Preface to the 3rd Edition	XV	Contributors	XVI
1 The Ophthalmic Examination	2		
<i>Gabriele E. Lang and Gerhard K. Lang</i>			
1.1 Introduction	2	1.9 Examination of the Cornea	7
1.2 Equipment	2	1.10 Examination of the Anterior Chamber	7
1.3 History	2	1.11 Examination of the Lens	7
1.4 Visual Acuity	3	1.12 Ophthalmoscopy	7
1.5 Ocular Motility	4	1.13 Confrontation Field Testing (Examination of the Visual Field) ...	9
1.6 Binocular Alignment	4	1.14 Measurement of Intraocular Pressure	9
1.7 Examination of the Eyelids and Nasolacrimal Duct	5	1.15 Eye Drops, Ointment, and Bandages	9
1.8 Examination of the Conjunctiva	5		
2 Eyelids (Palpebrae)	12		
<i>Peter Wagner and Gerhard K. Lang</i>			
2.1 Basic Knowledge	12	2.5.5 Herpes Zoster Ophthalmicus	21
2.2 Examination Methods	13	2.5.6 Eyelid Abscess	22
2.3 Developmental Anomalies	14	2.5.7 Tick Infestation of the Eyelids	23
2.3.1 Coloboma	14	2.5.8 Louse Infestation of the Eyelids	23
2.3.2 Epicanthal Folds	14	2.5.9 Hair Follicle Mite	23
2.3.3 Blepharophimosis	14	2.6 Disorders of the Eyelid Glands	24
2.3.4 Ankyloblepharon	14	2.6.1 Hordeolum	24
2.4 Deformities	15	2.6.2 Chalazion	24
2.4.1 Ptosis Palpebrae	15	2.7 Tumors	25
2.4.2 Entropion	16	2.7.1 Benign Tumors	25
2.4.3 Ectropion	18	Ductal Cysts (Hidrocystomas)	25
2.4.4 Trichiasis	19	Xanthelasma	25
2.4.5 Blepharospasm	19	Molluscum Contagiosum	26
2.5 Disorders of the Skin and Margin of the Eyelid	19	Cutaneous Horn	26
2.5.1 Contact Eczema	19	Keratoacanthoma	26
2.5.2 Eyelid Edema	20	Hemangioma	26
2.5.3 Seborrheic Blepharitis	20	Neurofibromatosis	26
2.5.4 Herpes Simplex of the Eyelids	21	(Recklinghausen's Disease)	27
		2.7.2 Semimalignant and Malignant Tumors	28
		Basal Cell Carcinoma	28
		Squamous Cell Carcinoma	28
		Adenocarcinoma	28

3	Lacrimal System	32
	<i>Peter Wagner and Gerhard K. Lang</i>	
3.1	Basic Knowledge	32
3.2	Examination Methods	33
3.2.1	Evaluation of Tear Formation	33
3.2.2	Evaluation of Tear Drainage.....	34
3.3	Disorders of the Lower Lacrimal System	34
3.3.1	Dacryocystitis.....	34
	Acute Dacryocystitis	37
	Chronic Dacryocystitis	38
	Neonatal Dacryocystitis	39
	3.3.2 Canaliculitis	39
	3.3.3 Tumors of the Lacrimal Sac	40
3.4	Lacrimal System Dysfunction	40
3.4.1	Keratoconjunctivitis Sicca	40
3.4.2	Illacrimation.....	41
3.5	Disorders of the Lacrimal Gland	41
3.5.1	Acute Dacryoadenitis.....	41
3.5.2	Chronic Dacryoadenitis.....	42
3.5.3	Tumors of the Lacrimal Gland.....	42
4	Conjunctiva	46
	<i>Gerhard K. Lang and Gabriele E. Lang</i>	
4.1	Basic Knowledge	46
4.2	Examination Methods	47
4.3	Conjunctival Degeneration and Aging Changes	47
4.3.1	Pinguecula.....	47
4.3.2	Pterygium	47
4.3.3	Pseudopterygium	48
4.3.4	Subconjunctival Hemorrhage.....	48
4.3.5	Calcareous Infiltration.....	48
4.3.6	Conjunctival Xerosis.....	49
4.4	Conjunctivitis	49
