Chapter 1	History of the Treatment of Scoliosis	1
	<i>Robert A. Dickson</i>	
Chapter 2	Basic Principles of Scoliosis Treatment	17
	<i>Robert A. Dickson</i>	
Chapter 3	Pathogenesis of Idiopathic Scoliosis	28
	<i>Robert A. Dickson</i>	
Chapter 4	Epidemiology of Idiopathic Scoliosis	51
	<i>Robert A. Dickson</i>	
Chapter 5	Clinical and Radiographic Evaluation of the Scoliotic Patient	60
	<i>Alvin H. Crawford, Alan E. Oestreich, Linda P. D'Andrea, Joshua E. Heller, and Patrick Cahill</i>	
Chapter 6	The Importance of the Sagittal Plane: Spinopelvic Considerations	81
	<i>Frank Schwab, Virginie Lafage, Ashish Patel, and Michael F. O'Brien</i>	
Chapter 7	The Case for Bracing	88
	<i>Suken A. Shah</i>	
Chapter 8	The Case Against Bracing	94
	<i>Robert A. Dickson</i>	
Chapter 9	Classification of Adolescent Idiopathic Scoliosis for Surgical Intervention	101
	<i>David H. Clements, Joshua M. Pahys, and Patrick Cahill</i>	
Chapter 10	Biomechanics and Reduction of Scoliosis	108
	<i>Thomas R. Haheer, Jahangir Asghar, Loren Latta, and Patrick Cahill</i>	
Chapter 11	Anesthesia for Scoliosis Surgery	123
	<i>Elizabeth Demers Lavelle, Mohamed Mahmoud, See Wan Tham, Mark Vadney, and Sara Lozano</i>	

Chapter 12	Selective versus Nonselective Surgery for Adolescent Idiopathic Scoliosis	136
	<i>Daniel J. Sucato</i>	
Chapter 13	Selection of Fusion Levels	150
	<i>Daniel S. Mulconrey and Lawrence G. Lenke</i>	
Chapter 14	Posterior Correction Techniques in Late-onset Scoliosis	165
	<i>Suken A. Shah</i>	
Chapter 15	The Use of Traction in Treating Large Scoliotic Curves in Idiopathic Scoliosis	179
	<i>Paul D. Sponseller and Ryan Takenaga</i>	
Chapter 16	The Treatment of Rigid Adolescent Idiopathic Scoliosis: Releases, Osteotomies, and Apical Vertebral Column Resection	188
	<i>Lynn Letko, Rubens G. Jensen, and Jürgen Harms</i>	
Chapter 17	Surgical Treatment of the Right Thoracic Curve Pattern	200
	<i>Peter O. Newton and Vidyadhar V. Upasani</i>	
Chapter 18	Diagnosis, Treatment, and Outcomes of Treatment of the Double Thoracic Curve Pattern in Adolescent Idiopathic Scoliosis	224
	<i>Shay Bess, Frances Faro, and Thomas G. Lowe</i>	
Chapter 19	The Surgical Treatment of Lumbar and Thoracolumbar Curve Patterns (Lenke Type 5): Anterior versus Posterior Approach	233
	<i>Harry L. Shufflebarger, James T. Guille, and Burt Yaszay</i>	
Chapter 20	The Surgical Treatment of Double and Triple Curves (Lenke Types 3, 4, and 6)	249
	<i>Burt Yaszay, William F. Lavelle, and Baron S. Lonner</i>	
Chapter 21	Outcomes of Treatment of Adolescent Idiopathic Scoliosis	262
	<i>Michelle C. Marks, Tracey Bastrom, William F. Lavelle, and Peter O. Newton</i>	
Chapter 22	Complications in Surgery for Spinal Deformity	284
	<i>HoSun Hwang, Angel Macagno, Munish C. Gupta, and Michael F. O'Brien</i>	
Chapter 23	Spinopelvic Fixation in Idiopathic Scoliosis	323
	<i>Mark F. Abel, Michael F. O'Brien, and Burt Yaszay</i>	
Chapter 24	Untreated Late-onset Idiopathic Scoliosis and Revision Surgery in Adults	339
	<i>Charles A. Sansur, Rod J. Oskouian Jr, Michael F. O'Brien, and Christopher I. Shaffrey</i>	
Chapter 25	Osteobiological Agents for Spinal Fusion	352
	<i>Safdar N. Khan, William F. Lavelle, and Munish C. Gupta</i>	
Chapter 26	Electrophysiological Monitoring	372
	<i>Joshua D. Auerbach, Amer F. Samdani, and John P. Dormans</i>	
Chapter 27	Correction Without Fusion	392
	<i>Randal R. Betz, William F. Lavelle, and Peter O. Newton</i>	
Chapter 28	The Impact of Genetics Research on Adolescent Idiopathic Scoliosis	408
	<i>John T. Braun, William F. Lavelle, and James W. Ogilvie</i>
