

Part I Nanocarriers in Penetration Enhancement

- 1 Role of Nanotechnology in Skin Delivery of Drugs. 1**
Mehtab J. Abla, Neha D. Singh, and Ajay K. Banga

Part II Lipid-Based Vesicles in Penetration Enhancement

- 2 Liposomes as Drug Delivery Systems
in Dermal and Transdermal Drug Delivery 15**
Slavica Siler-Marinkovic
- 3 Deformable (Transfersome®) Vesicles
for Improved Drug Delivery into and Through the Skin 39**
Gregor Cevc and Amla Chopra
- 4 Ethosomes: Enhanced Delivery of Drugs
to and Across the Skin 61**
Denize Ainbinder, Biana Godin, and Elka Touitou
- 5 Invasomes: Vesicles for Enhanced Skin
Delivery of Drugs 77**
Nina Dragicevic, Daya Dass Verma,
and Alfred Fahr
- 6 Penetration Enhancer-Containing Vesicles
for Cutaneous Drug Delivery 93**
Maria Manconi, Chiara Sinico, and Anna Maria Fadda
- 7 Stratum Corneum Lipid Liposomes:
Drug Delivery Systems and Skin Models. 111**
Gamal M. El Maghraby
- 8 Surface-Charged Vesicles for Penetration
Enhancement 121**
María Luisa González-Rodríguez,
María José Cózar-Bernal, Adamo Fini,
and Antonio María Rabasco

9	Ultradeformable Vesicles as Skin Drug Delivery Systems: Mechanisms of Action	137
	Gamal M. El Maghraby	

Part III Surfactant-Based Vesicles in Penetration Enhancement

10	Niosomes and Proniosomes for Enhanced Skin Delivery	147
	Rita Muzzalupo	

Part IV Lipid-Based Particulate Carriers in Penetration Enhancement

11	Nanostructured Lipid Carriers (NLC): The Second Generation of Solid Lipid Nanoparticles	161
	Rainer H. Müller, Ulrike Alexiev, Pricillia Sinambela, and Cornelia M. Keck	

Part V Polymer-Based Nanocarriers in Penetration Enhancement

12	Polymeric Nano (and Micro) Particles as Carriers for Enhanced Skin Penetration.	187
	Mona M.A. Abdel-Mottaleb and Alf Lamprecht	
13	Polymeric Nanocapsules for Topical Delivery	201
	Adriana R. Pohlmann, Cassia B. Detoni, Karina Paese, Karine Coradini, Ruy C.R. Beck, and Sílvia S. Guterres	
14	Polymeric Micelles in Dermal and Transdermal Delivery	223
	Maria Lapteva, Michael Möller, and Yogeshvar N. Kalia	
15	Core-Shell Nanotransporters for the Skin.	241
	Monika Schäfer-Korting and Eder Lilia Romero	

Part VI Microemulsions in Penetration Enhancement

16	Microemulsions	253
	Sari Pappinen and Arto Urtti	
17	Percutaneous Penetration Enhancement Potential of Microemulsion-Based Organogels	263
	Ljiljana Djekic and Marija Primorac	

Part VII Nanocrystals in Penetration Enhancement

18 Nanocrystals for Passive Dermal Penetration Enhancement 283
Rainer H. Müller, Xuezheng Zhai, Gregori B. Romero,
and Cornelia M. Keck

Part VIII Nanocarriers for Dermal/Transdermal Delivery of Peptides and Proteins

19 Vesicles for Transdermal Delivery of Peptides and Proteins 297
Heather A.E. Benson

20 Permeation Enhancement by Molecular Organization Switching (MOS): Biphasic Vesicles for the Cutaneous Delivery of Proteins 309
M. Foldvari and P. Kumar

Part IX Nanocarriers for Transcutaneous Immunization and Gene Delivery

21 Vesicular Carriers for Transcutaneous Immunization 319
Udita Agrawal, Madhu Gupta, and Suresh P. Vyas

22 Chitosan Nanoparticles in Gene Delivery 337
Julide Akbuga, Suna Ozbas-Turan, and Ceyda Ekentok

23 Gene Suppression with Chitosan Nanoparticles 353
Julide Akbuga, Suna Ozbas-Turan, and Ceyda Ekentok

Part X Safety Profile of Nanocarriers

24 Safety of Nanoparticle Skin Penetration 363
Nancy A. Monteiro-Riviere
