

# Table of contents

On the normalizability of topological fields . . . . .	1
On Galois groups of $p$ -adic fields . . . . .	4
On $p$ -extensions . . . . .	6
A general reciprocity law . . . . .	20
A new proof of the Kronecker-Weber theorem . . . . .	54
On the imbedding problem for fields . . . . .	59
On the construction of fields with a given Galois group of order $l^a$ . . . . .	62
On an existence theorem in the theory of algebraic numbers . . . . .	98
On the problem of imbedding fields . . . . .	106
Construction of fields of algebraic numbers with given solvable Galois group . . . . .	139
On birational equivalence of elliptic curves . . . . .	192
Exponents of elliptic curves . . . . .	197
Cohomology groups of nilpotent algebras (with A. I. Kostrikin) . . . . .	200
The imbedding problem for split extensions . . . . .	205
The group of algebraic principal homogeneous varieties . . . . .	208
The imbedding problem for local fields (with S. P. Demushkin) . . . . .	211
Impressions from the International Mathematical Congress in Edinburgh . . . . .	233
Principal homogeneous spaces defined over a function field . . . . .	237
The second obstruction for the imbedding problem of algebraic number fields (with S. P. Demushkin) . . . . .	267
Algebraic number fields . . . . .	283
Extensions with given ramification points . . . . .	295
On class field towers (with E. S. Golod) . . . . .	317
Algebraic surfaces (with B. G. Averbukh et al.) . . . . .	329
Preface . . . . .	329
Ruled surfaces . . . . .	333
Surfaces with a pencil of elliptic curves . . . . .	366
Galois theory of transcendental extensions and uniformization (with I. I. Piatetskij-Shapiro) . . . . .	387
Cartan pseudogroups and Lie $p$ -algebras (with A. I. Kostrikin) . . . . .	422
The rank of elliptic curves (with J. T. Tate) . . . . .	426
On some infinite-dimensional groups . . . . .	430
Irreducible representations of a simple three-dimensional Lie algebra over a field of finite characteristic (with A. N. Rudakov) . . . . .	435
Graded Lie algebras of finite characteristic (with A. I. Kostrikin) . . . . .	443
Le théorème de Torelli pour les surfaces algébriques de type K3 . . . . .	511

# Table of contents

A Torelli theorem for algebraic surfaces of type K3 (with I. I. Piatetskij-Shapiro)	516
The arithmetic of K3 surfaces (with I. I. Piatetskij-Shapiro)	558
Über einige Tendenzen in der Entwicklung der Mathematik	571
Inseparable morphisms of algebraic surfaces (with A. N. Rudakov)	577
Quasi-elliptic surfaces of type K3 (with A. N. Rudakov)	610
Vector fields on elliptic surfaces (with A. N. Rudakov)	612
Supersingular K3 surfaces over fields of characteristic 2 (with A. N. Rudakov)	614
On the degeneration of K3 surfaces over fields of finite characteristic (with A. N. Rudakov)	633
On some infinite-dimensional groups. II	647
Surfaces of type K3 over fields of finite characteristic (with A. N. Rudakov)	657
The influence of height on degenerations of algebraic surfaces of type K3 (with A. N. Rudakov and T. Zink)	715
Zum 150. Geburtstag von Alfred Clebsch	732
On the degeneration of K3 surfaces (with A. N. Rudakov)	738
Notes	751
Bibliography	761
Acknowledgements	769
