Part I General Aspects of Ultrasound-Guided Peripheral Regional Anesthesia	
1 General Principles of Ultrasound-Guided Peripheral Nerve Blocks	2
1.1 Technical Requirements	2
1.1.1 Equipment	2
1.1.2 Optimizing the Ultrasound Image.....	4
1.1.3 Structural Features in Ultrasound	5
1.2 Ultrasound-Guided Needle Approach	10
1.2.1 Ultrasound Techniques for Needle Insertion	11
1.3 Ultrasound for Continuous Block Techniques.....	19
1.3.1 Learning Ultrasound-Guided Needle Placement Techniques	20
1.3.2 How to Approach the Nerve? Intraneurally, Extraneurally?.....	22
1.3.3 Ultrasound in Any Event—What is the Available Evidence?	22
References.....	22
Part II Upper Limb	
2 General Overview	26
2.1 Anatomy	26
2.2 Important Topographical Anatomical Relations in the Region of the Brachial Plexus	29
2.3 Motor and Sensory Supply of the Upper Limb	30
3 Interscalene Techniques of Brachial Plexus Block.....	35
3.1 Anatomy	35
3.2 Meier Approach.....	37
3.2.1 Positioning	37
3.2.2 Needle Approach	40
3.2.3 Interscalene Brachial Plexus Block with Ultrasound	44
3.3 Pippa Approach.....	53
3.3.1 Posterior Approach	53
3.3.2 Interscalene Block of the Brachial Plexus Using Ultrasound (Pippa Approach).....	53
3.4 Sensory and Motor Effects	58
3.5 Indications and Contraindications	58
3.5.1 Indications	58
3.5.2 Contraindications	58
3.6 Supraclavicular Nerve Block (Cervical Plexus)	58
3.7 Complications, Side Effects, Method-Specific Problems.....	58
3.7.1 Neurological Complications after Shoulder Surgery in Interscalene Plexus Anesthesia	60
3.7.2 Side Effects Intrinsic to the Method	60
References.....	62
4 Supraclavicular and Infraclavicular Techniques of Brachial Plexus Block	63
4.1 Anatomy	63
4.2 Supraclavicular Block Techniques	64
4.2.1 Ultrasound-Guided Supraclavicular Block of the Brachial Plexus	64
4.3 Vertical Infraclavicular Block According to Kilka, Geiger, and Mehrkens	70
4.3.1 Positioning	70
4.3.2 Needle Approach	70
4.3.3 Local Anesthetics, Dosages.....	72

4.3.4	Comparison of the Vertical Infraclavicular Technique with the Axillary Technique	74	4.6	Sensory and Motor Effects	83
4.4	Raj Technique, Modified by Borgeat.....	74	4.7	Indications and Contraindications.....	83
4.4.1	Positioning.....	74	4.7.1	Indications.....	83
4.4.2	Needle Approach	75	4.7.2	Contraindications	83
4.4.3	Material.....	75	4.8	Complications, Side Effects, Method-Specific Problems	83
4.4.4	Local Anesthetics, Dosages	76	4.8.1	Horner Syndrome	83
4.5	Infraclavicular Brachial Plexus Block Using Ultrasound.....	76	4.8.2	Phrenic Nerve Paresis.....	83
4.5.1	Ultrasound Visualization of the Brachial Plexus....	78	4.8.3	Pneumothorax	83
4.5.2	Needle Approach	81		References	84
4.5.3	Catheter Placement.....	83			
5	Suprascapular Nerve Block.....				86
5.1	Anatomy.....	86	5.4.1	Indications.....	90
5.2	Meier Approach	86	5.4.2	Contraindications	90
5.2.1	Procedure.....	86	5.5	Complications, Side Effects, Method-Specific Problems	90
5.2.2	Suprascapular Nerve Block with Ultrasound.....	90		References	91
5.3	Sensory and Motor Effects	90			
5.4	Indications and Contraindications.....	90			
6	Axillary Block.....				93
6.1	Anatomy.....	93	6.6	Multistimulation Technique, “Midhumeral Approach” According to Dupré	103
6.2	Perivascular Single-Injection Technique	95	6.6.1	Positioning, Landmarks	105
6.2.1	Method	95	6.6.2	Method	105
6.2.2	Perivascular Axillary Block of the Brachial Plexus Using Ultrasound.....	98	6.6.3	Puncture Needle.....	109
6.3	Sensory and Motor Effects	100	6.7	“Classical” Axillary Block of the Brachial Plexus with Ultrasound	109
6.3.1	Local Anesthetic, Dosages	100	6.7.1	Visualization of the Brachial Plexus Using Ultrasound (in the Axilla)	109
6.4	Indications and Contraindications.....	100	6.7.2	Puncture.....	109
6.4.1	Indications.....	100	6.7.3	Catheter Placement.....	110
6.4.2	Contraindications	100		References	111
6.5	Complications, Side Effects, Method-Specific Problems	103			
7	Selective Blocks of Individual Nerves in the Upper Arm, at the Elbow, and Wrist.....				113
7.1	Radial Nerve Block (Middle of Upper Arm).....	113	7.2.1	Anatomy.....	114
7.1.1	Anatomy.....	113	7.2.2	Radial Nerve Block (Elbow).....	114
7.1.2	Method	113	7.2.3	Musculocutaneous Nerve Block (Elbow).....	115
7.1.3	Radial Nerve Block of the Upper Arm Using Ultrasound.....	114	7.2.4	Median Nerve Block (Elbow)	115
7.2	Blocks at the Elbow	114	7.2.5	Ulnar Nerve Block (Elbow)	117
			7.2.6	Individual Nerve Blocks with Ultrasound (Elbow).....	119
			7.3	Blocks at the Forearm (“Wrist Block”).....	121

