Preface	xi
About the Author	xiii
1 Why Exercises, Tests, Patient Language, and Navigator	3
3 in 1	3
1.1 Why Do Exercises?	3
<i>Long-term efficacy</i>	3
1.2 Why Perform Tests?	3
1.2.1 Efficacy	3
1.2.2 Prevention	3
1.2.3 Time Efficiency and Safety	3
1.2.4 Motivation and Responsibility	3
<i>First question</i>	3
1.2.5 Approval	3
1.3 Why Is the Exercise Always the Same as the Test?	4
1.4 Why Establish a Differential Diagnosis?	4
1.5 Why are the Tests and Exercises Written in Patient Language?	4
1.6 Why an Exercise Book with a Navigator?	4
2 Essential Training and Testing Q + As	5
Selection criteria	5
3 Posture	10
3.1 Seated Posture with Symmetrical Foot Placement	10
Test	10
Exercise	10
Troubleshooting	10
Before and After Comparison	10
Differential Diagnosis	10
Biomechanics	11
3.2 Neutral Spinal Curvature	12
Test	12
Exercise	13
Troubleshooting	15
<i>Awareness exercise: Well-being</i>	15
<i>Impression on others</i>	15
<i>Awareness exercise: Fear</i>	15
Before and After Comparison	17
Differential Diagnosis	17
<i>Awareness exercise: Resistance</i>	17
Biomechanics	17
<i>Awareness exercise: Muscle balance</i>	19
<i>Awareness exercise: Ease of cervical rotation</i>	19
<i>Kyphosis stress</i>	20
3.3 Sitting without Side Bending or Twisting	21
Test	21
Exercise	21
Troubleshooting	22
<i>What to do in cases of scoliosis</i>	22
Before and After Comparison	22
Differential Diagnosis	22
Biomechanics	23
<i>Significance of the eyes</i>	23
3.4 Stabilized Neutral Spinal Curvature	23
Test	23
Exercise	24
Troubleshooting	24
Before and After Comparison	24
Differential Diagnosis	25
Biomechanics	25
3.5 Balanced Upper Body when Seated	25
Test	25
Exercise	26
Troubleshooting	26
Before and After Comparison	26
Differential Diagnosis	26
Biomechanics	26

3.6	Posture-friendly Environment	27	3.10	Stance Width	32
	Test	27		Test	32
	Exercise	27		Exercise	32
	Troubleshooting	27		Troubleshooting	32
	<i>Standards</i>	27		Before and After Comparison	32
	Before and After Comparison	27		Differential Diagnosis	32
	Differential Diagnosis	27		Biomechanics	32
	Biomechanics	28			
3.7	Chair Height	28	3.11	Symmetrical Weight	
	Test	28		Distribution when Standing	33
	Exercise	28		Test	33
	<i>How to find the right seat height</i>	28		Exercise	33
	Troubleshooting	28		<i>Awareness exercise: Left-right weight distribution</i>	33
	Before and After Comparison	28		<i>Awareness exercise: Front-back weight distribution</i>	34
	Differential Diagnosis	28		Troubleshooting	35
	Biomechanics	28		Before and After Comparison	35
3.8	Distance between the Knees and between the Feet while Seated	29		Differential Diagnosis	35
	Test	29		Biomechanics	36
	Exercise	29	3.12	Standing Posture with a Balanced Upper Body	36
	Troubleshooting	29		Test	36
	Before and After Comparison	29		Exercise	36
	Differential Diagnosis	29		Troubleshooting	36
	Biomechanics	30		<i>Pushing instead of tipping</i>	36
3.9	Symmetrical Weight			Before and After Comparison	37
	Distribution when Sitting	30		Differential Diagnosis	38
	Test	30		<i>Paresthesia in the area of the lateral femoral cutaneous nerve</i>	38
	Exercise	31		Biomechanics	38
