Deutsche Zusammenfassung	7
1 Introduction	9
2 Theory of the Stokes Equations in Spaces of Bounded Functions and Admissible Domains	13
3 The Stationary Stokes Equations in Layer Domains on Spaces of Bounded and Integrable Functions	17
3.1 The Representation Formulae	17
3.2 The Resolvent Problem with $ \lambda > 0$	21
3.3 The Stationary Stokes Problem in Two-Dimensional Layer Domains	24
3.4 The Stationary Stokes Problem in Higher Dimensional Layer Domains	36
4 Bounds on the Stokes Semigroup in Exterior Domains on Spaces of Bounded Functions	43
4.1 Pointwise Upper Bounds for Smooth Data	45
4.2 Pointwise Upper Bounds and Long Time Behaviour	65
5 Spaces of Bounded Mean Oscillation	69
5.1 BMO_b -Spaces	69
5.2 Jones' Extension Theorem and Uniform Domains	73
5.3 Equivalence of BMO -type Norms	86
5.4 Approximation by Test Functions	100
6 The Stokes Equations in Spaces of Bounded Mean Oscillation	107
6.1 L^∞ - BMO Estimates for Solutions of the Stokes Equations	107
6.2 Analyticity of the Stokes Semigroup on BMO -type Spaces	128
7 L^p-Analyticity of the Stokes Semigroup in a Non-Helmholtz Domain	149