7.3.1	Anatomy	121	7.3.4	Radial Nerve (Wrist)	123
7.3.2	Median Nerve Block (Wrist)	123	7.3.5	Block of Individual Nerves with Ultrasound.....	123
7.3.3	Ulnar Nerve (Wrist).....	123		References.....	131

Part III Lower Limb

8	General Overview	134			
8.1	Lumbosacral Plexus	134	8.3	Sensory Innervation of the Leg.....	138
8.1.1	Lumbar Plexus.....	135	8.3.1	Innervation of the Bones (Innervation of Periosteum)	139
8.1.2	Sacral Plexus	135		References.....	139
8.2	Historical Overview—Lower Limb	137			
9	Psoas Block	140			
9.1	Anatomical Overview	140	9.4.2	Contraindications.....	150
9.2	Technique of Psoas Block	141	9.5	Complications, Side Effects, Method-Specific Problems.....	150
9.2.1	Classical Technique (according to Chayen).....	141	9.6	Remarks on the Technique.....	153
9.2.2	Psoas Blockade with Ultrasound	145	9.7	Summary.....	156
9.3	Sensory and Motor Effects.....	150		References.....	156
9.4	Indications and Contraindications.....	150			
9.4.1	Indications	150			
10	Inguinal Paravascular Lumbar Plexus Anesthesia (Femoral Nerve Block)	158			
10.1	Anatomical Overview	158	10.4.2	Contraindications.....	169
10.2	Femoral Nerve Block	160	10.5	Complications, Side Effects, Method-Specific Problems.....	170
10.2.1	Needle Approach	160	10.5.1	Method-Specific Problems.....	170
10.2.2	Needle Approach with Ultrasound	162	10.6	Remarks on the Technique.....	170
10.3	Sensory and Motor Effects.....	169		References.....	173
10.4	Indications and Contraindications.....	169			
10.4.1	Indications	169			
11	Proximal Sciatic Nerve Block.....	175			
11.1	Anatomical Overview	175	11.2.5	Anterior Proximal Sciatic Nerve Block Using Ultrasound	185
11.1.1	Sciatic Plexus	175	11.3	Posterior Proximal Sciatic Nerve Block (in Supine Position)	188
11.1.2	Sciatic Nerve (L4–S3).....	175	11.3.1	Technique	188
11.1.3	Posterior Cutaneous Nerve of the Thigh (S1–S3) ...	175	11.3.2	Indications and Contraindications.....	188
11.1.4	Periosteal Innervation.....	176	11.3.3	Side Effects and Complications.....	188
11.2	Anterior Proximal Sciatic Nerve Block (with Patient in Supine Position)	176	11.3.4	Remarks on the Technique	192
11.2.1	Technique of Anterior Sciatic Nerve Block	176	11.3.5	Posterior Proximal Sciatic Nerve Block (in Supine Position) with Ultrasound	192
11.2.2	Indications and Contraindications (in Combination with Femoral Nerve Block)	179	11.4	Proximal Lateral Sciatic Nerve Block (with Patient in Supine Position)	193
11.2.3	Side Effects and Complications.....	182			
11.2.4	Remarks on the Technique	182			

