drowned Diver	1113
Richard Moon	
173. First Aid Guidelines	1115
Alessandro Marroni and Menno Gaastra	
174. Diving Accident Investigations.	1119
Des Gorman	
175. The Investigation of SCUBA Diving Fatalities.	1121
Jim Caruso	
176. Future Research Questions	1131
Alessandro Marroni and Menno Gaastra	

Part XH Investigation of Drowning Accidents

Philippe Lunetta and Jerome Modell

177. Summary and Recommendations	1135
Philippe Lunetta and Jerome Modell	

178. Investigating Drowning Accidents: General Principles.	1141
Peter Cornall, Duncan Vernon, and David Walker	
179. Behaviour of Dead Bodies in Water	1149
Philippe Lunetta, Curtis Ebbesmeyer, and Jaap Molenaar	
180. Search and Recovery in Nearshore Waters	1153
James Howe Jr.	
181. Searching for Dead Bodies with Dogs	1159
Adee Schoon	
182. Searching for Dead Bodies with Sonar	1161
Philippe Blondel	
183. Infrared Detection Systems (IDS)	1167
Germ Martini	
184. Computer Systems	1171
Curtis Ebbesmeyer	
185. Underwater Search and Evidence Response Teams	1175
Kevin Horn	
186. Establishing the Cause and Manner of Death for Bodies Found in Water	1179
Philippe Lunetta, Andrea Zaferes, and Jerome Modell	
187. Multidisciplinary Safety Investigations of Drowning Accidents	1191
Philippe Lunetta and Kai Valonen	
188. Legal Aspects and Litigation in Aquatic Lifesaving	1199
Jerome Modell	
189. Legal Claims in Drowning Cases	1203
Rutger Schimmelpenninck and Chris Brewster	
190. Legal and Ethical Aspects Concerning Human Remains in Water and Burial at Sea	1211
Kari Takamaa and Philippe Lunetta	
191. Marine Accident Investigations: Towards Safety Investigations	1219
John Stoop and Martti Heikkilä	
192. Future Research Questions	1225
Philippe Lunetta and Jerome Modell	
Index.	1231