	Troubleshooting	31			
	Before and After Comparison	31			
	Differential Diagnosis	31			
	Biomechanics	31			
4	Relaxation				
4.1	Relaxed Tongue	39		Relation between posture and chewing muscle tone	43
	Test	39	4.3	Relaxed Lower Lip	43
	Exercise	39		Test	43
	<i>How to find the right resting position for your tongue</i>	39		Exercise	43
	Troubleshooting	39		Troubleshooting	43
	Before and After Comparison	40		Before and After Comparison	44
	Differential Diagnosis	40		Differential Diagnosis	44
	<i>Tongue findings</i>	40		Biomechanics	45
	Biomechanics	40	4.4	Relaxed Shoulders	45
	<i>Parafunction</i>	40		Test	45
4.2	Relaxed Lower Jaw	41		Exercise	45
	Test	41		Troubleshooting	45
	Exercise	41		Before and After Comparison	46
	Troubleshooting	41		Differential Diagnosis	46
	Before and After Comparison	41		Biomechanics	46
	Differential Diagnosis	41		<i>Awareness exercise: Shoulder muscle contraction and relaxation</i>	46
	Biomechanics	42			
	<i>Lasting relaxation</i>	42			

4.5	Abdominal Breathing	47	<i>Palpation for costosternal movement</i>	48
	Test	47	Differential Diagnosis	48
	Exercise	47	Biomechanics	49
	<i>Breathing during pauses in speech</i>	47	<i>Retraining breathing can improve carpal tunnel symptoms</i>	49
	Troubleshooting	47		
	Before and After Comparison	48		
5	Movement			50
5.1	Changing Seated Position	50	Before and After Comparison	51
	Test	50	Differential Diagnosis	51
	Exercise	50	Biomechanics	52
	Troubleshooting	50		
	Before and After Comparison	50		
	Differential Diagnosis	50		
	Biomechanics	51		
5.2	Change of Position	51	5.3 Dynamic Sitting and Standing	53
	Test	51	Test	53
	Exercise	51	Exercise	53
	Troubleshooting	51	<i>Awareness exercise: Muscle chains</i>	53
			Troubleshooting	57
			Before and After Comparison	57
			Differential Diagnosis	57
			Biomechanics	57
6	Coordination			58
6.1	Sitting Up	58	Before and After Comparison	63
	Test	58	Differential Diagnosis	63
	Exercise	58	Biomechanics	63
	Troubleshooting	59		
	Before and After Comparison	60		
	Differential Diagnosis	60		
	Biomechanics	60		
6.2	Balance	60	6.4 Hip Extension	63
	Test	60	Test	63
	Exercise	61	Exercise	63
	Troubleshooting	61	Troubleshooting	63
	Before and After Comparison	61	Before and After Comparison	64
	Differential Diagnosis	62	Differential Diagnosis	64
	Biomechanics	62	Biomechanics	64
6.3	Arm Swing	62	6.5 Eye Muscle Coordination	65
	Test	62	Test	65
	Exercise	63	Exercise	65
	Troubleshooting	63	Troubleshooting	65
			<i>Dissociation</i>	65
			Before and After Comparison	65
			Differential Diagnosis	65
			Biomechanics	66
7	Mobility			69
	<i>First feeling of tension</i>	69	<i>Without a hand</i>	70
	<i>Muscle guarding</i>	69	Troubleshooting	71
	<i>Measurement units</i>	69	<i>Common mistake</i>	71
7.1	Chin Tuck Mobility	70	Before and After Comparison	72
	Test	70	Differential Diagnosis	72
	Exercise	70	Biomechanics	73

7.2	Thoracic Extension Mobility	73	7.8	Lifting Technique	93
	Test	74		Test	93
	Exercise	74		Exercise	93
	Troubleshooting	75		Troubleshooting	93
	<i>Common mistake</i>	75		Before and After Comparison	94