11.4.1	Technique.....	193	11.5.5	Proximal Sciatic Nerve Block (in Lateral Position) with Ultrasound.....	205
11.4.2	Indications, Contraindications, Complications, Side effects.....	194	11.5.6	Infragluteal Block of the Sciatic Nerve in Lateral Position with Ultrasound.....	205
11.4.3	Remarks on the Technique	196			
11.5	Proximal Sciatic Nerve Block (with Patient Lying on Side)	197	11.6	Parasacral Sciatic Nerve Block (Mansour Technique)	207
			11.6.1	Technique.....	207
11.5.1	Techniques of Posterior Transgluteal Sciatic Nerve Block	197	11.6.2	Indications and Contraindications	207
11.5.2	Indications and Contraindications	199	11.6.3	Side Effects and Complications	207
11.5.3	Complications and Side Effects	202	11.6.4	Remarks on the Technique	212
11.5.4	Remarks on the Technique	202	11.6.5	Parasacral Sciatic Nerve Block with Ultrasound....	213
				References	213
12	Blocks at the Knee	214			
12.1	Anatomical Overview	214	12.3.1	Technique.....	215
12.2	Classical Popliteal Block, Posterior Approach	214	12.3.2	Indications and Contraindications	220
			12.3.3	Side Effects and Complications	220
12.2.1	Technique.....	214	12.3.4	Remarks on the Technique	222
12.2.2	Remarks on the Technique	215	12.3.5	Distal Sciatic Nerve Block Using Ultrasound	224
12.3	Distal Block of the Sciatic Nerve	215		References	231
13	Peripheral Block (Conduction Block) of Individual Nerves of the Lower Limb	233			
13.1	Lateral Cutaneous Nerve of the Thigh	233	13.4.2	Techniques.....	242
13.1.1	Anatomy.....	233	13.4.3	Indications and Contraindications	249
13.1.2	Techniques.....	234	13.4.4	Side Effects and Complications	250
13.1.3	Indications, Contraindications, Side Effects	234	13.4.5	Remarks on the Technique	251
13.1.4	Remarks on the Technique	235	13.5	Saphenous Nerve Block	253
13.1.5	Block of the Lateral Cutaneous Nerve of the Thigh Using Ultrasound.....	235	13.5.1	Anatomy.....	253
13.2	Infiltration of the Iliac Crest	237	13.5.2	Techniques.....	253
13.2.1	Indication.....	237	13.5.3	Indications and Contraindications	261
13.2.2	Procedure.....	237	13.5.4	Side Effects and Complications	261
13.3	Transversus Abdominis Plane Block (TAP Block)	239	13.5.5	Remarks on the Technique	261
13.3.1	Anatomy.....	239	13.6	Fibular Nerve Block	262
13.3.2	Landmarks	239	13.6.1	Anatomy	262
13.3.3	Indications and Contraindications	239	13.6.2	Techniques.....	263
13.3.4	Procedure.....	240	13.6.3	Indications and Contraindication	264
13.4	Obturator Nerve Block	242	13.6.4	Side Effects and Complications	265
13.4.1	Anatomy.....	242	13.6.5	Remarks on the Technique	265
				References	266
14	Peripheral Nerve Blocks at the Ankle	268			
14.1	Anatomy	268	14.2.2	Superficial Fibular Nerve Block and Sural Nerve Block	273
14.2	Saphenous Nerve, Sural Nerve, and Superficial Fibular Nerve Block	271	14.3	Deep Fibular Nerve Block	274
14.2.1	Saphenous Nerve Block	271	14.3.1	Landmarks	274

14.3.2	Procedure	274	14.6.2	Contraindications.....	276
			14.6.3	Side Effects and Complications.....	276
14.4	(Posterior) Tibial Nerve Block	275			
14.4.1	Landmarks and Position	275	14.7	Remarks on the Combination Block (Ankle Block) ..	276
14.4.2	Procedure	275	14.8	Summary	277
14.5	Ankle Block	275	14.9	Blocks at the Toes	277
14.6	Indications, Contraindications, Complications, Side Effects	276	14.9.1	Anatomy	277
14.6.1	Indications	276	14.9.2	Block Anesthesia of the Toes (Oberst Anesthesia)...	277
				References.....	278

