Introduction vii
1 Acknowledgments . . . vii
2 Introduction . . . viii
3 List of frequently used symbols . . . x

1 The Frameworks 1
1.1 NPs as generalized quantifiers . . . 1
1.1.1 NPs as sets of sets . . . 3
1.1.2 Classification of determiners in the generalized quantifiers framework 5
1.1.3 Monotonicity . . . 6
1.2 Formal framework . . . 8
1.2.1 Language of plurality . . . 8
1.2.2 Maximalization of different NPs . . . 12
1.2.3 Scopal and non-scopal NPs . . . 15
1.2.3.1 Cumulativity, collectivity and distributivity . . . 16
1.2.4 Negation in LoP . . . 18
1.2.4.1 Verbal negation . . . 19
1.2.5 Quantifiers and negation . . . 21
1.3 Summary . . . 22
1.4 Appendix . . . 23
1.4.1 The Language of Events and Plurality . . . 23
1.4.2 Syntax of the Language of Events and Plurality . . . 23
1.4.3 Semantics of the Language of Events and Plurality . . . 25

2 The nature of negative noun phrases 29
2.1 Introduction . . . 29
2.2 The puzzle . . . 30
2.3 Type shifting . . . 31
2.4 Two Theories of Type Shifting between Arguments and Predicates . . . 33
2.4.1 Partee's Type Shifting Triangle . . . 33
2.4.2 The Adjectival Theory of Indefinites . . . 35
2.4.3 Partee's pragmatic restriction on type shifting . . . 36
2.5 Linking Syntax and Semantics of Type Shifting . . . 37
2.5.1 Choice functions . . . 40
2.5.2 Czech n-words . . . 41
2.6 Prediction I: predicative positions . . . 42

2.7 Prediction II: collectivity . . . 43
2.7.1 Groups . . . 44
2.7.2 Coordination of n-words . . . 48
2.7.3 Negative NPs in Czech and English and their formalization in LoP 49
2.7.3.1 English negative NPs in LoP . . . 51
2.7.3.2 Czech negative NPs in LoP . . . 53
2.8 Prediction III: intensional predicates . . . 54
2.9 Open questions . . . 56
2.10 Summary . . . 58

3 Negation and aspect **59**
3.1 Introduction . . . 59
3.2 Time and aspect . . . 60
3.2.1 Modification of time intervals . . . 62
3.2.1.1 Event time modification . . . 62
3.2.1.2 Utterance time modification . . . 62
3.2.1.3 Reference time modification . . . 62
3.2.2 Negation and time modification . . . 63
3.2.3 Downward entailing predicates . . . 65
3.3 *Dokud* and *until* . . . 72
3.4 The one *until* vs. two *until* approaches . . . 74
3.5 *Dokud* . . . 76
3.6 Proposal . . . 79
3.6.1 *Dokud* in embedded atelic sentences . . . 79
3.6.2 *Dokud* in embedded telic sentences . . . 82
3.7 *Dokud* and negative concord . . . 85
3.8 Conclusion . . . 86

4 Negation and the scope of quantifiers **88**
4.1 Data from the corpus . . . 89
4.1.1 SV linearization . . . 89
4.1.2 VS linearization . . . 92
4.2 Events and partitives . . . 93
4.3 Proposal . . . 96
4.4 Why $\neg > \forall$? . . . 96
4.4.1 *O . . . 98
4.5 $\forall > \neg$ . . . 101
4.5.1 Independent evidence for the presupposition of homogeneity . . . 104
4.6 Information structure and the scope of operators . . . 106
4.7 Summary . . . 107

5 On negative manner and degree questions **109**
5.1 The data – landscape . . . 110
5.1.1 Tenseless wh-questions . . . 110

5.1.2 VP-adverbs . . . 111
5.1.3 Negatives and other affective operators . . . 112
5.1.4 Presuppositional islands . . . 113
5.1.5 Extraposition islands . . . 113
5.1.6 Comparative islands . . . 114
5.1.7 Interim summary . . . 114
5.2 The data – zooming into negative manner and degree questions . . . 114
5.3 Intervention effects . . . 117
5.3.1 Consequences of the reduction of weak islands to the intervention effects . . . 121
5.4 Aspect and weak islands . . . 123
5.4.1 Semantics of questions . . . 124
5.4.2 Exhaustivity and negative degree and manner questions . . . 127
5.4.3 Perfective aspect as an exhaustive marker . . . 128
5.4.3.1 Non-exhaustive operator answer3 . . . 128
5.4.3.2 Telicity and exhaustivity . . . 129
5.4.3.3 Perfective aspect forces exhaustivity . . . 133
5.5 Summary . . . 136

Summary **138**

Bibliography **139**
