

Contents

1 Preliminary Results	1
1.1 The Main Results from Multivalued Mapping Theory	2
1.2 Classes of Multivalued Maps	29
1.3 Subdifferentials in Infinite-Dimensional Spaces	95
1.4 Minimax Inequalities in Finite-Dimensional Spaces	125
References	136
2 Operator Inclusions and Variation Inequalities in Infinite-Dimensional Spaces	139
2.1 Strong Solutions for Parameterized Operator Inclusions.....	139
2.2 Parameterized Operator Inequalities	145
2.3 Variation Inequalities in Banach and Frechet Spaces	158
2.4 The Penalty Method for Multivariation Inequalities	162
2.5 Nonlinear Operators Equations of the Hammerstein Type. System of Operators Equations.....	190
2.6 Nonlinear Non-coercive Operator Equations and Their Normalization	201
2.7 Some Example Connected with Membranes Theory	238
References	242
Index	245