	Before and After Comparison	75		Differential Diagnosis	94
	Differential Diagnosis	75		<i>Talocrural hypomobility</i>	94
	Biomechanics	76		Biomechanics	94
	<i>Thoracic spine–shoulder study</i>	76	7.9	Hip Flexion Mobility	95
7.3	Back Muscle Flexibility	76		Test	95
	Test	76		Exercise	95
	Exercise	76		Troubleshooting	96
	Troubleshooting	76		<i>Pants that are too tight</i>	96
	Before and After Comparison	77		Before and After Comparison	96
	Differential Diagnosis	77		Differential Diagnosis	96
	Biomechanics	77		Biomechanics	96
	<i>A pleasant finish</i>	77	7.10	Buttock Muscle Flexibility	96
7.4	Shoulder Mobility	78		Test	96
	Test	78		Exercise	97
	Exercise	78		Troubleshooting	97
	Troubleshooting	79		Before and After Comparison	98
	<i>First retraction, then internal rotation</i>	79		Differential Diagnosis	98
	<i>Taut skin</i>	80		Biomechanics	98
	Before and After Comparison	80		<i>Piriformis muscle</i>	98
	Differential Diagnosis	80	7.11	Leg, Back, and Cranial Nerve Mobility	98
	Biomechanics	80		Test	98
7.5	Finger Flexor Flexibility	81		Exercise	99
	Test	81		Troubleshooting	99
	Exercise	81		Before and After Comparison	99
	Troubleshooting	82		Differential Diagnosis	100
	Before and After Comparison	82		Biomechanics	100
	Differential Diagnosis	82		<i>Dura mater</i>	100
	Biomechanics	82	7.12	Posterior Thigh Flexibility	101
7.6	Arm Nerve Mobility	83		Test	101
	Test	83		Exercise	101
	Exercise	83		<i>Lumbar dissociation</i>	101
	<i>Caution: Nerve irritation</i>	83		Troubleshooting	102
	<i>Nerve stretch exercises</i>	85		Before and After Comparison	102
	<i>Nerve glide exercises</i>	85		Differential Diagnosis	102
	Troubleshooting	87		Biomechanics	102
	Before and After Comparison	87	7.13	Calf Flexibility	103
	<i>Distance 1 + Distance 2</i>	87		Test	103
	Differential Diagnosis	87		<i>Stabilizing the arch of the foot</i>	103
	<i>Neural versus local</i>	88		Exercise	103
	Biomechanics	89		Troubleshooting	104
	<i>Neurodynamics</i>	89		Before and After Comparison	104
7.7	Rotational Mobility	90		Differential Diagnosis	105
	Test	90		<i>Soleus</i>	105
	Exercise	90		<i>Gastrocnemius</i>	105
	Troubleshooting	91		Biomechanics	106
	Before and After Comparison	92	7.14	Inner Thigh Flexibility	106
	Differential Diagnosis	92		Test	106
	Biomechanics	92		<i>Pain-free</i>	106
	<i>Paresthesias</i>	93			

Exercise	107	7.16	Anterior Thigh Flexibility	113	
Troubleshooting	107		Test	113	
Before and After Comparison	107		Exercise	114	
Differential Diagnosis	108		Troubleshooting	114	
<i>Pubic symphysis</i>	108		Before and After Comparison	115	
Biomechanics	108		Differential Diagnosis	115	
7.15	Hip Extension Mobility	109	<i>Posterior horn of the meniscus</i>	115	
Test	109		<i>Patellofemoral joint</i>	115	
Exercise	109		Biomechanics	115	
Troubleshooting	109		<i>Caution: After cruciate ligament reconstruction</i>	116	
Before and After Comparison	109		<i>Vastus medialis</i>	116	
Differential Diagnosis	110				
<i>Iliopsoas</i>	110				
Biomechanics	110				
<i>Weak antagonists</i>	110				
<i>Awareness exercise: Lumbar relaxation</i>	112				
8	Strength	117			
<i>Caution: Blood pressure</i>	117				