4.4.1	General Notes on the Causes, Symptoms, and Diagnosis of Conjunctivitis	49
4.4.2	Infectious Conjunctivitis.....	54
	Bacterial Conjunctivitis.....	54
	Chlamydial Conjunctivitis.....	55
	Viral Conjunctivitis	56
	Neonatal Conjunctivitis	56
	Parasitic and Mycotic Conjunctivitis	58
4.4.3	Noninfectious Conjunctivitis	58
4.5	Tumors	61
4.5.1	Epibulbar Dermoid.....	61
4.5.2	Conjunctival Hemangioma	61
4.5.3	Epithelial Conjunctival Tumors.....	62
	Conjunctival Cysts.....	62
	Conjunctival Papilloma.....	62
	Conjunctival Carcinoma.....	62
4.5.4	Melanocytic Conjunctival Tumors.....	63
	Conjunctival Nevus	63
	Conjunctival Melanosis.....	64
	Congenital Ocular Melanosis.....	65
4.5.5	Conjunctival Lymphoma.....	65
4.5.6	Kaposi's Sarcoma.....	65
4.6	Conjunctival Deposits	66

5	Cornea	68
	<i>Gerhard K. Lang</i>	
5.1	Basic Knowledge	68
5.2	Examination Methods	69
5.2.1	Slit Lamp Examination	69
5.2.2	Dye Examination of the Cornea	70
5.2.3	Corneal Topography	70
5.2.4	Determining Corneal Sensitivity	70
5.2.5	Measuring the Density of the Corneal Epithelium	70
5.2.6	Measuring the Diameter of the Cornea	71
5.2.7	Corneal Pachymetry	72
5.2.8	Confocal Corneal Microscopy	72
5.2.9	Ocular Coherence Tomography (OCT)	72
5.3	Developmental Anomalies	72
5.3.1	Protrusion Anomalies	72
	Keratoconus	72
	Keratoglobus and Cornea Plana	74
5.3.2	Corneal Size Anomalies (Microcornea and Megalocornea)	74
5.4	Infectious Keratitis	74
5.4.1	Protective Mechanisms of the Cornea	74
5.4.2	Corneal Infections: Predisposing Factors, Pathogens, and Pathogenesis	75
5.4.3	General Notes on Diagnosing Infectious Forms of Keratitis	75
5.4.4	Bacterial Keratitis	75
5.4.5	Viral Keratitis	78
	Herpes Simplex Keratitis	78
	Herpes Zoster Keratitis	79
5.4.6	Mycotic Keratitis	79
5.4.7	Acanthamoeba Keratitis	80
5.5	Noninfectious Keratitis and Keratopathy	81
5.5.1	Superficial Punctate Keratitis	81
	Keratoconjunctivitis Sicca	82
5.5.2	Exposure Keratitis	82
5.5.3	Neuroparalytic Keratitis	83
	Primary and Recurrent Corneal Erosion	83
5.5.4	Problems with Contact Lenses	83
5.5.5	Bullous Keratopathy	84
5.6	Corneal Deposits, Degeneration, and Dystrophies	84
5.6.1	Corneal Deposits	85
	Arcus Senilis	85
	Corneal Verticillata	85
	Iron Lines	85
	Kayser–Fleischer Ring	86
5.6.2	Corneal Degeneration	86
	Calcific Band Keratopathy	86
	Peripheral Furrow Keratitis	86
5.6.3	Corneal Dystrophies	86
5.7	Corneal Surgery	88
5.7.1	Curative Corneal Procedures	88
	Penetrating Keratoplasty (PKP)	88
	Lamellar Keratoplasty (LKP)	89
	Phototherapeutic Keratectomy	89
5.7.2	Refractive Corneal Procedures	90
	Astigmatic Keratotomy (AK)	90
	Radial Keratotomy (RK)	91
	Conductive Keratoplasty (Holmium Laser Coagulation, High-Frequency Coagulation)	92
	Intacs: Intrastromal Corneal Ring Segments (ICRS) and Rod Segments	92
	Photorefractive Keratectomy (PRK)	92
	Excimer Laser Epithelial Keratomileusis (LASEK)	92
