Abbreviations, symbols and units	xi
Abstract	xvi
Zusammenfassung	xix
1 Current challenges of biogas production and the role of biogas microgrids .	1
2 Research gap and research objectives	7
2.1 Literature review	7
2.2 Research gap	9
2.3 Research objectives	10
3 Tool for techno-economical assessment of biogas microgrid concepts	13
3.1 Structure and system boundaries of the tool	13
3.2 Operation of the tool	20
3.2.1 Grid design	20
3.2.2 MODULE 1: Grid dimensioning, pressure drop and storage capacity	26
3.2.2.1 Grid dimensioning	29
3.2.2.2 Pressure drop	30
3.2.2.3 Storage capacity	34
3.2.3 MODULE 2: Calculation of primary energy demand	37
3.2.3.1 Biomass transport and biogas production	37
3.2.3.2 Desulphurization	40
3.2.3.3 Drying	42
3.2.3.4 Measurement of gas quality and quantity	45

3.2.3.5	Compression.....	45
3.2.3.6	CHP and biogas upgrading.....	48
3.2.4	MODULE 3: Calculation of costs.....	52
3.2.4.1	Cost functions for calculation of fixed- and variable costs	53
3.2.4.2	Annuity method.....	58
3.3	Validation of the tool	61
3.3.1	Grid dimensioning.....	63
3.3.2	Energy demand.....	67
4	Potentials of biogas microgrids for decentralized biogas production.....	71
4.1	Biogas storage.....	72
4.1.1	Technical storage capacity.....	73
4.1.2	Storage costs	79
4.1.3	Impact of biogas storage on revenues from flexible electricity production.....	87
4.2	Biogas transport.....	93
4.2.1	Energy demand.....	97
4.2.2	Transport costs	99
4.2.3	Impact of biogas transport on bio-methane production costs	103
4.3	Conclusions	109
5	Summary and future research.....	111