Part IV Peripheral Regional Anesthesia in Pediatrics

15	General Overview	280			
15.1	Needle-Transducer Alignment	281		References.....	281
15.2	Ultrasound Axes	281			
16	Upper Limb	282			
16.1	Supraclavicular Block of the Brachial Plexus	282	16.2	Axillary Block of the Brachial Plexus	284
16.1.1	Anatomy	282	16.2.1	Anatomy	284
16.1.2	Sonoanatomy.....	282	16.2.2	Technique of Axillary Brachial Plexus Block.....	285
16.1.3	Technique of Supraclavicular Brachial Plexus Block.....	282	16.2.3	Indications and Contraindications.....	286
16.1.4	Indications and Contraindications.....	283	16.2.4	Complications, Side Effects, Method-Specific Problems.....	286
16.1.5	Complications, Side Effects, Method-Specific Problems.....	283	16.2.5	Remarks on the Technique	286
16.1.6	Remarks on the Technique	284		References.....	286
17	Lower Limb	287			
17.1	Femoral Nerve Block	287	17.2	Distal Sciatic Nerve Block	288
17.1.1	Anatomy	287	17.2.1	Anatomy	288
17.1.2	Sonoanatomy.....	287	17.2.2	Technique of Distal Sciatic Nerve Block.....	288
17.1.3	Technique of Femoral Nerve Block	287	17.2.3	Indications and Contraindications.....	290
17.1.4	Indications and Contraindications.....	288	17.2.4	Complications, Side Effects, Method-Specific Problems.....	290
17.1.5	Complications, Side Effects, Method-Specific Problems.....	288	17.2.5	Remarks on the Technique	290
17.1.6	Remarks on the Technique	288		References.....	290
18	Abdominal Wall	291			
18.1	Penile Root Block	291	18.2.2	Sonoanatomy.....	292
18.1.1	Anatomy	291	18.2.3	Technique of Ilioinguinal Nerve Block	292
18.1.2	Technique of Penile Root Block.....	291	18.2.4	Indications and Contraindications.....	293
18.1.3	Indications and Contraindications.....	291	18.2.5	Complications, Side Effects, Method-Specific Problems	293
18.1.4	Complications, Side Effects, Method-Specific Problems.....	292	18.2.6	Remarks on the Technique	294
18.1.5	Remarks on the Technique	292	18.3	Transversus Abdominis Plane Block	294
18.2	Ilioinguinal Nerve Block	292	18.3.1	Anatomy	294
18.2.1	Anatomy	292	18.3.2	Sonoanatomy.....	294
			18.3.3	Technique of Transversus Abdominis Plane Block ..	295
			18.3.4	Indications and Contraindications.....	296

18.3.5	Complications, Side Effects, Method-Specific Problems	296	References	297
18.3.6	Remarks on the Technique	296		

Part V General Aspects of Peripheral Nerve Blocks of the Extremities

19	Special Features of Peripheral Nerve Blocks	300		
19.1	Advantages of Peripheral Nerve Blocks	300	19.2.2	Dosages of Local Anesthetic
19.2	Problems of Peripheral Nerve Blocks	300		References
19.2.1	Incomplete Block	300		
20	Complications and General Contraindications of Peripheral Blocks	302		
20.1	Complications of Peripheral Nerve Blocks	302	20.2.1	Infections
20.1.1	Toxic Reactions Caused by the Local Anesthetic	302	20.2.2	Coagulation Disorders
20.1.2	Neurological Injuries (Neuropathy)	304	20.2.3	Pre-existing Neurological Deficits
				References
20.2	General Contraindications to Peripheral Nerve Blocks	305		
21	General Principles for Performing Peripheral Blocks	308		
21.1	Essential Components Necessary for Proper Aseptic Technique	308	21.4.1	With Nerve Stimulator
21.2	General Principles of Informed Consent, Positioning and Monitoring	308	21.4.2	With Ultrasound
21.2.1	Patient Informed Consent before Peripheral Nerve Blocks	309	21.5	Analgesedation
21.2.2	Position	309	21.5.1	For Peripheral Nerve Blocks
21.2.3	Monitoring	309	21.5.2	Concomitant Medication during Surgery under Regional Anesthesia
21.3	Technical Aids for Performing Peripheral Nerve Blocks	310	21.6	General Principles for Administration of Local Anesthetics in Peripheral Nerve Block
21.3.1	Vascular Doppler Sonography	310	21.6.1	Local Anesthetics
21.3.2	Ultrasonography	310	21.6.2	Dosage
21.3.3	Surface Thermometer	310	21.6.3	Measures to Shorten the Latency Time
21.3.4	Peripheral Nerve Stimulation	311	21.6.4	Adjuvants
21.3.5	Needles and Catheters	313		References
21.4	General Principles for Performing Regional Anesthesia	315		
22	Continuous Peripheral Nerve Blocks	321		
22.1	Advantages	321	22.3.1	Care of Peripheral Pain Catheters in a General Ward
22.2	Indications	321	22.3.2	Peripheral Nerve Catheters for Outpatient Regional Pain Management
22.2.1	Differential Indications	321	22.3.3	Complications of Peripheral Nerve Catheters for Pain Management
22.3	Local Anesthetics: Administration, Dosage	323		References