	Excimer Laser In Situ Keratomileusis (LASIK)	93
	Wavefront Correction (Aberrometry)	93
	Implanted Contact Lens (ICL)	93
	Phakic Anterior Chamber Lens	93
	Bioptic (Intraocular Lens Implantation and LASIK)	94
	Clear Lens Extraction (CLE)	94

6	Sclera	96
	<i>Gerhard K. Lang</i>	
6.1	Basic Knowledge	96
6.2	Examination Methods	96
6.3	Color Changes	96
6.4	Staphyloma and Ectasia	96
7	Lens	102
	<i>Gerhard K. Lang</i>	
7.1	Basic Knowledge	102
7.2	Examination Methods	104
7.3	Developmental Anomalies of the Lens	104
7.4	Cataract	105
7.4.1	Acquired Cataract	106
	Senile Cataract.....	106
7.4.2	Cataract in Systemic Disease	109
7.4.3	Complicated Cataracts.....	110
7.4.4	Cataract after Intraocular Surgery.....	111
7.4.5	Traumatic Cataract	111
7.4.6	Toxic Cataract.....	111
7.4.7	Congenital Cataract	112
	Hereditary Congenital Cataracts.....	112
	Cataract from Transplacental Infection in the First Trimester of Pregnancy	113
7.4.8	Treatment of Cataracts	113
	Medication	113
	Surgical Treatment	113
	Secondary Cataract.....	117
	Special Considerations in Cataract Surgery in Children	119
7.5	Lens Dislocation	120
8	Uveal Tract (Vascular Layer)	124
	<i>Gabriele E. Lang and Gerhard K. Lang</i>	
8.1	Basic Knowledge	124
8.1.1	Iris	124
8.1.2	Ciliary Body.....	125
8.1.3	Choroid.....	125
8.2	Examination Methods	125
8.3	Developmental Anomalies	126
8.3.1	Aniridia.....	126
8.3.2	Coloboma.....	126
8.4	Pigmentation Anomalies	127
8.4.1	Heterochromia.....	127
8.4.2	Albinism.....	128
8.5	Inflammation	128
8.5.1	Acute Iritis and Iridocyclitis	128
8.5.2	Chronic Iritis and Iridocyclitis	131
8.5.3	Choroiditis.....	131
8.5.4	Sympathetic Ophthalmia	132
8.6	Neovascularization in the Iris: Rubeosis Iridis	132
8.7	Tumors	134
8.7.1	Malignant Tumors (Uveal Melanoma).....	134
8.7.2	Benign Choroidal Tumors	134

9	Pupil	136		
	<i>Oskar Gareis and Gerhard K. Lang</i>			
9.1	Basic Knowledge	136		Iris Defects 141
9.2	Examination Methods	137		Following Eye Drop Application (Unilateral Administration of a Mydriatic)..... 141
9.2.1	Testing the Light Reflex.....	137		Simple Anisocoria 141
9.2.2	Evaluating the Near Reflex.....	138	9.4.3	Anisocoria with a Constricted Pupil in the Affected Eye 141
9.3	Influence of Pharmacologic Agents on the Pupil	138		Horner's Syndrome..... 141
9.4	Pupillary Motor Dysfunction	138		Following Eye Drop Application..... 141
9.4.1	Isocoria with Normal Pupil Size.....	140	9.4.4	Isocoria with Constricted Pupils 142
	Relative Afferent Pupillary Defect	140		Argyll Robertson Pupil
	Bilateral Afferent Pupillary Defect.....	140		Bilateral Pupillary Constriction due to Pharmacologic Agents
9.4.2	Anisocoria with a Dilated Pupil in the Affected Eye.....	140		Toxic Bilateral Pupillary Constriction..... 142
	Complete Oculomotor Palsy	140		Inflammatory Bilateral Pupillary Constriction..... 142
