

Table of content

Plenary Talks	2
Talks	4
MS01 - General Interest	4
MS02 - Material Science I	7
MS03 - Challenges in macromolecular crystallography	10
MS04 - Young Crystallographers Lightning Session	13
MS05 - Material Science II	23
MS06 - Computational & Theoretical Crystallography: Macromolecular structures	26
MS07 - Inorganic Structural Chemistry	29
MS08 - Material Science III	31
MS09 - Hot new structures of biological macromolecules	34
MS10 - Computational & Theoretical Crystallography: Diffraction versus wave function?	36
MS11 - Spectroscopy I	39
MS12 - Protein function and regulation	42
MS13 - Inorganic Structural Chemistry II	45
MS14 - Structural chemistry at extreme conditions	47
MS15 - Structures of small biologically active molecules and protein-inhibitor complexes	49
MS16 - Material Science IV	52
MS17 - Spectroscopy II	55
MS18 - Protein-nucleic acid complexes	58
Poster	61
BIO - Biostructures	61
CTC - Computational & Theoretical Crystallography	70
GIN - General Interest	73
ISC - Inorganic structural chemistry	76
MSC - Material Science	99
SPE - Spectroscopy	131
SCE - Structural chemistry at extreme conditions	135
LIG - Young Crystallographers Lightning Session Posters	140
Index	149
