

Table of contents

I	Introduction	1	4.2.1	Plants	39
1	Homeopathy in intensive care and emergency medicine . . .	3	4.2.2	Fungi and lichens	39
1.1	Using homeopathy in a clinical setting	3	4.2.3	Minerals and metals	39
1.2	Principles of classical homeopathy.	5	4.2.4	Animal kingdom	39
2	Intensive medicine: development and current status	17	4.2.5	Products of disease, nosodes . . .	41
3	Aspects of adjuvant homeopathic treatment in intensive medicine	27	4.3	Quality criteria	42
3.1	General	27	4.4	Potentisation	43
3.2	Anamnesis	28	4.4.1	Source materials	43
3.3	Information	28	4.4.2	Potentisation: dilution and succussion	43
3.4	Administering remedies/choice of potency/repeat administration . .	28	4.4.3	Types of potency	45
3.5	Assessment/changing remedies/follow-up.	29	4.4.4	Triturations	48
3.6	Indications/contraindications . .	29	4.4.5	Labelling	49
3.7	Combining conventional and homeopathic medications and viewpoints.	30	4.4.6	Prescription	50
3.8	Continuing homeopathic treatment after periods in ICU.	31	4.4.7	Shelf-life of homeopathic remedies	51
3.9	End-of-life care	31	4.4.8	Drug legislation	51
3.10	Effects on the climate in ICU wards	32	4.4.9	Taking potentised remedies	53
3.11	Suggestion and placebo effects . .	32	4.4.10	Methods of administration	53
3.12	Summary and studies.	32	4.5	Homeopathic Pharmacopoeia . . .	53
4	Remedy production and quality	37	4.6	ICU remedy kit	55
4.1	Pharmaceutical aspects of homeopathy in intensive care medicine	37	II	Intensive care medicine	85
4.2	Source materials used in potentised homeopathic remedies.	38	1	Infectious diseases	87
			1.1	Sepsis	87
			1.2	Serious local infections	111
			1.2.1	Ludwig's angina (Quinsy)	112
			1.2.2	Hip joint abscess	116
			1.2.3	Cricoid perichondritis	118
			2	Disorders of Haemostasis . . .	121
			2.1	Thrombotic thrombocytopenic purpura (TTP).	122
			2.2	Bleeding after therapeutic puncture wound	126
			2.3	Pulmonary embolism	128
			3	Heart, circulation and blood vessels	133
			3.1	Angina pectoris	134
			3.2	Myocardial infarction.	138
			3.3	Aortic dissection	142

Table of contents

3.4	Cardiomyopathy, heart transplant	146	10	Cardiovascular emergencies	253
3.4.1	Cardiomyopathy	146	10.1	Cardiac arrhythmias	253
3.4.2	Heart transplant	152	10.2	Hypertensive crisis	259
3.5	Pulmonary oedema	154	10.3	Pulmonary embolism	264
4	Lungs	167	10.4	Acute venous occlusion	271
4.1	Lung diseases	167	10.5	Angina pectoris and myocardial infarction	276
4.1.1	Acute Respiratory Distress Syndrome (ARDS)	168	10.6	Cardiac arrest (resuscitation) . . .	285
4.1.2	Pneumonia	175	11	Lungs	293
4.2	Withdrawal from respirator and extubation	179	11.1	Asthma bronchiale	293
4.2.1	Withdrawal from respiration devices (weaning)	179	11.2	Pulmonary oedema	304
4.2.2	Extubation	185	11.3	Hyperventilation syndrome (tetany)	309
5	Kidneys	189	12	Gastroenterological emergencies	315
5.1	Homeopathy in cases of kidney disease	189	12.1	Acute abdomen	315
5.2	Acute renal failure (ARF)	190	12.2	Homeopathic treatment	318
6	Gastrointestinal tract	195	13	Intoxication	347
6.1	Homeopathy for diseases of the gastrointestinal tract	195	13.1	Drugs	347
6.2	Acute abdomen	196	13.2	Intoxication from medication . . .	352
7	Perioperative care	199	13.3	Poisoning with industrial and household substances	361
7.1	Intraoperative blood loss	200	14	Neurological emergencies . . .	381
7.2	Postoperative transitory psychotic syndrome	204	14.1	Apoplexy and intracranial bleeding	381
8	Toxicology	213	14.2	Epilepsy	401
8.1	Homeopathy in case of poisoning	213	14.3	Meningitis and encephalitis . . .	408
8.2	Death cap mushroom poisoning	214	14.4	Disc prolapse	413
III	Emergency medicine	219	15	Psychiatric emergencies . . .	417
9	Traumatology	221	15.1	Delirium	418
9.1	Trauma to the extremities	229	15.2	Agitation	420
9.2	Spinal trauma	237	15.3	Acute psychosis	424
9.3	Thoracic trauma	242	16	Gynaecology and obstetrics	431
9.4	Craniocerebral trauma (CCT)	244	16.1	Genital bleeding outside pregnancy	431
9.5	Abdominal trauma	249	16.2	Emergencies during pregnancy . .	436

16.3	Birth and birth complications . .	445
16.3.1	Normal birth	445
16.3.2	Birth complications.	445
17	Urological emergencies. . . .	457
17.1	Acute urinary retention	457
17.2	Renal and ureteral colic	461
17.3	Urosepsis (UTI)	465
17.4	Injuries to the urogenital tract . .	471
18	Thermal emergencies	477
18.1	Hypothermia and frostbite	477
18.2	Burns and scalds.	484
18.3	Heat damage	490
IV	Materia medica	497
19	Materia medica	499
19.1	Introduction	499
19.2	Materia medica.	500
	Index of remedies.	525
	Index	529
