Foreword to the Second Edition	viii
Foreword to the First Edition	ix
Preface	x
Contributors	xi

Spine, Anterior Approaches

1	Cervical Spine and Cervicothoracic Junction	
1.1	Transoropharyngeal Approach C1–C2 (C3)	2
1.2	Anterior Approach to the Cervical Spine C3–T2	4
1.3	Anterior Approach to the Lower Cervical and Upper Thoracic Spine C4–T3 According to Cauchoix, Binet, and Evrard	13
2	Thoracic Spine	
2.1	Transthoracic Approach to the Thoracic Spine T4–T11	17
2.2	Anterior Transpleural Approach to the Spine T3–T11 According to Louis	28
2.3	High Thoracotomy T1–T4	32
2.4	Thoracoscopic and Minimally Invasive, Thoracoscopy-Assisted Access to the Thoracic Spine	36
3	Thoracolumbar Junction	
3.1	Retroperitoneal Extrapleural Approach to the Thoracolumbar Spine T9–L5 According to Hodgson	43
3.2	Approach to Thoracolumbar Spine with Two-fold Thoracotomy T4–L5 According to Bauer	55
3.3	Retroperitoneal Extrapleural Approach to Thoracolumbar Spine T11–L5 According to Mirbaha	59
4	Lumbar Spine and Lumbosacral Junction	
4.1	Retroperitoneal Approach to the Lumbar Spine L2–L5	64
4.2	Transperitoneal Approach to the Lumbosacral Junction L4–S1	68
4.3	Minimally Invasive Lateral Approach to the Lumbar Spine L2–L5	71

Spine, Posterior Approaches

5	Cervical Spine	
5.1	Posterior Approach to the Cervical Spine and Occipitocervical Junction	76
6	Thoracic and Lumbar Spine	
6.1	Costotransversectomy T3–T10	80
6.2	Posterior Approach to the Thoracic and Lumbar Spine	84
6.3	Paraspinal Approach to the Lumbosacral Junction According to Wiltse	91
6.4	Short Posterior Approach to the Lumbar Spine for Laminotomy and Removal of an Intervertebral Disk	92

Pelvis and Lower Extremity

7	Pelvis: Pelvic Ring	
7.1	Approach to the Symphysis and Anterior Pelvis	96
7.2	Anterior Approach to the Posterior Pelvis	98
7.3	Posterior Approach to the Sacrum	100
7.4	Lateral Minimally Invasive Approach for Trans-sacroiliac Screw Placement	101
7.5	Approach to the Ischium and Pubis	102
8	Pelvis: Acetabulum	
8.1	Ilioinguinal Approach According to Letournel ..	105
8.2	Posterior Approach to the Hip According to Kocher-Langenbeck	110
8.3	Anterior Limited Approach According to Stoppa	114
8.4	Transiliac Approach According to Judet	116
8.5	Approach to the Acetabulum According to Judet	120

9	Hip Joint	
9.1	Posterior Approach to the Hip Joint with Dislocation According to Ganz	124
9.2	Posterior Minimally Invasive Approach	127
9.3	Transgluteal Approach According to Bauer	131
9.4	Minimally Invasive Transgluteal Approach	134
9.5	Anterolateral Approach to the Hip Joint	136
9.6	Minimally Invasive Anterolateral Approach to the Hip Joint	140
9.7	Anterior Approach to the Hip Joint	144
9.8	Anterior Minimally Invasive Approach	146
9.9	Arthroscopic Approaches to the Hip Joint	149
10	Femur	
10.1	Anterior Approach	154
10.2	Lateral Proximal Approach to the Medullary Cavity of the Femur	157
10.3	Lateral Approach to the Femur	
10.3a	Lateral Approach—General Points	158
10.3b	Lateral Approach—Exposure of the Proximal Femur	158
10.3c	Lateral Approach—Exposure of the Distal Femur	161
10.4	Minimally Invasive Lateral Approach to the Femur	164
10.5	Medial Approach to the Femur	166
10.6	Posterior Approach to Femur	170
10.7	Transarticular Medullary Cavity Approach to the Distal Femur	175
11	Knee	
11.1	Anteromedial Minimally Invasive Approaches to the Knee Joint	176
11.2	Anteromedial Parapatellar Approach	180
11.3	Short Medial Approach to the Knee	186
11.4	Anterolateral Approach to the Knee Joint	188
11.5	Posterolateral Approach According to Henderson	189
11.6	Posterior Approach to the Knee Joint According to Trickey	191
11.7	Arthroscopic Approaches	196