	Tonic Pupil	140	9.4.5	Isocoria with Dilated Pupils 142
				Parinaud's Syndrome
				Intoxication
				Disorders
10	Glaucoma	144		
	<i>Gerhard K. Lang</i>			
10.1	General Introductory Remarks	144	10.3.7	Examination of the Retinal Nerve Fiber Layer 152
10.2	Basic Knowledge	144	10.4	Primary Glaucoma 153
10.3	Examination Methods	145	10.4.1	Primary Open Angle Glaucoma
10.3.1	Oblique Illumination of the Anterior Chamber.....	145	10.4.2	Primary Angle Closure Glaucoma
10.3.2	Slit Lamp Examination	146	10.5	Secondary Glaucomas
10.3.3	Gonioscopy	147	10.5.1	Secondary Open Angle Glaucoma
10.3.4	Measuring Intraocular Pressure.....	147	10.5.2	Secondary Angle Closure Glaucoma.....
10.3.5	Optic Disc Ophthalmoscopy	151	10.6	Childhood Glaucomas
10.3.6	Visual Field Testing.....	152		
11	Vitreous Body	174		
	<i>Christoph W. Spraul and Gerhard K. Lang</i>			
11.1	Basic Knowledge	174	11.4	Abnormal Changes in the Vitreous Body
11.2	Examination Methods	175	11.4.1	Persistent Fetal Vasculature (Developmental Anomalies)
11.3	Aging Changes	175		Mittendorf's Dot
11.3.1	Synchysis	175		Bergmeister's Papilla.....
11.3.2	Vitreous Detachment.....	175		Persistent Hyaloid Artery
				Persistent Hyperplastic Primary Vitreous (PHPV)

11.4.2	Abnormal Opacities of the Vitreous Body.....	178	11.5	The Role of the Vitreous Body in Various Ocular Changes and after Cataract Surgery.....	182
	Asteroid Hyalosis.....	178	11.5.1	Retinal Detachment.....	182
	Synchysis Scintillans.....	178	11.5.2	Retinal Vascular Proliferation.....	182
	Vitreous Amyloidosis.....	179	11.5.3	Cataract Surgery.....	183
11.4.3	Vitreous Hemorrhage.....	179	11.6	Surgical Treatment: Vitrectomy....	183
11.4.4	Vitreitis and Endophthalmitis.....	180			
11.4.5	Vitreoretinal Dystrophies.....	182			
	Juvenile Retinoschisis.....	182			
	Wagner's Disease.....	182			
12	Retina.....	188			
	<i>Gabriele E. Lang and Gerhard K. Lang</i>				
12.1	Basic Knowledge.....	188	12.4.5	Age-Related Macular Degeneration ...	214
12.2	Examination Methods.....	191	12.4.6	Degenerative Myopia.....	217
12.2.1	Visual Acuity.....	191	12.5	Retinal Dystrophies.....	218
12.2.2	Examination of the Fundus.....	191	12.5.1	Macular Dystrophies.....	218
12.2.3	Normal and Abnormal Fundus Findings in General.....	194		Stargardt's Disease.....	218
12.2.4	Color Vision Deficiencies and Testing.....	196		Best's Vitelliform Dystrophy.....	219
12.2.5	Electrophysiologic Examination Methods.....	197	12.5.2	Retinitis Pigmentosa.....	220
12.3	Vascular Disorders.....	198	12.6	Toxic Retinopathy.....	221
12.3.1	Diabetic Retinopathy.....	198	12.7	Retinal Inflammatory Disease.....	222
12.3.2	Retinal Vein Occlusion.....	201	12.7.1	Retinal Vasculitis.....	222
12.3.3	Retinal Artery Occlusion.....	203	12.7.2	Posterior Uveitis due to Toxoplasmosis.....	223
12.3.4	Hypertensive Retinopathy and Sclerotic Changes.....	206	12.7.3	AIDS-Related Retinal Disorders.....	224
12.3.5	Coats's Disease.....	206	12.7.4	Viral Retinitis.....	224
12.3.6	Retinopathy of Prematurity.....	208	12.7.5	Retinitis in Lyme Disease.....	225
12.4	Degenerative Retinal Disorders.....	208	12.7.6	Parasitic Retinal Disorders.....	225
12.4.1	Retinal Detachment.....	208	12.8	Retinal Tumors and Hamartomas.....	226
12.4.2	Degenerative Retinoschisis.....	211	12.8.1	Retinoblastoma.....	226
