1	Introduction	13
2	Preliminaries	19
2.1	Type Theory	19
2.1.1	Meaning	20
2.1.2	Syntactic Structure	21
2.1.3	Functional Application	22
2.1.4	Sets and Their Characteristic Functions	22
2.1.5	The Leading Principles of Type Theory	23
2.2	Loaded Sentences and Innocent Counterparts	39
2.2.1	Loaded Sentences	39
2.2.2	Innocent Counterparts	41
2.3	Sentences and Utterances of Sentences	42
I	Pragmatics	45
3	Introduction	47
4	Fictionalism	51
4.1	Preliminaries	52
4.1.1	Terminological Clarifications	52
4.1.2	Qualifying Fictionalism	53
4.1.3	The Fiction Operator	55
4.2	The Tricky Question	57
4.3	Conditional Analyses	58
4.3.1	Strict Conditional	58
4.3.2	Counterfactual	60
4.4	Application to Fictionalism	62
4.5	The Problem: An Impossible Fiction	64
4.6	Is Triviality Implausible?	66
4.6.1	An Argument for Triviality	66
4.6.2	Counterpossibles in Arguments	67
4.6.3	Counterpossibles and Intuitions	69
4.7	Rejecting Triviality	72
4.7.1	The Need For A Modification	73
4.7.2	Modifying the Standard Semantics	74
4.7.3	No Liberation of A Dubious Ontology	76

4.8	Explicit Part	79
4.9	Conclusion	80
5	Indifferentialism	83
5.1	Presuppositions	84
5.2	An Intuitive Contrast	86
5.3	Yablo's Account	88
5.3.1	Asserted Content	89
5.3.2	Application to the Contrast	91
5.3.3	Consequences for Number Sentences	92
5.4	Rebuttal of Yablo's Account	94
5.4.1	No Sufficient Condition	95
5.4.2	No Necessary Condition	97
5.4.3	Application to Number Sentences	99
5.4.4	Taking Stock	101
5.5	Von Fintel's Account	101
5.5.1	Belief Revision à la Lasersohn	102
5.5.2	Belief Revision à la von Fintel	105
5.5.3	Taking Stock	107
5.6	A Different Account	108
5.6.1	Topic and Comment	109
5.6.2	Explanation of the Data	111
5.6.3	Different Interpretations	113
5.6.4	Type Shifting	115
5.6.5	Some Clarifications Regarding Type Shifting	117
5.6.6	Counterexamples?	119
5.6.7	Taking Stock	121
5.7	Conclusion	121
6	Conclusion	123
II	Semantics	125
7	Introduction	127
8	Focus Constructions	129
8.1	Hofweber's Account	131
8.1.1	Some Evidence Against the Standard Analysis	131
8.1.2	The Argument Against the Standard Analysis	133
8.1.3	An Alternative Analysis	137
8.1.4	Resolving the Puzzles	138
8.2	Rebuttal of Hofweber's Account	139
8.2.1	The Argument Against the Standard Analysis	139
8.2.2	Hofweber's Alternative Analysis	142
8.2.3	Further Difficulties	144
8.2.4	The Puzzles Again	145

8.3 Conclusion	147
9 Question-Answer Pairs	149
9.1 Against the Standard Analysis	150
9.1.1 For Specification	150
9.1.2 Against Identity	155
9.2 Disguised Question-Answer Pairs	157
9.2.1 Neither Identity nor Predication	157
9.2.2 Explaining the Characteristics	161
9.2.3 Further Evidence	163
9.2.4 An Objection Against QID	163
9.3 Applying QID	165
9.3.1 Resolving the Puzzles	165
9.3.2 A Different QID Analysis	168
9.3.3 Avoiding Hofweber's Difficulties	172
9.4 Conclusion	174
10 Conclusion	175
Bibliography	179
Index	185
