

Table of Contents

1 Introduction	1
1 General considerations	2
2 Anamnesis	3
Subjective disorders	3
2 Clinical Examination	7
1 Observation	8
Statics	8
Nonstatic observation	20
2 Palpation	22
Heel cord	22
Heel	24
Plantar fascia	24
Upper ankle joint	25
Lower ankle joint	27
Anterior calcaneal process	34
Calcaneocuboid joint	34
Fibular muscles and tendons	34
Naviculocuneiform joint	35
Second and third tarsometatarsal joints	36
Fourth and fifth TMT joints	36
First TMT joint	36
Second and third metatarsal heads	37
Fourth metatarsal head	38
Lesser intermetatarsal space	38
Metatarsophalangeal joints	39
Sesamoids of the first ray	39
Toes	39
Sensibility	40
3 Active joint mobility and functional exam	41
Active joint mobility	41
Functional exam	42
3 Radiologic Screening	45
1 Conventional radiographs	46
Hindfoot	46
Foot	48
Special incidences	53
2 Computed tomography	54
CT arthrography	54
3 Magnetic resonance imaging	55
4 Surgical Orthopedic Treatment	57
1 Functional correction of the hindfoot in the sagittal plane	59
Muscle balance	59
Upper ankle repair	62
2 Alignment of the hindfoot in the frontal plane	64

3	Alignment of the heel in the frontal plane	66
4	Static articular stabilization of the hindfoot	69
	Syndesmosis reconstruction of the upper ankle joint	69
	Ligament reconstruction of the ankle joints	70
5	Arthrodeses of the hindfoot	71
	Upper ankle fusion	71
	Subtalar fusion	73
	Tibiotalocalcaneal fusion	74
	Talonavicular fusion	76
6	Horizontal and sagittal correction of the heel and midfoot	76
	Correction of eversion	76
	Correction of inversion	81
	Correction by global fusion: triple arthrodesis	83
7	Horizontal and sagittal correction of the midfoot	84
	Correction of eversion	84
	Correction of inversion	90
8	Horizontal and sagittal correction of the metatarsus	92
	Medial and central tarsometatarsal fusion	92
	Lateral tarsometatarsal arthroplasty	94
9	Correction of the anterior heel	95
	Muscle balance	95
	First tarsometatarsal and first intermetatarsal space fusion	95
	Extension and shortening osteotomy of the central metatarsals	97
10	Correction of the metatarsophalangeal joints	99
	First ray	99
	Lesser rays	101
11	Functional reorientation of the toes	102
	Sagittal plane	102
	Horizontal plane	106
5	Surgical Fracture Treatment	109
1	Ankle fractures	110
	Malleolar fractures	111
	Pilon fractures	112
2	Talus fractures	114
	Peripheral fractures	114
	Central fractures	115
	Approaches	115
3	Calcaneus fractures	118
4	Tarsometatarsal fractures	120
	Acute fractures	120
	Malunions and nonunions	124
5	Healing of traumatized biological tissues	126
6	Operative Techniques	129
1	Skin and subcutaneous handling	132
	Instruments	132
	Skin plasty	132
2	Surgical approaches	133
	Upper ankle joint	133
	Fibula	135

	Medial utility	136
	Lateral hindfoot	137
	Lateral midfoot	137
	Medial tarsometatarsus	138
	Central tarsometatarsus	139
	Lateral tarsometatarsus	139
	Central metatarsus	140
	Fourth metatarsus	140
	Fifth metatarsus	140
	Lesser toes	141
3	Postoperative care	141
4	Bone and joint reconstruction and alignment	141
	Supramalleolar osteotomy	141
	Lateral malleolus osteotomy	143
	Upper ankle fusion	144
	Osteochondroplasty of the talus	145
	Cheilectomy of the upper ankle joint	146
	Cheilectomy of the lower ankle joint	148
	Reorientation arthrodesis of the subtalar joint	149
	Tibiotalocalcaneal arthrodesis	151
	Osteotomy of the tuber calcanei	153
	Posterior calcaneal osteotomy	154
	Arthrolysis of the talocalcaneonavicular joint	155
	Central talus osteotomy	155
	Central calcaneus osteotomy	156
	Triple arthrodesis	158
	Naviculocuneiform arthrodesis	161
	Dorsolateral tarsectomy	162
	Talometatarsal arthrodesis	163
	Fusion of the first tarsometatarsal joint and first intermetatarsal space	164
	Second and third tarsometatarsal arthrodesis	167
	Fourth and fifth tarsometatarsal arthroplasty	169
	Diaphyseal osteotomy of the first metatarsus	170
	Diaphyseal osteotomy of the second and third metatarsus	171
	Diaphyseal osteotomy of the fourth metatarsus	174
	Proximal metaphyseal osteotomy of the second, third, and fourth metatarsus	175
	Diaphyseal adduction osteotomy of the fifth metatarsus	176
	Intracapsular extension osteotomy of the first metatarsus (Watermann)	176
	Intracapsular extension osteotomy of the second and third metatarsus (Gauthier)	178
	First metatarso-sesamoid-phalangeal joint fusion	179
	Osteotomy of the first phalanx of the big toe	181
	Shortening osteotomy of the first phalanx of the lesser rays	182
	Proximal interphalangeal fusion	183
	Distal interphalangeal fusion	185
	ORIF of multipartite sesamoids	185
5	Ligamentous reconstruction of the ligaments of the ankle joints	186
	Syndesmosis	186
	Anterior fibulotalar ligament	187
	Cervical talocalcaneal ligament plasty	189
6	Tendinous balance reconstruction	190
	Heel cord lengthening	190

	Gastrocnemius fasciotomy	191
	Gastrocnemius tenotomy	191
	Suture of the heel cord	192
	Heel cord plasty	193
	Reconstruction of fibular tendons	196
	Posterior tibial tendon repair	196
	Anterior tibial tendon repair	198
	Posterior tibial tendon transfer onto the dorsum of the foot	198
	Long toe extensor transfer onto the dorsum of the foot	199
	Fibularis longus tendon transfer onto the fibularis brevis	200
	Flexor hallucis longus tendon transfer onto the fibularis brevis	201
	Flexor hallucis longus tendon transfer onto the basis of the first metatarsus	202
	Flexor hallucis longus tendon transfer onto the first phalanx	202
	First dorsal interosseus transfer onto the first phalanx of the hallux	203
	Flexor digitorum longus tendon transfer onto the first phalanx	204
	Extensor digitorum minimi transfer onto the abductor digiti quinti	205
7	Intermetatarsal Neurectomy	207
8	Stretching	208
9	Orthoses	209