12.4.3	Peripheral Retinal Degenerations.....	212	12.8.2	Astrocytoma.....	227
12.4.4	Central Serous Chorioretinopathy.....	213	12.8.3	Hemangiomas.....	228
13	Optic Nerve.....	232			
	<i>Oskar Gareis and Gerhard K. Lang</i>				
13.1	Basic Knowledge.....	232	13.2	Examination Methods.....	234
13.1.1	Intraocular Portion of the Optic Nerve: Optic Disc.....	232	13.3	Disorders That Obscure the Margin of the Optic Disc.....	234
13.1.2	Intraorbital and Intracranial Portions of the Optic Nerve.....	234			

13.3.1	Congenital Disorders that Obscure the Margin of the Optic Disc	234			
	Oblique Entry of the Optic Nerve	234			
	Tilted Disc	234			
	Pseudopapilledema	235			
	Myelinated Nerve Fibers	235			
	Bergmeister's Papilla	236			
	Optic Disc Drusen	236			
13.3.2	Acquired Disorders That Obscure the Margin of the Optic Disc	236			
	Papilledema	237			
	Optic Neuritis	239			
	Anterior Ischemic Optic Neuropathy (AION)	241			
	Infiltrative Optic Disc Edema	243			
14	Visual Pathway	248			
	<i>Oskar Gareis and Gerhard K. Lang</i>				
14.1	Basic Knowledge	248			
14.2	Examination Methods	249			
14.3	Disorders of the Visual Pathway	249			
15	Orbital Cavity	258			
	<i>Christoph W. Spraul and Gerhard K. Lang</i>				
15.1	Basic Knowledge	258			
15.2	Examination Methods	259			
15.3	Developmental Anomalies	261			
15.3.1	Craniofacial Dysplasia	261			
	Craniostenosis	261			
15.3.2	Mandibulofacial Dysplasia	262			
	Oculoauriculovertebral Dysplasia	262			
	Mandibulofacial Dysostosis	262			
	Rubinstein-Taybi Syndrome	262			
15.3.3	Meningoencephalocele	262			
15.3.4	Osteopathies	262			
15.4	Orbital Involvement in Autoimmune Disorders: Graves's Disease	262			
15.5	Orbital Inflammation	263			
15.5.1	Orbital Cellulitis	263			
15.5.2	Cavernous Sinus Syndrome	265			
15.5.3	Orbital Pseudotumor	265			
15.5.4	Myositis	266			
15.5.5	Orbital Periostitis	266			
13.4	Disorders in Which the Margin of the Optic Disc is Well Defined	243			
13.4.1	Atrophy of the Optic Nerve	243			
	Special Forms of Atrophy of the Optic Nerve	245			
13.4.2	Optic Nerve Pits	246			
13.4.3	Optic Disc Coloboma (Morning Glory Disc)	246			
13.5	Tumors	246			
13.5.1	Intraocular Optic Nerve Tumors	246			
13.5.2	Retrobulbar Optic Nerve Tumors	246			
14.3.1	Prechiasmal Lesions	251			
14.3.2	Chiasmal Lesions	251			
14.3.3	Retrochiasmal Lesions	253			
14.3.4	Ocular Migraine	254			
15.5.6	Mucocele	266			
15.5.7	Mycoses (Mucormycosis and Aspergillomycosis)	266			
15.6	Vascular Disorders	266			
15.6.1	Pulsating Exophthalmos	266			
15.6.2	Intermittent Exophthalmos	267			
15.6.3	Orbital Hematoma	267			
15.7	Tumors	267			
15.7.1	Orbital Tumors	267			
	Hemangioma	267			
	Dermoid and Epidermoid Cyst	268			
	Neurinoma and Neurofibroma	268			
	Meningioma	268			
	Histiocytosis X	268			
	Leukemic Infiltrations	268			
	Lymphoma	268			
	Rhabdomyosarcoma	268			
15.7.2	Metastases	269			
15.7.3	Optic Nerve Glioma	269			
15.7.4	Injuries	269			
15.8	Orbital Surgery	269			

16 Optics and Refractive Errors	272
<i>Christoph W. Spraul and Gerhard K. Lang</i>	
16.1 Basic Knowledge	272
16.1.1 Uncorrected and Corrected Visual Acuity	272
16.1.2 Refraction: Emmetropia and	
Ametropia	272
16.1.3 Accommodation	273
16.1.4 Adaptation to Differences in Light Intensity	275