12	Lower Leg	
12.1	Proximal Approach to the Medullary Cavity of the Tibia	199
12.2	Direct Posterior Approach to the Tibial Plateau	200
12.3	Posteromedial Approach to the Tibial Plateau	202
12.4	Posterolateral Approach to the Tibial Plateau with Osteotomy of the Fibula	204
12.5	Posterolateral Approach to the Tibia and Fibula	207
12.6	Posteromedial Approach to the Tibial Shaft	211
12.7	Minimally Invasive Approach to the Medial and Lateral Tibia	213
12.8	Lateral Approach to the Fibula	218
13	Foot	
13.1	Anterior Approach to the Ankle Joint	222
13.2	Anterolateral Approach to the Ankle Joint and Talocalcaneonavicular Joint	225
13.3	Cincinnati Approach	228
13.4	Posteromedial Approach to the Ankle Joint and the Medial Side of the Talocalcaneonavicular Joint	233
13.5	Dorsolateral Approach to the Ankle Joint	238
13.6	Medial Exposure of the Ankle Joint with Osteotomy of the Medial Malleolus	241
13.7	Arthroscopic Approaches	243
13.8	Medial Approach to the Medial Malleolus	245
13.9	Approach to the Lateral Malleolus	246
13.10	Lateral Approach to the Calcaneus	247
13.11	Lateral Approach to the Calcaneus and Talocalcaneonavicular Joint	248
13.12	Medial Approach to the Calcaneus	250
13.13	Lateral Approach to the Talocalcaneonavicular Joint	251
13.14	Anterior Approach to the Metatarsal Joints	253
13.15	Medial Approach to the Tarsometatarsal Joints	255
13.16	Plantar Approach to the Metatarsophalangeal Joints	258
13.17	Medial Approach to the Metatarsophalangeal Joint of the Great Toe	261
13.18	Posterior Approaches to the Metatarsal Bones, Metatarsophalangeal Joint, and Interphalangeal Joint	263
13.19	Plantar Approach to the Toe Flexor Tendons	263
13.20	Extensor Approach to the Second Toe	264

Shoulder and Upper Extremity

14	Scapula and Clavicle	
14.1	Approach to the Clavicle and Acromioclavicular Joint	268
14.2	Approach to the Sternoclavicular Joint	270
14.3	Approach to the Scapula	271

15	Shoulder	
15.1	Anterior Approach to the Shoulder Joint	277
15.2	Extended Anterior Approach to the Shoulder Joint with Exposure of the Proximal Humerus	282
15.3	Anterosuperior Approach to the Shoulder Joint	283

15.4	Anterolateral Approach According to Bigliani . .	284
15.5	Posterosuperior Approach According to Gschwend	286
15.6	Posterior Approach to the Shoulder Joint	287
15.7	Arthroscopic Approach to the Shoulder	289
16	Humerus	
16.1	Proximal Approach to the Humerus	295
16.2	Posterior Approach to the Humerus	296
16.3	Distal Posterior Approach to the Humerus	300
16.4	Anterior Approach to the Humerus	301
16.5	Lateral Approach to the Humerus	306
16.6	Medial Approach to the Humerus	309
17	Elbow	
17.1	Posterior Approach to the Elbow Joint	312
17.2	Lateral Approach to the Elbow Joint	320
17.3	Medial Approach to the Elbow Joint	325
17.4	Anterior Approach to the Elbow Joint	328
17.5	Approaches for Elbow Arthroscopy	334
18	Forearm	
18.1	Anterior Approach to the Radius According to Henry	338
18.2	Dorsolateral Approach to the Radius According to Thompson	341
18.3	Approach to the Proximal Parts of the Radius and Ulna According to Boyd	344
18.4	Lateral Approach to the Ulna	346
18.5	Posterior Approach to the Distal Part of the Radius	348
18.6	Approach to the Distal Portion of the Ulna	350
18.7	Palmar Approach to the Distal Part of the Radius	351
19	Wrist	
19.1	Minimally Invasive Approach for Endoscopic Carpal Tunnel Division	354
19.2	Posterior Approach to the Wrist	357
19.3	Palmar Approach to the Wrist	360
19.4	Approach for Arthroscopy	364
20	Hand	
20.1	Approach to the Palm According to Skoog	369
20.2	Exposure of the Ulnar Nerve in the Canal of Guyon	372
20.3	Palmar Approach to the Scaphoid	374
20.4	Approach to the Carpometacarpal Joint of the Thumb	374
20.5	Approach to the First Extensor Tendon Compartment	377
20.6	Dorsal Incisions Over the Dorsum of the Hand and Fingers	
20.6a	Dorsal Incisions—General Points	378
20.6b	Dorsal Approach to the Metacarpophalangeal Joint	378
20.6c	Dorsal Approach to the Proximal Interphalangeal Joint	380
20.6d	Dorsal Approach to the Proximal Interphalangeal Joint Involving Transection of the Collateral Ligament	381
20.6e	Dorsal Approach to the Distal Interphalangeal Joint	383
20.7	Approach to the Finger Flexor Tendons	384
20.8	Palmar Exposure of the Flexor Tendon and Proximal Interphalangeal Joint	386
20.9	Approach to the Finger Flexor Tendon Via the Midlateral Incision	388
20.10	Approach to the Annular Ligament of the Thumb	391
	Index	395
