<b>I Basic principles</b>	<b>1</b>
1 The aircraft cabin	3
1.1 Cabin pressurization	3
1.2 Humidity	9
1.3 Temperature	9
1.4 Extraterrestrial radiation	10
1.5 Special exposures	11
1.6 Space and mobility	12
2 Turbulence and vibration	13
3 Risk of onboard injury	15
4 Onboard medical equipment	17
4.1 Emergency medical kits	18
4.2 Semi-automated external defibrillator (AED)	28
4.3 Oxygen	31
4.4 Satellite telephone – Medical hotline	33
5 Patient transport by commercial aircraft	35
6 Intensive Care Transport	39
7 Regulations regarding the transportation of ill passengers	41
7.1 Legal requirements	41
7.2 General guidelines for medical clearance of ill passengers	42
7.3 Medical clearance – General rules of Lufthansa	42
8 Legal aspects of medical assistance on board commercial aircraft	45
8.1 Decision-making authority on board	45
8.2 Failure to render assistance on board also punishable by law	47
8.3 Liability insurance coverage for the provision of first aid on board	48
8.4 Liability of medical volunteers under criminal law	49
8.5 Honorarium for doctors	50
8.6 Transmission of infectious diseases through aircraft	51
8.7 The (growing) role of doctors in aviation litigation	53
8.8 The so-called “economy class syndrome”	55

<b>II Preflight advice</b>	<b>57</b>
1 Medications, checklists, travel medicine	59
1.1 Preflight checklists	60
1.2 Personal travel medications	62
2 Time zone changes	65
3 Problems of adjustment to pressure changes (barotrauma)	71
3.1 Ear, nose and throat	72
3.2 The lungs	75
3.3 Gastrointestinal tract	75
4 Traveller's thrombosis	77
5 Medical conditions and flight fitness	79
5.1 Eye disorders	80
5.2 Blood disorders	82
5.3 Ear, nose and throat disorders	84
5.4 Heart and circulatory disorders	86
5.5 Infectious diseases	91
5.6 Lung diseases	95
5.7 Gastrointestinal disorders	99
5.8 Neurological disorders	100
5.9 Psychiatric disorders	101
5.10 Kidney disorders	102
5.11 Metabolic disorders	103
5.12 Surgeries	107
5.13 Dental disorders	110
6 Pregnancy and flight fitness	113
7 Travelling with children (medical advice)	115
8 Travelling with toddlers (legal regulations)	117
9 Disabled passengers	119
9.1 The MEDIF/MEDA forms	120
9.2 The Frequent Traveller's Medical Card	125
9.3 Disabled passengers and passengers with reduced mobility	127

<b>III Treatment of medical emergencies on board</b>	<b>131</b>
1 Medical diversions	133
2 General considerations regarding medical emergencies	137
2.1 Assistance from flight attendants	137
2.2 Decision-making for cardiopulmonary resuscitation	138
2.3 Diagnostic and therapeutic options	138
2.4 Space limitations	139
2.5 Illumination	139
2.6 Noise	139
3 Motion sickness	141
4 Fear of flying	145
5 Cardiovascular emergencies on board	149
5.1 Circulatory collapse and unconsciousness	149
5.2 Tachycardia	152
5.3 Hypertensive emergencies	155
5.4 ACS, angina pectoris and myocardial infarction	156
5.5 Pulmonary embolism	158
5.6 Complications of pacemakers and ICDs	160
6 Pulmonary problems	161
6.1 Bronchial asthma and asthma attacks	162
6.2 Non-specific breathing problems	165
6.3 Hyperventilation	165
6.4 Pneumothorax	166
7 Unconsciousness/seizures on board	169
7.1 Stroke/Transient ischaemic attack (TIA)	170
7.2 Hypoglycaemia	171
7.3 Seizures	171
8 Intoxication from alcohol, medications or drugs	173
9 Food poisoning	175
10 Choking from foreign body aspiration on board (adults)	177
11 Colics	179
11.1 Biliary colic	179
11.2 Renal and urinary colic	181

## Contents

12 Injuries and burns	183
12.1 Scalding and burns	183
12.2 Injuries	184
13 Problems and emergencies with children	187
13.1 Ear, nose, and throat infections in children	187
13.2 Fever and febrile seizures in children	188
13.3 Abdominal pain in children	189
13.4 Choking fits (children)	190
 <b>IV Cardiopulmonary resuscitation on board</b>	 <b>193</b>
1 Cardiopulmonary resuscitation (CPR) on board commercial aircrafts	195
2 Resuscitation procedures in general	197
3 Resuscitation on board – Adults	199
4 Resuscitation on board – specific considerations for infants and children	203
 <b>V Service/Appendix</b>	 <b>209</b>
1 Documentation of medical emergencies on board	211
2 Doctor-On-Board programme	213
3 Lufthansa Medical Operation Center – worldwide unique	215
4 Recommended literature	217
 Index	 219