16.2 Examination Methods	275
16.2.1 Refraction Testing	275
16.2.2 Testing the Potential Resolving	
Power of the Retina in the Presence	
of Opacified Ocular Media	277
16.3 Refractive Anomalies	277
16.3.1 Myopia (Shortsightedness)	277
16.3.2 Hyperopia (Farsightedness).....	280
16.3.3 Astigmatism	282
16.3.4 Anisometropia	284
16.4 Impaired Accommodation	285
16.4.1 Accommodation Spasm	285
16.4.2 Accommodation Palsy	286
16.5 Correction of Refractive Errors	286
16.5.1 Eyeglass Lenses	286
Monofocal Lenses	286
Multifocal Lenses	287
Special Lenses	288
Subjective Refraction Testing for Eyeglasses	288
16.5.2 Contact Lenses	289
Advantages and Characteristics of Contact	
Lenses	289
Disadvantages of Contact Lenses	291
16.5.3 Prisms	291
16.5.4 Magnifying Vision Aids	291
16.6 Aberrations of Lenses and	
Eyeglasses	292
16.6.1 Chromatic Aberration (Dispersion) ...	292
16.6.2 Spherical Aberration	292
16.6.3 Astigmatic Aberration.....	292
16.6.4 Distortion.....	293
17 Ocular Motility and Strabismus	296
<i>Joachim Esser, Doris Recker, and Gerhard K. Lang</i>	
17.1 Basic Knowledge	296
17.2 Concomitant Strabismus	300
17.2.1 Forms of Concomitant Strabismus	302
Esotropia	302
Accommodative Esotropia	303
Exotropia	304
Vertical Deviations (Hypertropia and	
Hypotropia)	304
17.2.2 Diagnosis of Concomitant	
Strabismus.....	305
Evaluating Ocular Alignment with a	
Focused Light.....	305
Diagnosis of Unilateral and Alternating	
Strabismus (Unilateral Cover Test)	305
Measuring the Angle of Deviation	
(Prism Cover test)	305
Determining the Type of Fixation	306
Testing Binocular Vision	306
Diagnosis of Infantile Strabismic Amblyopia	
(Preferential Looking Test)	306
17.2.3 Treatment of Concomitant	
Strabismus.....	306
Eyeglass Prescription.....	306
Treatment and Avoidance of Strabismic	
Amblyopia	307
Surgery.....	307
17.3 Heterophoria	308
17.4 Pseudostrabismus	309
17.5 Ophthalmoplegia and Paralytic	
Strabismus	309
17.5.1 Etiology and Forms of Ocular	
Motility Disorders.....	310
17.5.2 Forms of Eye Movement Disorders	310

17.5.3	Symptoms of Ocular Motility Disorders	310	17.5.6	Differential Diagnosis	315
17.5.4	Ocular Muscle Paralysis Caused by Cranial Nerve Damage	313	17.5.7	Treatment of Ophthalmoplegia and Myogenic Motility Disorders	315
17.5.5	Diagnosis of Ocular Motility Disorders	314	17.6	Nystagmus	316
18	Ocular Trauma	318			
	<i>Gerhard K. Lang</i>				
18.1	General Introductory Remarks	318	18.4.7	Blow-Out Fracture	325
18.2	Examination Methods	318	18.4.8	Open-Globe Injuries	326
18.3	Classification of Ocular Injuries by Mechanism of Injury	318	18.4.9	Impalement Injuries in the Orbit	327
18.4	Mechanical Injuries	319	18.5	Chemical Injuries	328
18.4.1	Eyelid Injury	319	18.6	Injuries Due to Physical Agents	331
18.4.2	Injuries to the Lacrimal System	319	18.6.1	Ultraviolet Keratoconjunctivitis	331
18.4.3	Conjunctival Laceration	320	18.6.2	Burns	331
18.4.4	Corneal and Conjunctival Foreign Bodies	321	18.6.3	Radiation Injuries (Ionizing Radiation)	332
18.4.5	Corneal Erosion	322	18.7	Indirect Ocular Trauma	332
18.4.6	Blunt Ocular Trauma (Ocular Contusion)	325	18.7.1	Purtscher's Retinopathy	332
18.7.2	High-Altitude Retinopathy	332			
19	Cardinal Symptoms	336			
	<i>Stefan Lang and Gerhard K. Lang</i>