8.1	Abdominal and Anterior Neck Muscle Strength	117	Before and After Comparison	119	
Test	117		Differential Diagnosis	119	
Exercise	117		Biomechanics	119	
<i>Awareness exercise: Symmetry</i>	117		<i>Vertebral alignment</i>	119	
Troubleshooting	118	8.3	Shoulder Blade and Triceps Muscle Strength	120	
Before and After Comparison	118		Test	120	
Differential Diagnosis	118		Exercise	120	
Biomechanics	118		Troubleshooting	121	
<i>Tight abdominal muscles</i>	118		Before and After Comparison	121	
8.2	Back Muscle Strength	118		Differential Diagnosis	121
Test	118		<i>Tenovaginitis and epicondylitis</i>	121	
Exercise	118		Biomechanics	121	
Troubleshooting	119		<i>Practicality</i>	122	
9	Endurance	123			
Test	123				
Exercise	123				
<i>Heart rate monitor</i>	123				
Troubleshooting	123				
<i>Caution: Shortness of breath</i>	124				
10	Alternative Tests and Exercises for Groups and When the Floor or Wall Cannot be Used	129			
<i>Original exercises</i>	129				
10.1	Alternative Tests and Exercises for Groups	130			
10.1.1	Posterior Thigh Flexibility	130	10.1.2	Hip Extension Mobility	131
Test	131		Test	132	
Exercise	131		Exercise	132	

10.2 Alternative Tests and Exercises without Lying Down	132	10.3.3 Rotational Mobility	137
10.2.1 Back Muscle Flexibility	132	Test	137
Test	132	Exercise	137
Exercise	132		
10.2.2 Shoulder Mobility	132	10.3.4 Hip Flexion Mobility	138
10.2.3 Rotational Mobility	133	Test	138
Test	133	Exercise	138
Exercise	133		
10.2.4 Posterior Thigh Flexibility	133	10.3.5 Buttock Muscle Flexibility	138
Test	133	Test	138
Exercise	133	Exercise	138
10.2.5 Anterior Thigh Flexibility	133		
Test	134	10.3.6 Leg, Back, and Cranial Nerve Mobility	139
Exercise	134	Test	139
10.2.6 Abdominal and Anterior Neck Muscle Strength	134	Exercise	139
Exercise	134		
10.3 Alternative Tests and Exercises, in the Seated Position Only	136	10.3.7 Calf Flexibility	139
10.3.1 Shoulder Mobility	136	Test	139
Test	136	Exercise	139
Exercise	136		
10.3.2 Finger Flexor Flexibility	137	10.3.8 Hip Extension Mobility	140
Test	137	Test	140
Exercise	137	Exercise	140
		<i>Caution: Runaway chair</i>	140
		10.3.9 Shoulder Blade and Triceps Muscle Strength	140
		Test	140
		Exercise	140
11 Manual Techniques	143		
<i>Autogenic mobilization</i>	143	11.4 Psoas and Iliacus	145
11.1 First Rib	143	11.4.1 Contraindications	145
11.2 Left Glenohumeral Joint	144	<i>Contraindications</i>	145
11.3 Left Pectoralis Minor	144	11.4.2 Left Psoas	145
		11.4.3 Left Iliacus	145
		11.5 Talocrural Joint	145
12 The Navigator	146		
13 Measuring + Planning + Communicating	179		
13.1 How To Measure Progress toward the Test Goal	179	13.5 Treatment Plan	189
13.1.1 Measurement in Finger Widths	180	Advantages of a Treatment Plan	189
13.1.2 Measurement in Centimeters	181	<i>Efficacy and communication</i>	189
13.2 Assessing Vertebral Alignment	184	13.6 Age and Gender-specific Fitness Curves	194
13.3 Pain Scale	186	<i>Examples</i>	194
13.4 Exercise Plan for Patients	187	13.7 Fitness Diagram	195
<i>Example of an exercise plan</i>	187	13.8 Diagnostic Efficacy	196
		<i>Treatment Efficacy</i>	196
References	197
