Hybrid RANS-LES Modelling: How to Proceed? The Round Table Forum Discussion	1
<i>Minuted and compiled by C. Mockett</i>	

Invited Keynote Papers

Reflections on RANS Modelling	7
<i>P. Spalart</i>	

Flow Modelling in Aircraft Design – An Engineering Perspective	25
<i>M. Sillén, E. Amundsson, S. Arvidson, I. Persson, M. Sätterskog</i>	

Investigation of Practical Flow Control Methodologies with RANS/LES Hybrid Methods	41
<i>S. Fu, Z.X. Xiao, J.B. Huang, Y.F. Zhang</i>	

Advanced DES Methods and Their Application to Aeroacoustics	59
<i>U. Michel, D. Eschricht, B. Greschner, T. Knacke, C. Mockett, F. Thiele</i>	

DES Modelling Approach and Its Variants

Detached-Eddy Simulation of Supersonic Separated Flows ...	77
<i>V. Togiti, M. Breuer, J. Longo</i>	

Evaluation of Time Sample and Span Size Effects in DES of Nominally 2D Airfoils beyond Stall	87
<i>A. Garbaruk, S. Leicher, C. Mockett, P. Spalart, M. Strelets, F. Thiele</i>	

Initial RANS and DDES of a Rudimentary Landing Gear ...	101
<i>P. Spalart, M. Shur, M. Strelets, A. Travin</i>	
Detached Eddy Simulation of Turbulent Flow in a Highly Offset Intake Diffuser	111
<i>M. Chevalier, S.-H. Peng</i>	
DES for UCAV Weapon Bay Flow	123
<i>S.J. Lawson, G.N. Barakos</i>	
Control of the Unsteady Flow Inside the SOFIA Telescope Cavity by Means of a Porous Fence	137
<i>S. Schmid, Th. Lutz, E. Krämer</i>	
Zonal-Detached Eddy Simulation of a Civil Aircraft Engine Jet Configuration	147
<i>V. Brunet, S. Deck</i>	
Assessment of DES on the Flow after a Snow-Flake Orifice	157
<i>H.W. Zheng, F.C.G.A. Nicolleau, N. Qin</i>	
Detached-Eddy Simulations Applied to Unsteady Crosswind Aerodynamics of Ground Vehicles	167
<i>T. Favre, B. Diedrichs, G. Efraimsson</i>	
Destabilizing Free Shear Layers in X-LES Using a Stochastic Subgrid-Scale Model	179
<i>J.C. Kok, H. van der Ven</i>	
Prediction of Transonic Buffet around a Wing with Flap.....	191
<i>G. Barbut, M. Braza, Y. Hoarau, G. Barakos, A. Sévrain, J.B. Vos</i>	
 Non-DES Type Hybrid RANS-LES Modelling Approaches	
RANS/LES Simulation of a Separated Flow in a 3D Curved Duct	205
<i>I. Mary</i>	
A New Partially Integrated Transport Modelling (PITM) Method for Continuous Hybrid Non-zonal RANS/LES Simulations	213
<i>B. Chaouat</i>	
A Hybrid RANS-LES Model Based on Temporal Filtering	225
<i>A. Fadai-Ghotbi, C. Friess, R. Manceau, T.B. Gatski, J. Borée</i>	

Scale-Adaptive Simulation with Artificial Forcing	235
<i>F.R. Menter, A. Garbaruk, P. Smirnov, D. Cokljat, F. Mathey</i>	

RDDES for Strong Shock-Wave/Boundary Layer Interaction	247
<i>A. Shams, P. Comte</i>	

Hybrid RANS/LES of Plane Impinging Jets with $k-\omega$ Based Models	261
<i>S. Kubacki, E. Dick</i>	

LES Modelling Approaches

Large Eddy Simulations: Wall Functions with Forcing Given by Backscatter from a Scale-Similarity Model	271
<i>L. Davidson</i>	

LES of the Non-isothermal Flow in Rotating Cavity	283
<i>E. Tuluszka-Sznitko, A. Zielinski, W. Majchrowski</i>	

Comparison of Different Modelling Approaches

Turbulence Modelling for Supersonic Separated Flows	293
<i>A. Shams, P. Comte</i>	

Evaluation of Hybrid RANS-LES Models in Ventilated Enclosures	305
<i>F. Brännström, D. Müller</i>	

Experimental and Numerical Investigation of Transonic Bump Flow	315
<i>J.-C. Huang, G. Barakos, E. Benard, G. Barbut, Y. Hoarau, M. Braza, P. Derian</i>	

Comparison of Hybrid RANS-LES Calculations within the Framework of Compressible and Incompressible Unstructured Solvers	329
<i>K.A. Weinman, M. Valentino</i>	

EU Projects in relation to hybrid RANS-LES Approaches

Description of Test Section and Measurement in a Nozzle for Shock Upstream Mach Number $M=1.45$	339
<i>P. Doerffer</i>	

UFAST Project – Unsteady Effects in Shock Wave Induced Separation	345
<i>P. Doerffer</i>	

From FLOMANIA via DESider to ATAAC	349
<i>W. Haase, D. Schwamborn</i>	

Short Communications

Scrutinizing a Seamless Hybrid LES/RANS Approach for Turbomachinery Applications	353
<i>D. Borello, G. Delibra, K. Hanjalic, F. Rispoli</i>	

Turbulent Flow Modeling via Galerkin Method and Finite Time Thermodynamics	357
<i>M. Morzyński, B.R. Noack, M. Schlegel, G. Tadmor</i>	

Author Index	359
