1	Introduction	1
2	Literature review	3
2.1	Potassium	3
2.1.1	Characteristics of potassium	3
2.1.2	Physiological role of potassium	4
2.1.3	Potassium homeostasis	4
2.1.4	Disorders of potassium balance	6
2.1.4.1	Hypokalemia	7
2.1.4.1.1	Definition	7
2.1.4.1.2	Etiology and pathophysiology	7
2.1.4.1.3	Clinical symptoms	10
2.1.4.2	Hyperkalemia	11
2.1.4.2.1	Definition	11
2.1.4.2.2	Etiology and pathophysiology	12
2.1.4.2.3	Clinical symptoms	13
2.1.5	Relationship between muscle potassium and plasma potassium	14
2.2	Sodium	15
2.2.1	Characteristics of sodium	15
2.2.2	Physiological role of sodium	15
2.2.3	Sodium homeostasis	15
2.2.4	Disorders of sodium balance	16
2.2.4.1	Hyponatremia	17
2.2.4.1.1	Definition	17
2.2.4.1.2	Etiology and pathophysiology	17
2.2.4.1.3	Clinical symptoms	18
2.2.4.2	Hypernatremia	19
2.2.4.2.1	Definition	19
2.2.4.2.2	Etiology and pathophysiology	19
2.2.4.2.3	Clinical symptoms	20

2.3	Pre-analytical factors.....	20
2.4	Standard test methods for determination of sodium and potassium in body fluids	22
2.4.1	Instruments for measurements of potassium and sodium.....	22
2.4.1.1	Flame atomic spectroscopy.....	22
2.4.1.1.1	Flame atomic emission spectroscopy	23
2.4.1.1.2	Flame atomic-absorption spectroscopy	23
2.4.1.1.3	Flame atomic fluorescence spectrometry	24
2.4.1.2	Ion selective electrode.....	24
2.4.1.2.1	Solid-state membrane electrodes	26
2.4.1.2.2	Liquid ion selective electrode.....	27
2.4.1.2.3	Glass membrane electrodes	27
2.4.1.3	Inductively coupled plasma spectrometry	27
2.4.1.4	Flow injection analysis	28
3	Objectives.....	30
4	Materials and methods	31
4.1	General information	31
4.1.1	Origin of blood samples and muscle biopsies	31
4.1.2	Sampling.....	31
4.1.3	Sample processing	32
4.2	Trial I, agreement analysis between FAES (AAS, SOLAAR M6) and ISE (EML™ 105).....	33
4.2.1	Standardization of ISE (EML™ 105) and FAES (AAS, SOLAAR M6).....	34
4.2.2	Measurement of total potassium and sodium concentration by FAES (AAS, SOLAAR M6).....	35
4.2.2.1	Calibration of FAES (AAS, SOLAAR M6)	36
4.2.2.2	Measurement of samples.....	36
4.2.3	Measurements of potassium and sodium ion concentration by direct ISE (EML™ 105).....	38
4.2.3.1	Calibration of ISE (EML™ 105).....	38
4.2.3.2	Measurement of samples.....	38
4.2.4	Blood gas analysis	40

4.2.5	Determination of total protein, albumin, globulin and cholesterol.....	41
4.2.6	Determination of water mass concentration	42
4.2.7	Statistical analysis.....	42
4.3	Trial II, pre-analytical factors (effect of storage duration and temperature).....	43
4.3.1	Animals.....	43
4.3.2	Blood samples and sampling procedures.....	43
4.3.3	Measurement of potassium and sodium ions concentration	44
4.3.4	Blood gas analysis	44
4.3.5	Statistical analysis.....	45
4.4	Trial III, effect of <i>in vitro</i> hemolysis on potassium ion concentration.....	45
4.4.1	Animals.....	45
4.4.2	Blood samples and sampling procedures.....	45
4.4.3	Measurements of plasma potassium concentration	46
4.4.4	Measurements of free plasma hemoglobin levels (FPHgb).....	47
4.4.5	Statistical analysis.....	47
4.5	Trial IV, the relationship between muscle and plasma potassium concentrations.....	47
4.5.1	Animals.....	47
4.5.2	Blood samples and sampling procedures.....	48
4.5.3	Measurement of potassium and sodium in plasma	48
4.5.4	Blood gas analysis	48
4.5.5	Muscle biopsy.....	49
4.5.5.1	Sampling technique.....	49
4.5.5.2	Measurement of potassium and sodium content in muscle biopsy samples	50
4.5.6	Statistical analysis.....	50
5	Results	53
5.1	Trial I, agreement analysis between FAES (AAS, SOLAAR M6) and ISE (EML™ 105).....	53
5.1.1	Results of standardization process.....	53
5.1.2	Agreement analysis between FAES (AAS, SOLAAR M6) and ISE (EML™ 105).....	54

5.1.3	Effects of total protein and cholesterol contents and pH on results of potassium and sodium measurements obtained by FAES (AAS, SOLAAR M6) and ISE (EML™ 105)	58
5.2	Trial II, pre-analytical factors (effect of storage duration and temperature).....	68
5.3	Trial III, effect of <i>in vitro</i> hemolysis on potassium ion concentration.....	78
5.4	Trial IV, the relationship between muscle and plasma potassium concentrations.....	81
6	Discussion	87
6.1	Trial I, agreement analysis between FAES (AAS, SOLAAR M6) and ISE (EML™ 105)	87
6.2	Trial II, pre-analytical factors (effect of storage duration and temperature).....	91
6.3	Trial III, the effect of <i>in vitro</i> hemolysis on potassium ion concentration in bovine blood samples	96
6.4	Trial IV, the relationship between muscle and plasma potassium concentrations.....	98
7	Conclusions	103
8	Summary	105
9	Zusammenfassung	109
10	References	113
11	Appendix	129
12	List of publications	147
13	Acknowledgements	148
14	Seibständigkeitserklärung	149
