Current Developments in European Waste-to-Energy

Ferdinand Kleppmann and Ella Stengler 3

Review of the Best Available Techniques Reference Document (BREF) for Waste Incineration – What is the Current Status?

Markus Gleis 11

Growth Potential for Energy-from-Waste Plant Operators in the European Union and Beyond

Karl-Heinz Müller and Peter Werz 17

Brave New World – Selected Jurisdictional Pitfalls when Acting on International Waste-to-Energy Projects

Tobias Faber and Alexander Stefan Rieger 27

International Experience of Risks Sharing Between Public and Private Entities in Energy-from-Waste Plants Construction

Christophe Cord'homme 41

Wrong Tracks in Waste Management

Thomas Vollmeier, Lukas Schwank and Luciano Pelloni 63

Country Reports

Possibilities of Development of Municipal Waste Recycling and Incineration in Poland

Beata B. Kłopotek 75

Measures to Implement an Advanced Waste Management System in the Czech Republic

Jaromír Manhart 93

Overview of the Waste Management Situation and Planning in Greece

Efstratios Kalogirou and Antonios Sakalis 107

Development of Waste Management in the Arab Region

Abdallah Nassour, Ayman Elnaas, Safwat Hemidat and Michael Nelles 117

Waste Management in India and Experience with the Implementation of Projects Based on Public Private Partnership Model

Sundeeep Kumar 129

Future Development of Waste Management in China According to the 13th Five-Year Plan

Yanlong Li, Zhai Zhengyu, Wenchao Teng, Tianhua Yang and Rundong Li 139

Waste Incineration

Complex Approach towards the Assessment of Waste-to-Energy Plants' Future Potential

Martin Pavlas, Ondrej Putna, Jiri Kropác and Petr Stehlik..... 149

The Added-Value of the Balance Method for Waste-to-Energy Operators and National Authorities

Therese Schwarzböck, Helmut Rechberger and Johann Fellner 161

Development of Waste-to-Energy Projects

Trimurti Irzan, Lukas Schwank and Martina de Giovanni..... 179

Initial Operating Experience with the New Polish Waste-to-Energy Plants

Tadeusz Pajak and Michał Jurczyk..... 189

Enhancing of the Energy Efficiency of an Existing Waste Incineration Plant by Retrofitting with a District Heating Network

Wolfgang Rommel, Thorsten Freudenberger, Markus Hertel and Thomas Moritz..... 201

Disposal of Carbon Fiber Reinforced Polymers – Problems During Recycling and Impacts on Waste Incineration –

Marco Limburg and Peter Quicker 221

Application of Modified NiCrMo Alloy Systems for Boiler Tube Surface Protection in Waste-to-Energy Environments	
Iain Hall, Kwang Han and Triratna Shrestha	237
 Infrasound Solution for Fouled SCR and the Economizer in World's Largest Waste-to-Energy Boiler	
Martin Ellebro and Henrik Blom	247
 Flue Gas Treatment	
 Significance of and Challenges for Flue Gas Treatment Systems in Waste Incineration	
Rudi Karpf and Andreas Wiedl	259
 New Developments for an Efficient SNCR Monitoring and Regulation System by Evaluating the NO_x Mass Flow Profile	
Bernd J. von der Heide.....	277
 Use of a Fabric Filter for the Sorption – What Has to be Considered? – Experiences and Solutions –	
Rüdiger Margraf	291
 CO₂ Capture and Re-Use at a Waste Incinerator
